INTRODUCTION

The first phase of engagement on the Town of Princeton's Official Community Plan (OCP) Review & Update project took place between March 14 and April 30, 2022. Due to public health restrictions brought on by the COVID-19 pandemic, all engagement opportunities during this first phase were virtual, with take home, hard copy options for those without access to technology.

The project intent is to update the Plan based on current trends, issues and opportunities, with a focus on a few key areas identified by Staff and Council. It is not a comprehensive review and update of the OCP but rather a refresh and an opportunity to connect with the community to ensure its continued relevance after 14 years.

Key topics under discussion during the first round of engagement included:

- The Community Vision
- Guiding Principles
- Community Issues
- Community Opportunities

Existing guiding principles are as follows:

- Small Town Character
- Community Connections
- Managing Land Use
- Infrastructure
- Visual Quality and Aesthetics
- Healthy and Active Living
- Environmental Responsibility and Stewardship
- Economy
- Engaging and Protecting the Community

*“A place where you know your
neighbours”*

- Survey Respondent

Engagement opportunities in this phase included:

- Community Survey
- Stakeholder Workshop
- Two Community Workshops
- Take-Home Activity and Comment Form
- Staff Workshop
- Design Contest (ongoing)

COMMUNITY SURVEY

A Community Survey, created through Survey Monkey, was available to the public between March 14 to April 14, 2022. The survey was linked on the project webpage and hard copies were also available to be picked up and dropped off at Town Hall. The survey had a total of 255 respondents and was divided up into the following seven parts:

- Part 1: Demographics
- Part 2: Issues and Opportunities
- Part 3: Growth and Development
- Part 4: Economy
- Part 5: Active Transportation
- Part 6: Environment
- Part 7: Visioning

The survey was intended to cover all topics proposed as part of this update at a high level, with a focus on some key issues and opportunities Princeton is likely to experience over the next 20 years.

See Appendix A for full survey results.

WORKSHOPS

STAKEHOLDER WORKSHOP

A targeted, virtual stakeholder workshop took place through Microsoft Teams from 12:00p.m. until 2:00p.m. on April 5, 2022. This session had eight participants, representing various organizations in the community, including:

- Princeton Community Arts Council;
- Princeton & District Museum and Archives;
- Princeton Food Bank;
- Princeton & District Community Services Society;
- Princeton & District Community Skills Centre; and
- Local Business Owners

This workshop provided some background on the existing OCP before getting into an interactive session which aimed to answer the following four questions:

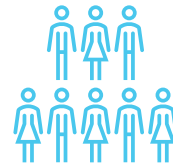

1. What are our priorities?
2. What is our identity?
3. What does growth look like?
4. How do we grow?

The interactive portions of the workshop used Mentimeter, an interactive presentation software which allowed participants to answer questions from their smart devices as they followed along in the presentation.

Core workshop topics included growth management, visual quality and aesthetics, and discussing key issues and opportunities from the stakeholder perspective.

“A destination not just a pitstop.”

- Survey Respondent

COMMUNITY WORKSHOPS

The first virtual Community Workshop, scheduled to take place from 9:30a.m. until 11:30a.m. on April 5, 2022, was cancelled due to low participant sign-up. Those who signed up for this session attended one of the two other sessions.

The second Community Workshop took place from 6:00pm to 8:00pm on April 5, 2022. Fourteen community members were in attendance. This workshop consisted of the same interactive format as the Stakeholder Workshop, using Mentimeter to allow participants to answer questions from their smart devices.

Appendices B through D represent community workshop results and meeting notes.

Top 3 Challenges survey respondents said Princeton will face over the next 20 years:

1. Housing

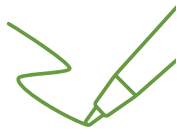

An overall shortage of housing was identified as the main challenge Princeton will face, especially as the population continues to grow.

2. Infrastructure

Replacement of infrastructure damaged by the recent flood event, and overall aging infrastructure were of particular concern.

3. Economic Development

Retention of local businesses and economic diversification were seen as notable challenges associated with economic development.

TAKE-HOME ACTIVITY & COMMENT FORM

A Take-Home Activity and associated Comment Form were offered from April 7 to April 27, 2022. This opportunity included a pre-record video presentation posted to the project webpage with opportunities to pause the video and answer questions on the comment form. The comment form was available for completion online, through Survey Monkey, or a hard copy could be printed off from the project webpage or picked up at Town Hall.

Four families completed this engagement opportunity which mirrored the content of the live workshops. The comment form included open-ended questions related to the following:

- Current trends, challenges, and opportunities
- Small town character, infill development, and Princeton's community identity
- Development Permit Areas
- Growth scenarios and growth management

See Appendix E for Comment Form results.

"We have excellent internet access which gives the town the opportunity to promote all kinds of businesses selling online, including call centres, education, artists, etc. Homebuilders will respond to housing demand as the shortage continues."

-Workshop Participant

STAFF WORKSHOP

A targeted virtual Town Staff Workshop was held through Microsoft Teams on February 28, 2022, with five staff participants. This workshop utilized Mentimeter, an interactive presentation software, to allow staff to answer questions from their smart devices.

The Workshop largely focused on growth management but also discussed environmental challenges, active transportation, and engagement preparation.

See Appendix F for Staff Workshop meeting notes.

Top 3 Priorities survey respondents said Princeton should focus on over the next 20 years:

1. Housing

Respondents suggested Princeton should prioritize catching up with the demand for housing, with a focus on age-appropriate, affordable, and low-income housing.

2. Recreation

Recreation and a need to provide more year-round recreation opportunities for all ages was identified as a key priority. Survey results indicate a desire for a recreation centre that offers amenities such as an indoor pool and permanent pickle ball courts.

3. Infrastructure

Closely tied to Princeton's ability to meet the demand for housing, respondents suggested improvements to infrastructure such as roads, water, and sewer, are greatly needed.

KEY THEMES

VISION

Engagement results indicated that the OCP vision still represents Princeton. 51.9% of survey respondents suggested that the vision still represented the community and should be left as is. 30.5% of survey respondents suggested it could be shortened but still generally represents the community.

GUIDING PRINCIPLES

Engagement results verified that guiding principles of the existing OCP largely still apply.

That being said, there may be an opportunity to streamline the following for clarity:

- Consider restructuring the Managing Land Use guiding principle by:
 - Incorporating a growth scenario into Managing Land Use section
 - Renaming the Managing Land Use guiding principle to integrate growth management components
- Consider restructuring the Community Connections guiding principle by:
 - Removing all components that discuss physical connections (i.e., transportation, active transportation) and redirect these to the Healthy and Active Living guiding principle

- Keep only components that relate to partnerships and relationship building
- Consider renaming this section for clarity

SMALL TOWN CHARACTER

Engagement results indicated that “small town character” continues to be a priority for residents in terms of future direction. 41.4% of survey respondents rated maintaining small town character as “very important” and 21.9% rated it as “important”.

When asked what small town character meant to them, survey respondents suggested the following as most important:

- 46.2% “family-oriented community”
- 42.9% “closeness to nature”
- 37.6% “knowing your neighbours”
- 37.6% “a sense of security and safety”

Related to Princeton’s identity, many residents expressed a desire to capitalize on outdoor recreation opportunities in the area and market Princeton as a “year-round destination”.

“Our identity is obvious, small town recreational paradise. Growth is great, but not sure we want to lose sight of the small town atmosphere.”

- Take-Home Activity Respondent

MANAGING LAND USE

Housing

Housing was by far the most discussed theme of engagement. An overall shortage of housing, as well as rising housing costs, were both noted as major challenges Princeton will face over the next 20 years. This suggests a need to explore how housing policy can aid in housing affordability and availability in Princeton.

Growth Management

During the Staff Workshop, staff agreed that the Official Community Plan would likely need to consider an annual growth rate higher than 0.72% given recent trends. A key direction that came out of this workshop was to ask the community for input on what an alternative growth scenario should look like for Princeton.

Given this direction, growth management and management of land uses in the community were major themes throughout engagement.

Based on historical trends, a 0.72% 'Status Quo' annual growth is projected to create a new development population of 471 people between 2021 and 2042. The 'Status Quo' growth rate does not consider more recent trends of rising building permit numbers, increased demand for workforce housing, and continued business expansion. If the infrastructure and housing are available, growth may occur at a faster pace. This suggests that a more aggressive growth rate may need to be considered to better prepare the community for an upward trend in growth.

The community and staff seemed to agree with these findings, with engagement results suggesting that a more aggressive 'alternative growth scenario' for Princeton should encompass the following:

- An annual rate of growth that exceeds 0.72%
- Population growth distributed somewhat equally throughout sectors with a focus on the Northwest Sector
- A balance of infill and greenfield (bare land) development
- Infill is focused on a balance of horizontal and vertical infill in key development areas
- A split of single-family and multi-family housing development, with multi-family housing mostly focused close to the downtown core

INFRASTRUCTURE

Infrastructure was another major theme throughout engagement. When asked what amenities and services are lacking or could be improved in Princeton, Town infrastructure was rated number one. 51% of survey respondents said that Town infrastructure is currently lacking or could be improved upon. Town infrastructure that was most discussed through engagement included roads, sidewalks, water, and sewer services.

"Liveability for all community members."

-Workshop Participant

ECONOMY

Overall, engagement results indicated a desire to balance continued economic diversification with retention of existing businesses (both small local businesses as well as larger industry).

Most residents seemed to agree that there is no lack of employment opportunities in the community and surrounding area.

Based on engagement results, residents would like to see the following related to the economy:

- More general retail that serves the community (e.g., grocery stores)
- Commercial that serves visitors and tourists - although others indicate a need to focus on serving the local population first
- More of a focus on downtown revitalization
- Some results indicated a desire to regulate vacation rentals however, others suggest short-term vacation rentals likely are not an issue in the community since there are so few of them. This indicates there may be a need to obtain more targeted input into the regulation of vacation rentals

Top 2 Types of Commercial Land

Uses survey respondents said Princeton needs in the next 20 years:

- 1. General Commercial**
74.3% of survey respondents said general commercial (i.e., retail stores, grocery stores, entertainment).
- 2. Tourism Commercial**
61.5% of survey respondents said tourism commercial (i.e., hotels, motels, local attractions, gift shops)

HEALTHY & ACTIVE LIVING

Active transportation and recreation were key themes throughout engagement. Survey results indicated that residents place a high value on walkability, citing it as the most popular mode of active transportation used regularly (at least a few times a month). Comments from the Take-Home Activity also highlighted the importance of recreation to Princeton, with three out of the four families mentioning recreation as an opportunity for the community.

68.2% of survey respondents cited recreation or leisure as their main reason for using active transportation methods; however, results also suggested that poor weather is a major barrier to active transportation use, with many respondents stating that they only use active transportation when the weather is nice.

Engagement results indicated that Princeton residents value recreation, and that more activities are needed in the town for people of all ages, particularly during the colder months.

Residents indicated they would like to see the following related to healthy and active living:

- More year-round recreation opportunities (e.g., recreation centre, indoor pool, permanent pickleball courts)
- More parks, particularly in the downtown area
- Additional sidewalk and trail connections
- Increased accessibility of existing sidewalks (in particular around Wood Bridge)
- Bike lanes in the community, particularly in areas that connect from the Kettle Valley Rail Trail

VISUAL QUALITY & AESTHETICS

The desire to establish a cohesive community look and feel for Princeton was a theme throughout engagement. At the same time, workshop participants also highlighted the need to create realistic development guidelines to alleviate cumbersome barriers to development and investment in the community.

Based on engagement results, residents would like to see the following related to visual quality and aesthetics:

- No added “red tape” where it can be avoided – more of a focus on creating cohesion and safety related to development rather than creating unrealistic design guidelines
- Incorporation of Princeton’s natural surroundings, history, and a ‘western’ feel in design guidelines
- Already a creative community, some pointed to a desire to incorporate more arts and culture (one suggestion was to connect with local artists and creatives for ideas)
- Some design guidelines related to multi-family development were generally supported by workshop participants, but many were not entirely in support of business park design guidelines that focused on anything beyond safety, security, and nuisance issues

Based on what we heard through engagement on design guidelines, more targeted engagement is likely needed to verify community desire for regulated form and character and what this should include/exclude.

OTHER THEMES

Some other themes that emerged from the engagement results included:

- A need for more mental health support and health care services
- Residents expressed mixed feelings on tourism promotion - many support it but some are more focused on providing the services needed for residents that already live in the community
- A need for a better transportation network between communities
- Importance of the environment (especially given recent weather events in the community) – some results suggested a desire to focus on sustainability and interest in becoming known as a “green town”
- A need to consider the aging population in all long-range planning – in particular, many workshop participants indicated that seniors do not have options when it comes to downsizing and aging in place

“A year-round playground,
something for everyone.”

- Survey Respondent

Top 2 Things survey respondents said Princeton already does well:

1. **Providing Essential Services**

48.6% of survey respondents said Princeton does this best.

2. **Parks and Trails**

37.1% of survey respondents said Princeton does this best.

GETTING THE WORD OUT

Several communications methods were used to promote the project and engagement opportunities:

Announcement during Council Meeting

A presentation was made to Council on project progress, proposed engagement methods, and findings from initial technical review during the March 7, 2022 Regular Council Meeting. Public communications for the project officially launched the following day.

Town of Princeton Project Webpage

<https://www.princeton.ca/p/ocp>

The Town of Princeton Homepage also includes a button that links directly to the project page.

Similkameen Spotlight

Engagement opportunities were advertised in the newspaper using the project promotional poster and design contest. The posters were posted in the Similkameen Spotlight a total of five times throughout the first phase of engagement.

Legislated Referrals

Legislated referrals were sent out in Winter 2021 to the following agencies:

- Regional District of Okanagan-Similkameen (emailed)
- Upper Similkameen Indian Band (emailed and called)
- Vermillion Forks Meti Association (mailed)
- Agricultural Land Commission (emailed)
- Ministry of Transportation and Infrastructure (uploaded to eDAS)

Stakeholder Emails

Starting on March 8, 2022, stakeholder emails were sent out approximately once a week (a total of five emails) during first phase of engagement to the notify stakeholders of the various opportunities to participate. Emails were sent to the following:

- **Government** (i.e., Upper Similkameen Indian Band, Regional District of Okanagan-Similkameen)
- **Council Committees** (i.e., Princeton Community Arts Council, IHA Infrastructure Committee, Princeton Health Care Steering Committee)
- **Business and Development Groups** (i.e., Princeton & District Chamber of Commerce, Similkameen Valley Planning Society, Highway 3 Coalition)
- **Recreation and Trail Groups** (i.e., China Ridge Trails Society, Princeton Pickleball Association)
- **Major Employers** (i.e., Weyerhaeuser Sawmill, Copper Mountain Mine, BC Green Pharmaceuticals)
- **Developers and Realtors** (i.e., Otter Valley Developments, Marrus Development, Valley Rivers Development, Century 21 Horizon West Realty, Royal Lepage Haayer Realty, Princeton Realty, 4 Flowers Realty, Ryzak Realty)
- **Social Service Agencies** (i.e., Princeton & District Community Services Society, Princeton Senior Citizens Drop-In Centre Society, Princeton Family Services Society, SOS Rural Healthcare Community Coalition, Princeton & District Community Skills Centre)
- **Services Clubs** (i.e., Rotary Club of Princeton)
- **Arts and Culture Groups** (i.e., Vermillion Metis Association, Princeton & District Museum and Archives, Princeton Community Arts Council, Princeton Exhibition)

