

IWK Board Recruitment – Confidential Self Identification Form (New Applicants)

IWK Health is committed to being welcoming, safe places where careers are built and our workforce, including our Board of Directors, reflects the patients, families and communities we serve. Self-identification provides diversity data so our organizations can build a culture that supports all team members, and measure progress towards our diversity goals.

We ask that you reflect on our intent of inviting you to self-identify and know that it is your choice to complete this information.

Do you identify with any of these Priority Populations? If you choose yes below, please select from one or more of the options following:
