

Name: Charline Lachance

Location: Smithers, BC

Position: Deskside Technician for NHA but also did 2 years of Service Desk for VPP

I have been working on the PHSA contract for just over 4 years, and before that I was in CUPE with my previous position. I believe that contracts can be beneficial to the employee and employer if well thought out and written.

I believe in fair and equitable compensation and benefits that are useable and helpful to all employees.

I think representation from different geographical areas and different Service Delivery Units is important in getting a great contract for all BCGEU employees with NTT.