Association, Okanagan Public Library, Princeton & District Fall Fair Association, Princeton Traditional Music Society, The Maeve Lily School of Music)

- **Youth Groups** (i.e., Girl Guides of Canada, Boy Scouts of Canada)
- **Churches** (i.e., Princeton Baptist Church, New Hope Christian Fellowship, St. Pauls – St. Cuthbert Church, Living Water Community Church, St. Peter's Catholic Church)
- **Schools and Daycares** (i.e., School District #58, Princeton Secondary School, John Allison Elementary School, Vermillion Forks Elementary School, Continuing Education SD 58, Princeton Family Place, Little Seeds Early Learning Centre)

Facebook and Voyent Alert! Posts

Engagement opportunities were posted to the Town of Princeton Facebook Page and Voyent Alert! App every few days reminding residents of opportunities to provide input. The Town of Princeton Facebook Page has a reach of 2,000 followers and Voyent Alert! App has approximately 950 users.

Posters

The design contest and project promotional posters were also posted at various local businesses, Town Hall, the library, schools, etc.

POLICY DIRECTIONS

The following are some potential policy directions Princeton could consider based on what was heard through engagement:

- Conduct an Age-Friendly Assessment and develop an Age-Friendly Plan
- Explore funding opportunities for development of affordable and/or low-income housing
- Incorporate a growth management section in the OCP and develop the

‘alternative growth scenario’ as identified by the community (higher annual growth rate, balance of infill and greenfield development, etc.)

- Develop more detailed, clear policies on infill and densification in the OCP
- Conduct a comprehensive Active Transportation Assessment of the community and develop an Active Transportation Plan/Strategy

GET IN TOUCH

Stay tuned! The second phase of engagement will ask for input into the draft OCP which will be updated based on input we received during this phase.

86	Full service hospital with specialty's coming here instead of us having to travel. Interconnected bike/ hike trails including all the dikes. Regular /timely road maintenance. Proper signage.	4/3/2022 10:51 AM
87	I would like to see more programs	4/3/2022 10:17 AM
88	Roads and water need WORK. Would like to see more trails, not just the KVR. More options for hiking to destination like lakes, waterfalls,	4/3/2022 9:03 AM

Princeton 2042: Official Community Plan Review and Update Survey

89	Ultrasound clinic, women's health practitioner, promotion of adult recreational programs, promotion of children's recreational programs	4/2/2022 7:44 PM
90	Princeton is lacking in almost everything	4/2/2022 7:12 PM
91	More kid/family activities on weekends (or just maybe better advertising for any current weekend programs/activities). More programs/activities for adults so that people can get to know each other.	4/2/2022 9:05 AM
92	We need more housing, industry and shopping	4/2/2022 7:33 AM
93	we need more daycares asap	4/1/2022 9:47 PM
94	Assisted living for seniors or a gated senior community	4/1/2022 9:32 PM
95	Indoor pool and utility infrastucture	4/1/2022 7:53 PM
96	More picnic tables on trails and in parks for people to sit. A walking system needs to be part of the new pool/rec centre as walking conditions are horrible for older folks.	4/1/2022 4:46 PM
97	Water and sewer upgrades	3/31/2022 2:14 PM
98	more than one grocery store	3/31/2022 10:23 AM
99	A significant portion of our community does not have clean drinking water and likely will not for several years. This is completely unacceptable.	3/30/2022 3:55 PM
100	Some form or actual rec center intown to have groups and organizations meet and have event sort of like a event hall like place but in town and open M-F 9am till 10pm and Sat,Sunday 10-10	3/30/2022 3:23 PM
101	Parks in Princeton are mostly older with aged playground equipment and amenities.	3/30/2022 10:39 AM
102	Not a huge variety of programs/sports for kids, I can see it's slowly changing though	3/30/2022 8:57 AM
103	More senior winter activites. More street sweeping.	3/29/2022 3:48 PM
104	Another grocery store would be great, no competition causes the prices to be way to high. I don't know of any adult programs so maybe more advertising.	3/29/2022 2:54 PM
105	Help expand childcare	3/29/2022 2:19 PM
106	a pool and sports programs, soccer etc. Help the daycare expand to provide more childcare spaces :)	3/29/2022 2:15 PM
107	Disaster preparation, updating water/sewer, trails	3/29/2022 9:35 AM
108	Childcare should be available later in day to support mine workers, and available on weekends to support mine/retail workers. Essential services- more mental health services, jobs, low income housing	3/24/2022 9:34 AM
109	Seniors walking area (indoors)	3/17/2022 3:04 PM
110	more programs for kids and options of classes and activities for them would be amazing. Childcare is GREAT here, but there is a wait list and I know that's been hard for people	3/17/2022 1:20 PM
111	Tennis courts, pool, community Rec centre	3/17/2022 12:00 PM
112	Anything that encourages interaction. The town seems very restricted	3/17/2022 11:33 AM
113	No childcare ! Why would famies come here if there's no childcare	3/16/2022 8:22 PM
114	water and sewer infrastructure, with land to add affordable housing	3/16/2022 6:52 PM
115	Water needs improvement as most is boil only	3/16/2022 9:10 AM
116	Clean up of water park. Activities for kids	3/16/2022 8:47 AM
117	More grocery store options	3/15/2022 9:50 PM
118	More kids/adult recreational sports teams or better advertising if they already exist.	3/15/2022 8:05 PM
119	Road repair (especially now but even prior to the flood)	3/15/2022 7:04 PM

Princeton 2042: Official Community Plan Review and Update Survey

120	Theatre, pool, rec centre, another grocery store, support smaller businesses so they don't keep shutting down	3/15/2022 3:51 PM
121	The parks and trails are important.	3/15/2022 1:03 PM

130	Homeless & welfare need attention both good and bad	3/15/2022 8:18 AM
131	A walking path away from traffic connecting Deerview subdivision to downtown. More weekend adult programs.	3/15/2022 7:05 AM
132	We need a indoor pool facility	3/15/2022 2:01 AM
133	more rental housing. More kids activities	3/14/2022 11:03 PM
134	Another grocery store for competition. Updated water and sewer systems.	3/14/2022 10:27 PM
135	Year round pool so senior and families can enjoy. Childcare there is not enough and should be more than one childcare centre and also more than one grocery store so they can't manipulate the prices	3/14/2022 10:05 PM
136	More childcare	3/14/2022 9:51 PM
137	Grocery competition, senior housing, pool but with buy in from school district nd interior health	3/14/2022 9:41 PM
138	Child and youth sports, arts, and activities. A pool that can host swim meets	3/14/2022 9:24 PM
139	With restrictions finally lifting it would be nice to see day camps and more activities aimed at younger kids (aged 5-10). I know we've all made due in the past but diversity would be great!	3/14/2022 8:37 PM
140	competitive grocery store, more industry, housing is in desperate need	3/14/2022 8:25 PM
141	Streets and sidewalks are a disaster even before the flood	3/14/2022 8:21 PM
142	More grocery options so it's not a monopoly. And snow removal/road conditions could be improved greatly	3/14/2022 8:08 PM

