Re: Bargaining Update #2

Your Bargaining Committee had their first meeting yesterday, February 9, 2023, to work on your bargaining proposals. They are scheduled to meet again on **February 24, 2023**.

It is important for your Bargaining Committee and your Union to have as much input from members in order to address your needs at the bargaining table. If you have not already completed the bargaining survey, please do so now (see attached). Please submit your bargaining survey by **February 23, 2023, at 4:00pm**.

This is your opportunity to have your say on the contents of your next collective agreement. Your Bargaining Committee hopes to hear from each of you.

If you do not receive this bulletin via email, it means that the Union does not have a current email for you. To ensure that you receive information in a timely manner please ensure that the Union has your current personal contact information.
