

Bio – Lynda Wines

Hello, I'm Lynda Wines, and I've had the privilege of being a part of the River Rock Casino's Buffet family since the beginning of 2004. My journey here has been filled with experiences that have shaped me into who I am today, and it's an honor to share a bit of that journey with you. From my very first day at the Buffet, I became deeply familiar with the inner workings of this casino. Over the years, I've worn many hats, taking on roles as a bartender, a gracious host, and a diligent cashier. These experiences have given me a comprehensive understanding of how things are run and how they should be run. My aspirations extend beyond personal growth. I'm looking forward to representing my fellow team members and the union. Their trust in me to be their voice is something I take to heart. I'm dedicated to ensuring that our collective interests are heard and well-served, while also contributing to the casino's success. In closing, I'd like to leave you with my commitment, sealed with the words, "So help me God." Please consider me for the bargaining position, and for being a part of my journey at River Rock Casino. It's a journey filled with passion, hard work, and an unwavering determination to make a positive impact in our casino community.