5	Except for my first 2 years in Princeton, (moved here 30 years ago), I have been lucky enough to have always owned my home - so have not been personally impacted by the current shortage of housing. However, I see the impossibility of finding housing, (never mind it being affordable to them) among friends, my kids, and my former low income clients. A place to rent is so hard to come by, adult kids are having to move back in with parents with no hope of finding a place to rent of their own, let alone even considering being able to buy one. The choice between eating or having a roof over your head is becoming commonplace. Thank goodness for the food bank in town.	4/11/2022 11:10 AM
6	I would like to see more housing for seniors and low income.	4/11/2022 11:06 AM

Q24 In 2016, single family homes (low density residential) accounted for 83% of all residential development in Princeton. This is projected to remain the same throughout the next 20 years if we continue with the 'business as usual' approach. Princeton has a smaller average household size and lower median household income when compared to regional and provincial numbers. This could indicate a need to consider more diversity in the housing stock for smaller households (e.g., apartments, townhouses, duplexes). Please indicate on the sliding scale below how you think residential development should be divided up in Princeton over the next 20 years: (If doing hard copy survey please indicate with an 'x' on the slider)

Q27 Princeton has a lack of supply of housing and low number of tourist accommodations (i.e., hotels, motels). Short-term vacation rentals (Airbnb, VRBO, etc.) have become popular in other small communities as a means of increasing household revenue and filling a gap for visitors. While this benefits the community, it can also negatively impact the supply of long term rentals. Regulating vacation rentals could be a way to help ensure housing is available for new residents/workers in the coming years. Regulations can include any number of measures from simply requiring a business license for short-term rentals to limiting the number of vacation rentals in a community and/or limiting the time period of a short-term rental stay. Do you think vacation rentals should be regulated in the community? (i.e. Airbnb, VRBO, other short-term vacation rentals)

Q37 Extreme weather events are becoming increasingly common, with Princeton experiencing two major events in 2021 alone (wildfires, flooding). Please rate the following in terms of how strongly you agree or disagree with the need to strengthen policy or regulations around these different types of natural disasters:

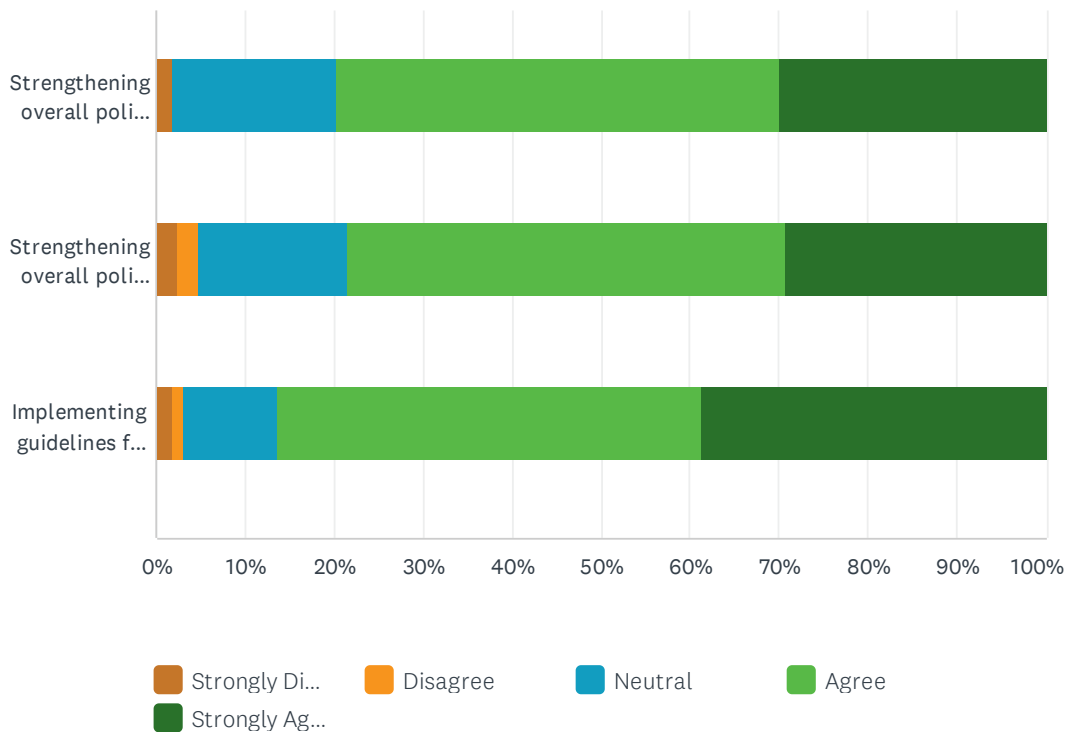

Answered: 168 Skipped: 87

Q38 Princeton recently adopted a Community Wildfire Resiliency Plan and completed a Similkameen River Flood Mitigation Planning Report. These are just two recent measures the Town has undertaken to help mitigate and plan for the continued impacts of climate change. We would like to know what else Princeton could be doing to be environmentally responsible and promote stewardship. Please rate the following in terms of how strongly you agree or disagree with these statements:

1	The Town of Princeton needs to practice what they preach... if you put water restrictions on your community you better follow them as well... it was terrible to watch our gardens our food die while you watered the cenotaph	4/11/2022 12:22 PM
2	Have town fire training for residents	4/11/2022 11:41 AM
3	Fire fighting has become a business and has not necessarily become better. Slow reaction times to answering calls can become catastrophic	4/8/2022 10:28 PM

Q39 A vision is an inspirational statement of an idealistic future for a community. Our existing OCP vision was written in the year 2008, looking 5 to 10 years in the future. This existing OCP vision is as follows: "Foster a Healthy Community" Five to ten years from now Princeton is celebrating its rich history, community spirit, and outdoor recreation opportunities. New development has inspired and energized the community, creating a unique and memorable experience for residents and visitors alike. This includes promoting and supporting sustainable development and further enhancing Princeton's strong regard for heritage and its community, including the individual identity of each neighbourhood in Princeton. Natural resource opportunities contribute to a flourishing economy. The Town Centre is vibrant and attractive. Community activities and businesses are focused in the heart of the Town Centre. People can explore various shops and boutiques and dine at a fine restaurant. New development provides a variety of housing choices. The Town has experienced new growth and energy, yet still retains its appeal and character as a small town. The Town is thriving as a service centre for the region, providing commercial and industrial business opportunities, recreation and tourism amenities, and stable health care services. These facilities support Princeton as a central meeting place for visitors and advance the economy. Princeton is recognized as a destination for cultural, artistic and recreational pursuits and is a community of choice to live and visit within the BC Interior. The OCP vision speaks to where we want to go and what we want to be in 20 years.. Do you think this vision still represents our future direction?

1	I think this is a good vision but Princeton still has a long way to go to meet this vision. So many downtown buildings need paint and upkeep -start there.	4/12/2022 5:10 PM
2	Would prefer if the town moved a bit away from the 'caribou - kootenay' feel of improvements - ie. log entrances. Would prefer a 'west coast' style more - structures with timber beams not logs - steam punk style statues.	4/12/2022 4:12 PM
3	It uses too many words that really say nothing. Be more precise.	4/12/2022 2:26 AM
4	Less focus on tourists.	4/11/2022 10:32 PM
5	?	4/11/2022 4:49 PM
6	There should be more transportation available and more store hours at night.	4/11/2022 3:38 PM
7	I would love to see our town become a "Green Model" town to show others how it could be possible. and this should be reflected in the vision	4/11/2022 3:36 PM
8	It needs to be updated. At least showing it was updated. Having it state 2008 and not coming close to the vision is embarrassing.	4/11/2022 2:52 PM
9	More sustainable minded and environmentally friendly	4/11/2022 2:49 PM
10	Much focus is needed for sidewalk cafes/ clothing stores and wider, cleaner streets to encourage strolling through town.	4/11/2022 1:39 PM
11	stop all new single family construction and focus on low income multi family construction	4/11/2022 12:31 PM
12	Less reliance on natural resource extraction more diversity	4/11/2022 12:05 PM
13	Changing times. Weather, economy and , human needs are less predictable. Town needs to have adaptability and sustainability for the future.	4/11/2022 11:37 AM
14	i think keeping our health care system at a high level is important	4/11/2022 11:29 AM
15	More apartments & seniors and assisted living housing and less single family units.	4/11/2022 11:24 AM
16	Suggest that we push tourism, we are a natural resource community. Building up our tourism gives us another year round sustainable piece to the puzzle should one of our natural resource businesses leave or slow down.	4/11/2022 11:13 AM
17	Better walk in clinic with nice receptionists that actually enjoy their job	4/11/2022 11:10 AM
18	While 1st off even though we are a small town we are already being subjected to urban sprawl Development should be densified and centralized. Additionally how far downtown is closed so the above statement has definitely not been followed over the last 15 years If those ideas had been followed then maybe the town would be a little nicer but our downtown is falling apart was falling apart and people are constantly complaining about the state of our sidewalks and Lack of choice When it comes to shopping . I have a long way to go to achieve the ideals in the original community plan and it should be updated to reflect the feelings of residences today	4/11/2022 10:40 AM
19	As it is ok to keep the town historic there is also a fine line of the town looking run down and there are too many old building fronts that do look run down. Also businesses and properties in the downtown core that look like junk yards and eye sores with zero curb appeal. To many empty shops. Also we have to many second hand and thrift shops. Although sometimes there are great finds they are also few and far between.	4/11/2022 10:37 AM

20	The challenge seems to be in having local boutique shops and businesses that would help to draw outdoors enthusiasts. Encourage younger folks to visit or live here. Build businesses and promote local.	4/11/2022 10:37 AM
21	The downtown is not a lively place anymore, we need to attract small business to town and support them as a community. While there has been a big surge of houses being built, Princeton desperately needs new multi family residences. Encourage local builders to have this vision by bare land incentives.	4/11/2022 10:35 AM
22	Need more and better places for live music. The downtown isn't set up correctly for these events. None of the licensed places except the Legion are set up for live events. The old Princeton Hotel is really missed. It always had live music. The rodeo grounds are not the greatest either. Any outdoor music venue needs toilets, shade and grass if possible. An amphitheater set up like Rock Ridge be nice if possible. A green space open air venue in the old Overwaitea possibly.	4/11/2022 10:32 AM
23	The town isn't a thriving business as there isn't affordable housing, hotels, and businesses are closing down. There needs to be competitive pricing and homes for all people that are affordable for everyone to be in. However, I love the people here in Princeton whether they love or don't really get along with their neighbours, in a crisis band together and get through the hardships as a community.	4/11/2022 10:23 AM
24	Make it more concise	4/11/2022 10:18 AM
25	It's important to not see growth as a bad word. A lot of "lifers" in this town look at growth as the end of Princeton as they know it. Growth and heritage can exist at the same time. I have lived her since 2018 and the amount of businesses I have seen close or open and close quickly is staggering. In their effort to "keep Princeton just as they remember it growing up", people are going to find that eventually Princeton will be closed for good. I appreciate the small town charm and believe it should be preserved but it should not be the sole focus at all costs.	4/11/2022 10:15 AM
26	in order to welcome new businesses and people to the area we need to be creative and not just rely on existing businesses like forestry and mining. Sustainable industry like tourism, health centred industry, with emphasis on safe and healthy living.	4/9/2022 6:46 PM
27	The shifting of population from urban cities to a more rural area should be encouraged, but appropriate amenities such as medical facilities should be improved upon	4/9/2022 8:25 AM
28	The town is no longer vibrant.	4/8/2022 11:06 PM
29	Centralized recreation center, pickleball courts permanent	4/8/2022 10:18 PM
30	We just feel you should always update to make things better for the towns future but still keep some of the past	4/8/2022 10:05 AM
31	Get rid of the expensive indoor pool plan that is unattainable and look at a proper community centre thats more realistic	4/7/2022 8:21 AM
32	The Town Center main street is far from being vibrant and attractive, The Down Town core is outdated and in need of a major face lift. The down town is in need of a recreation center to retain and attract people to the community. We don't need a swimming pool to make this happen.	4/5/2022 5:35 PM
33	My suggestion is to incorporate words of alignment from the vision statement into other guiding documents, policies and decision tools the town uses so that collectively everything is aligned with the vision statement.	4/4/2022 11:06 PM
34	De-emphasize the natural resource economy as I feel diversification is key. I would like to see an environmentally sustainable growth strategy that acknowledges climate change in the OCP as well.	4/3/2022 8:10 PM
35	Focus should not just be the town core, but expand outward to include beautification of other areas. Improving trails to Cormack marsh, Swan lake, airport area, and others encourage walkers to visit these areas, improving health & wellness.	4/3/2022 10:41 AM
36	Maybe add sustainable resources are important here, and that the community is doing it?	4/1/2022 8:31 PM
37	I believe that before we move forward with any building or beautify our town our water and sewer services are first and foremost the most important. The dyke needs major upgrade then we can move forward with the rest of the planning thank you	3/31/2022 2:57 PM

38	Unfortunately the town has lost some wonderful youth programs and the lack of affordable rentals is not helping our town. I would love to see more programs for youth and young adults to be involved in as well as some kind of affordable rental housing.	3/31/2022 10:48 AM
39	We need to focus on water infrastructure immediately	3/30/2022 4:09 PM
40	not shortened but a greater importance to healthcare more then stable as that is just barely what we have now	3/30/2022 3:46 PM
41	Statements regarding Princeton as a destination should be eliminated	3/29/2022 9:53 AM
42	I like it, it could be shorter though. "Foster a healthy community" is very generic	3/24/2022 9:55 AM
43	Take out the part about being a small town. Id be fine if this town ends up growing (bringing in more businesses, amenities, housing, people, etc)	3/15/2022 4:19 PM
44	Bring in more tourists	3/15/2022 10:27 AM
45	Princeton needs to focus on growing and welcoming young families to the community and offering more amenities to the younger families/younger crowd.	3/15/2022 10:16 AM
46	We have grown and changed as a community. Our vision has as well. It will be interesting to see what will come of the survey to inform that.	3/14/2022 9:58 PM
47	Economy is a huge factor in the growth of Princeton and without a person that has a repour with the business community the future businesses will not commit to this community. The unaffordable housing in our town is playing a key factor in employment opportunities as employees have no where to live and after the flood now there are less affordable housing. As a business owner and resident i see alot of money being spent on the ascetics instead of the infrastructure and housing. Looking at new statues which by the way do not even represent our own wildlife and new signs do not replace everything our town is in desperate need of.	3/14/2022 9:21 PM
48	We've made a good start to revitalizing the downtown core. The current statues are more than enough. Focus needs to be on housing and cleaning up the rest of the town core and outlying neighbourhoods	3/14/2022 9:00 PM
49	We need to grow our population. We need to focus on housing developments. We need Princeton to be a place that people want to move to, to raise their families. But at the same time not have to give up the benefits of big city living.	3/14/2022 7:51 PM
50	More social service supports, more preventative health/mental health programming	3/14/2022 7:35 PM
51	Unsure	3/14/2022 7:21 PM
52	It's suggests that we are not an end destination, that we are a pass through where people meet. It's also suggests that we keep town character and history. I feel our historic buildings are obsolete and not a tourist attraction but more of a detriment...except the brown bridge. Our core looks tired and unmaintained - not the town owned section but the freehold buildings. I think our vision should be giving city folks the small town feel with the bright and shiny city amenities. Make them want to move here to open their dream business somewhere clean and nice. Industry strong with a good median income base	3/14/2022 6:44 PM
53	Heritage should be changed to a more encompassing idea/word/phrase it feel like "white man" history is all that is represented in this town. Neighbourhoods in this town don't have identity. They are older or newer. Focus on more than natural resources for economic growth.	3/14/2022 5:52 PM
54	The "growth" aspect needs to be removed as Princeton will suffer if it continues to expand.	3/14/2022 1:53 PM
55	trying to cover to much ground, work one from each group	3/14/2022 1:16 PM
56	None	3/14/2022 12:05 PM
57	We need to live up to the statement "The Town Centre is vibrant and attractive.".	3/14/2022 11:46 AM

#	RESPONSES	DATE
1	It would be great for Princeton to be known as a great place to raise a family. Right now it is really really hard with such limited kids and youth programs. Work with the Princeton Baptist Church to utilize the chapel building for youth programming. Keep raising funds for a recreation centre - it will change the town.	4/12/2022 5:10 PM
2	Attractive down town core, clean and well kept community facilities.	4/12/2022 4:12 PM
3	-	4/12/2022 11:51 AM
4	Nature, community, diversity	4/12/2022 10:05 AM
5	A wholesome and safe place to live, work and play.	4/12/2022 2:26 AM
6	Not the freaking statues.	4/11/2022 10:32 PM
7	A place worth stopping in & walking around downtown	4/11/2022 4:49 PM
8	Where you feel safe . Where you can relax and enjoy life. Low crime no gangs or shooting. The community is friendly and strong . The one thing I know is people actually care about each other and look out for each other. We love living here. We came from Langley.	4/11/2022 4:48 PM
9	I love that our people care for each other. I know we have some who are difficult but most of this community is generous and kind. I love that and hope it can continue. I think for that to happen, we need to continue to support mental health, social programs and the arts.	4/11/2022 4:07 PM
10	Friendly town of Variety	4/11/2022 4:03 PM
11	A small nice town in a conservative community.	4/11/2022 3:38 PM
12	I would love to see our town become a "Green Model" town to show others how it could be possible. including green building bylaws, incentives for alternative power such as solar, incentives for green businesses to come to town	4/11/2022 3:36 PM
13	not sure	4/11/2022 3:36 PM
14	Vibrant like it states in the vision. Having lots to do not just outdoor activities. Somewhere thats not just a gas stop for people driving through. Variety and options.	4/11/2022 2:52 PM

58	A great place for the meeting of Family, Friends and Business	4/8/2022 10:05 AM
59	A family oriented community that includes everyone in the fun, young and old alike. I think an indoor recreational facility would be very welcomed addition to our community. For people who can't get out and joy the outdoors in the winter I think it would be so nice to have a place to go and enjoy Pickleball or other indoor sports as a family. In the winter months when travel is sometimes impossible with the road conditions, it would be great to have somewhere to go and still be affordable for a family	4/8/2022 9:00 AM

66	Small town rural community, known for its history of First Nations, ranching, mining, etc. Respectful of its environment, and the beauty of its countryside. Awareness of not bringing city life into its boundaries, such as traffic jams, lack of parking, light and noise pollution.	4/6/2022 5:25 PM
67	Work and Play family community for all ages and abilities.	4/5/2022 5:35 PM
68	Its ranching and mining history. Friendly and interesting to visit - shops, good food and social centers...craft breweries. Family activities - recreation/leisure center.	4/5/2022 4:20 PM
69	To have tried and succeeded or failed, rather than to have not tried at all. Princeton needs to grow, so lets facilitate growth aligned with the vision statement. We should be accountable to meet the vision statement. Having been here since the last one was written, I don't think we achieved much from it since 2008.	4/4/2022 11:06 PM

73	I would like to see the town become a tourist hub for the recreation areas around us. We can and should be known as the gateway to Manning Park as well as the gateway to the Okanagan with diverse housing, thriving shops and restaurants and ample amenities for residents and visitors alike. I would like to see a town that isn't afraid to invest in itself and one that augments the natural beauty of the area with an equally beautiful downtown.	4/3/2022 8:10 PM

95	I would like Princeton to be know as a family oriented community where families can afford to own a house. A place that has character and small town "style" in the down town area to attract tourists to stay a few days and not just "pass through" A place you can enjoy nature and solitude. A place with great little restaurants and coffee shops. A place with vibrant churches and places of worship that are growing and supporting the community at large. 103	The idea that a small community can have multiple high paying jobs, good corporate partners and opportunities for young people that encompass a wide variety of interests. Additionally, an area that needs attention is our schools. Historically, a group of schools that were well-regarded for academics and athletics. As a parent who put two children through the system (both attended and graduated universities), there is much to be desired about our current schools. Learning and opportunity need to be addressed. A community can only be as strong and vibrant as its young people.	3/15/2022 1:22 PM

families, friends and visitors are excited to come here and possibly could see themselves living. Princeton is a growing community and more people are finding about it and loving the area. This town needs to grow in order to maintain its cute small town but not too much growth. With it being a major part of some peoples roadtrips, Princeton needs to be able to grow to handle all of the new tourists/visitors that come here during a part of their summer drive or pit stop during the winter. With this town being a place where people could potentially get stuck over night due to any major weather events, Princeton should be able to handle the sudden influx of people by being welcoming, having the support needs like later hours for some restaurants and even businesses so people can have something to do and be able to eat later if they get stuck later or drive into town later and do not want to have a gas station meal or snack.

1	Put more resources towards recreation programming for kids and adults and continue to instill pride in the community by giving downtown business incentives to paint and upgrade buildings. The town looks run down and business owners should be required to maintain buildings - remove the junk yard by the carwash, inspire new business in the open lots on main street.	4/12/2022 5:10 PM

addressed especially hard drugs and theft. We need to encourage a larger entertainment venue such as a waterside park or permanent fair like Calaway park in Alberta to keep tourists in town for longer than a day. We need to do something unique like allowing atvs to drive in town and really pushing ALL THINGS THAT CAN BE DONE IN NATURE, including hunting, Oliver mining fishing, photography, wildlife viewing ect.

38	The town needs to address local businesses that have old vehicles etc in downtown core.	4/7/2022 10:41 AM
39	I would hate to see Princeton become over developed, and lose its small town appeal. I can understand why people want to come from the cities to live here - that is just what I did. I worry that we will spoil our town by trying to appease the mine and mill in providing housing for their workers, which may not actually work, or by trying to increase the tax base as a form of revenue, which I know we do need for wells, etc. If we have to expand, do it thoughtfully, and gently, trying not to overwhelm one particular community - such as the airport area. Why can't development also occur in Area H, such as on the Dunes, and in other areas that don't impact existing communities? Lets do this carefully, not greedily, and with an eye to the future in regards - what happens to all this development if the mine and mill should close. We don't have to provide housing for everyone that wants to come here, that is life unfortunately.. if we provide housing, it really should be to help long term locals get onto the property ladder - so first time buyers housing, etc. Many thanks.	4/6/2022 5:25 PM
40	Please revitalize the down town core, please build a Indoor recreation center for the community, the recreation department needs a makeover, the curling, minor ball, slow pitch, soccer, fastball have all died off, something is wrong here, lets bring in an outsider to fix this the local core have lost it, not empressed, we can do a lot better.	4/5/2022 5:35 PM
41	Don't grow too fast or too big and busy. Keep the small town look and feel...new businesses should fit the theme/feel of Princeton. Don't allow them to change the flavor of the town by being too large and modern. Don't allow big box stores.	4/5/2022 4:20 PM
42	Timely sharing of information either in hard copy of social media platforms is critical in all situations. Maybe a social media manager is a required position going forward to keep residents informed and engaged. We are hit and miss IMO.	4/4/2022 11:06 PM

62	Can't say that it has good recreational facilities when we don't even have a pool year round	3/14/2022 10:19 PM
63	Rumour is that a 6 story apartment block with 126 units is to be built on the west coast equipment property right along the river. Do we really need a six story building in princeton, even looking way down the road. Also I think there are enough storage businesses 4 in town. They don't generate many jobs I think a pool would be feasible if we could get the school district to buy in as part of the PE program as swimming is a life skill, get interior health to buy in with warm pools for physiotherapy and motion expansion activities as well as the straight benefits of swimming. I have seen warm pools where. Wheel chair is driven down ramp into the pool and the person is then moved out to sit on a bench or divots in a bench for therapy. If we could get these other agencies to buy into and use the pool regularly it could happen	3/14/2022 10:10 PM

71	I think it is important to consider a holistic approach to landuse planning (http://www.bccdc.ca/pop-public-health/Documents/HBE_linkages_toolkit_2018.pdf page 8). I don't think the focus should be all about the downtown core, but also think we should consider each neighbourhood (deer view, west ridge, the tunnel, the benches, etc) as a micro-community of mixed land uses with high walkability.	3/14/2022 6:56 PM
72	Examine lot sizes in relation to zoning, focusing on downtown. Some lots on Penry can't be multi family because of their size	3/14/2022 6:44 PM
73	Pursue building an indoor swimming pool outside of the downtown core	3/14/2022 6:09 PM
74	More condos in down town area with store fronts on ground level. Solid patio spaces so messes are hidden.	3/14/2022 5:52 PM

Which of the following best describes you?

Not a resident - I live outside of the Princeton and outside of the Regional District of Okanagan-Similkameen

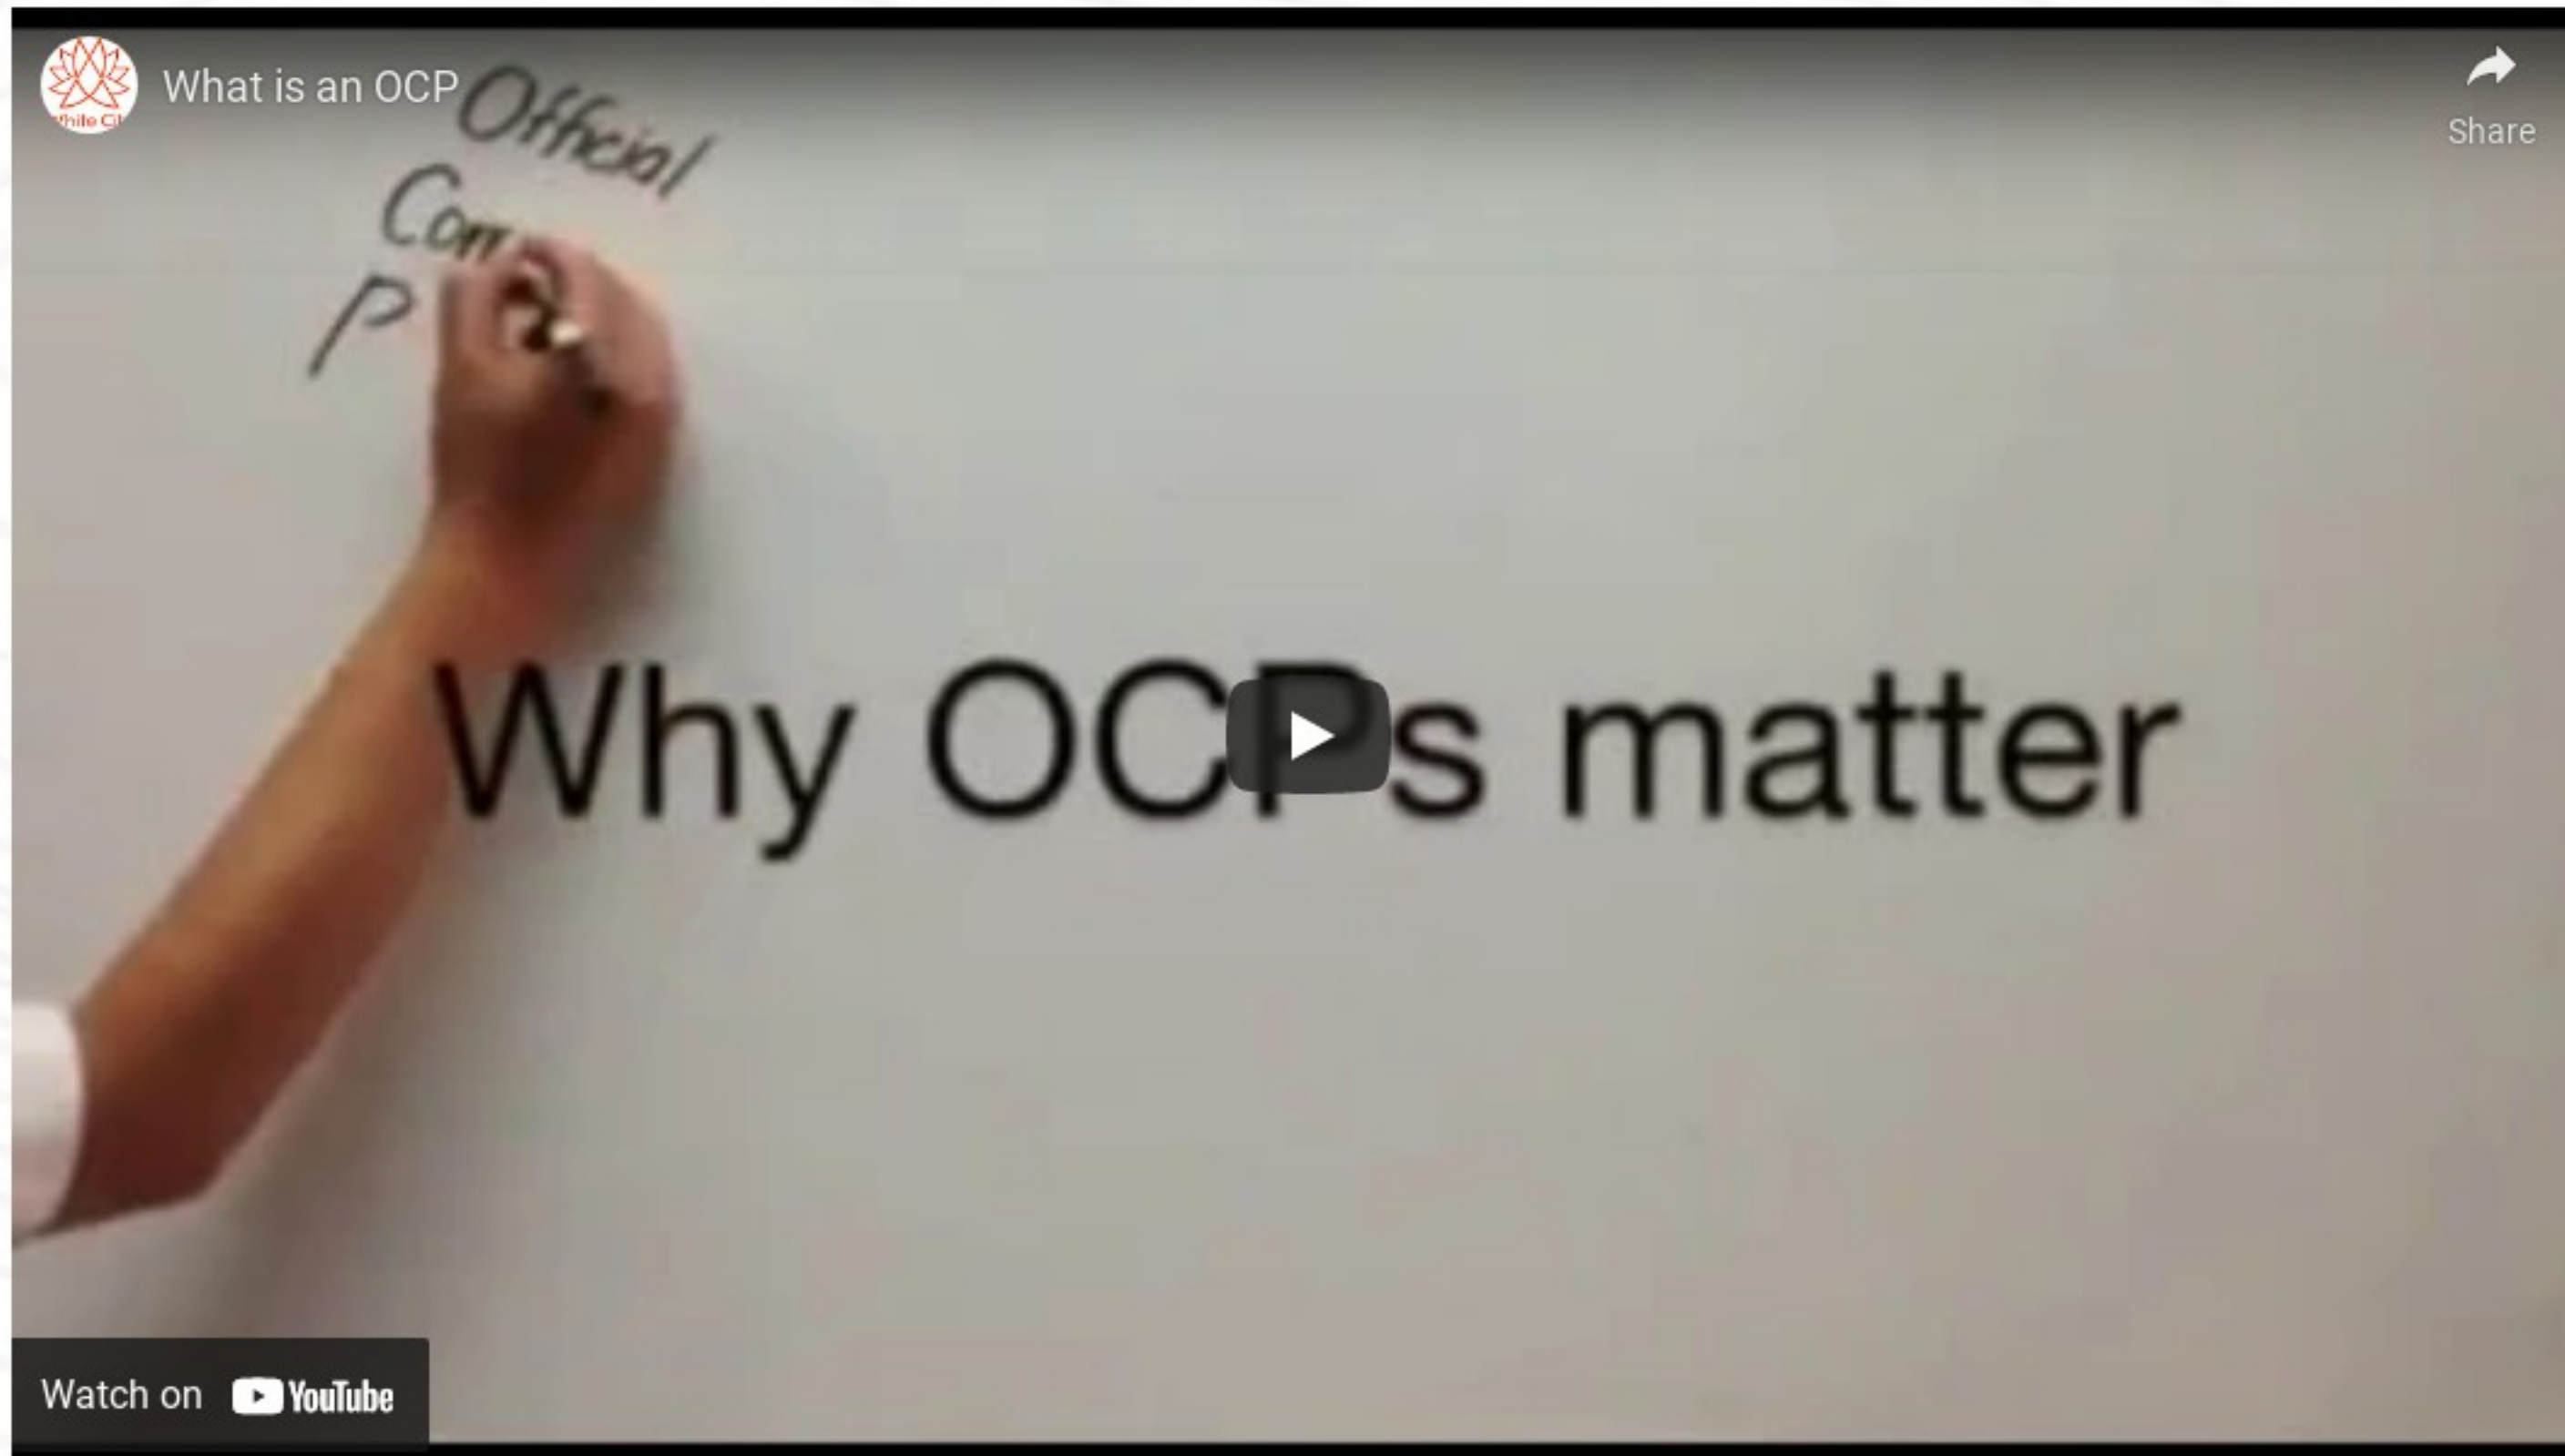

Full-time resident of the Town of Princeton

What is an OCP?

- Overarching **long-range** planning document
- Guides **growth & land use**
- Sets out plan for community for next 20 years (to **2042**)

What is an OCP?

1

PLANS & STRATEGIES

Plans & Strategies could include:

- Parks and Recreation Strategy
- Climate Action Plan
- Emergency Planning (Wildfire, Flood, etc.)
- Housing Needs Report

2

BYLAWS

Bylaws could include:

- Zoning Bylaw
- Building Bylaw
- Subdivision and Development Servicing Bylaw

3

CAPITAL & FINANCIAL PLANS

Capital & Financial Plans could include:

- Annual Municipal Report
- Development Cost Charge Bylaw
- Fee Bylaw

**WHAT DOES
THE OCP
INFORM?**

Why is an update needed?

- Existing OCP adopted in 2008
- New issues & opportunities in last 14 years
- Potential shift in public priorities
- Local Government Act requires reviews/updates

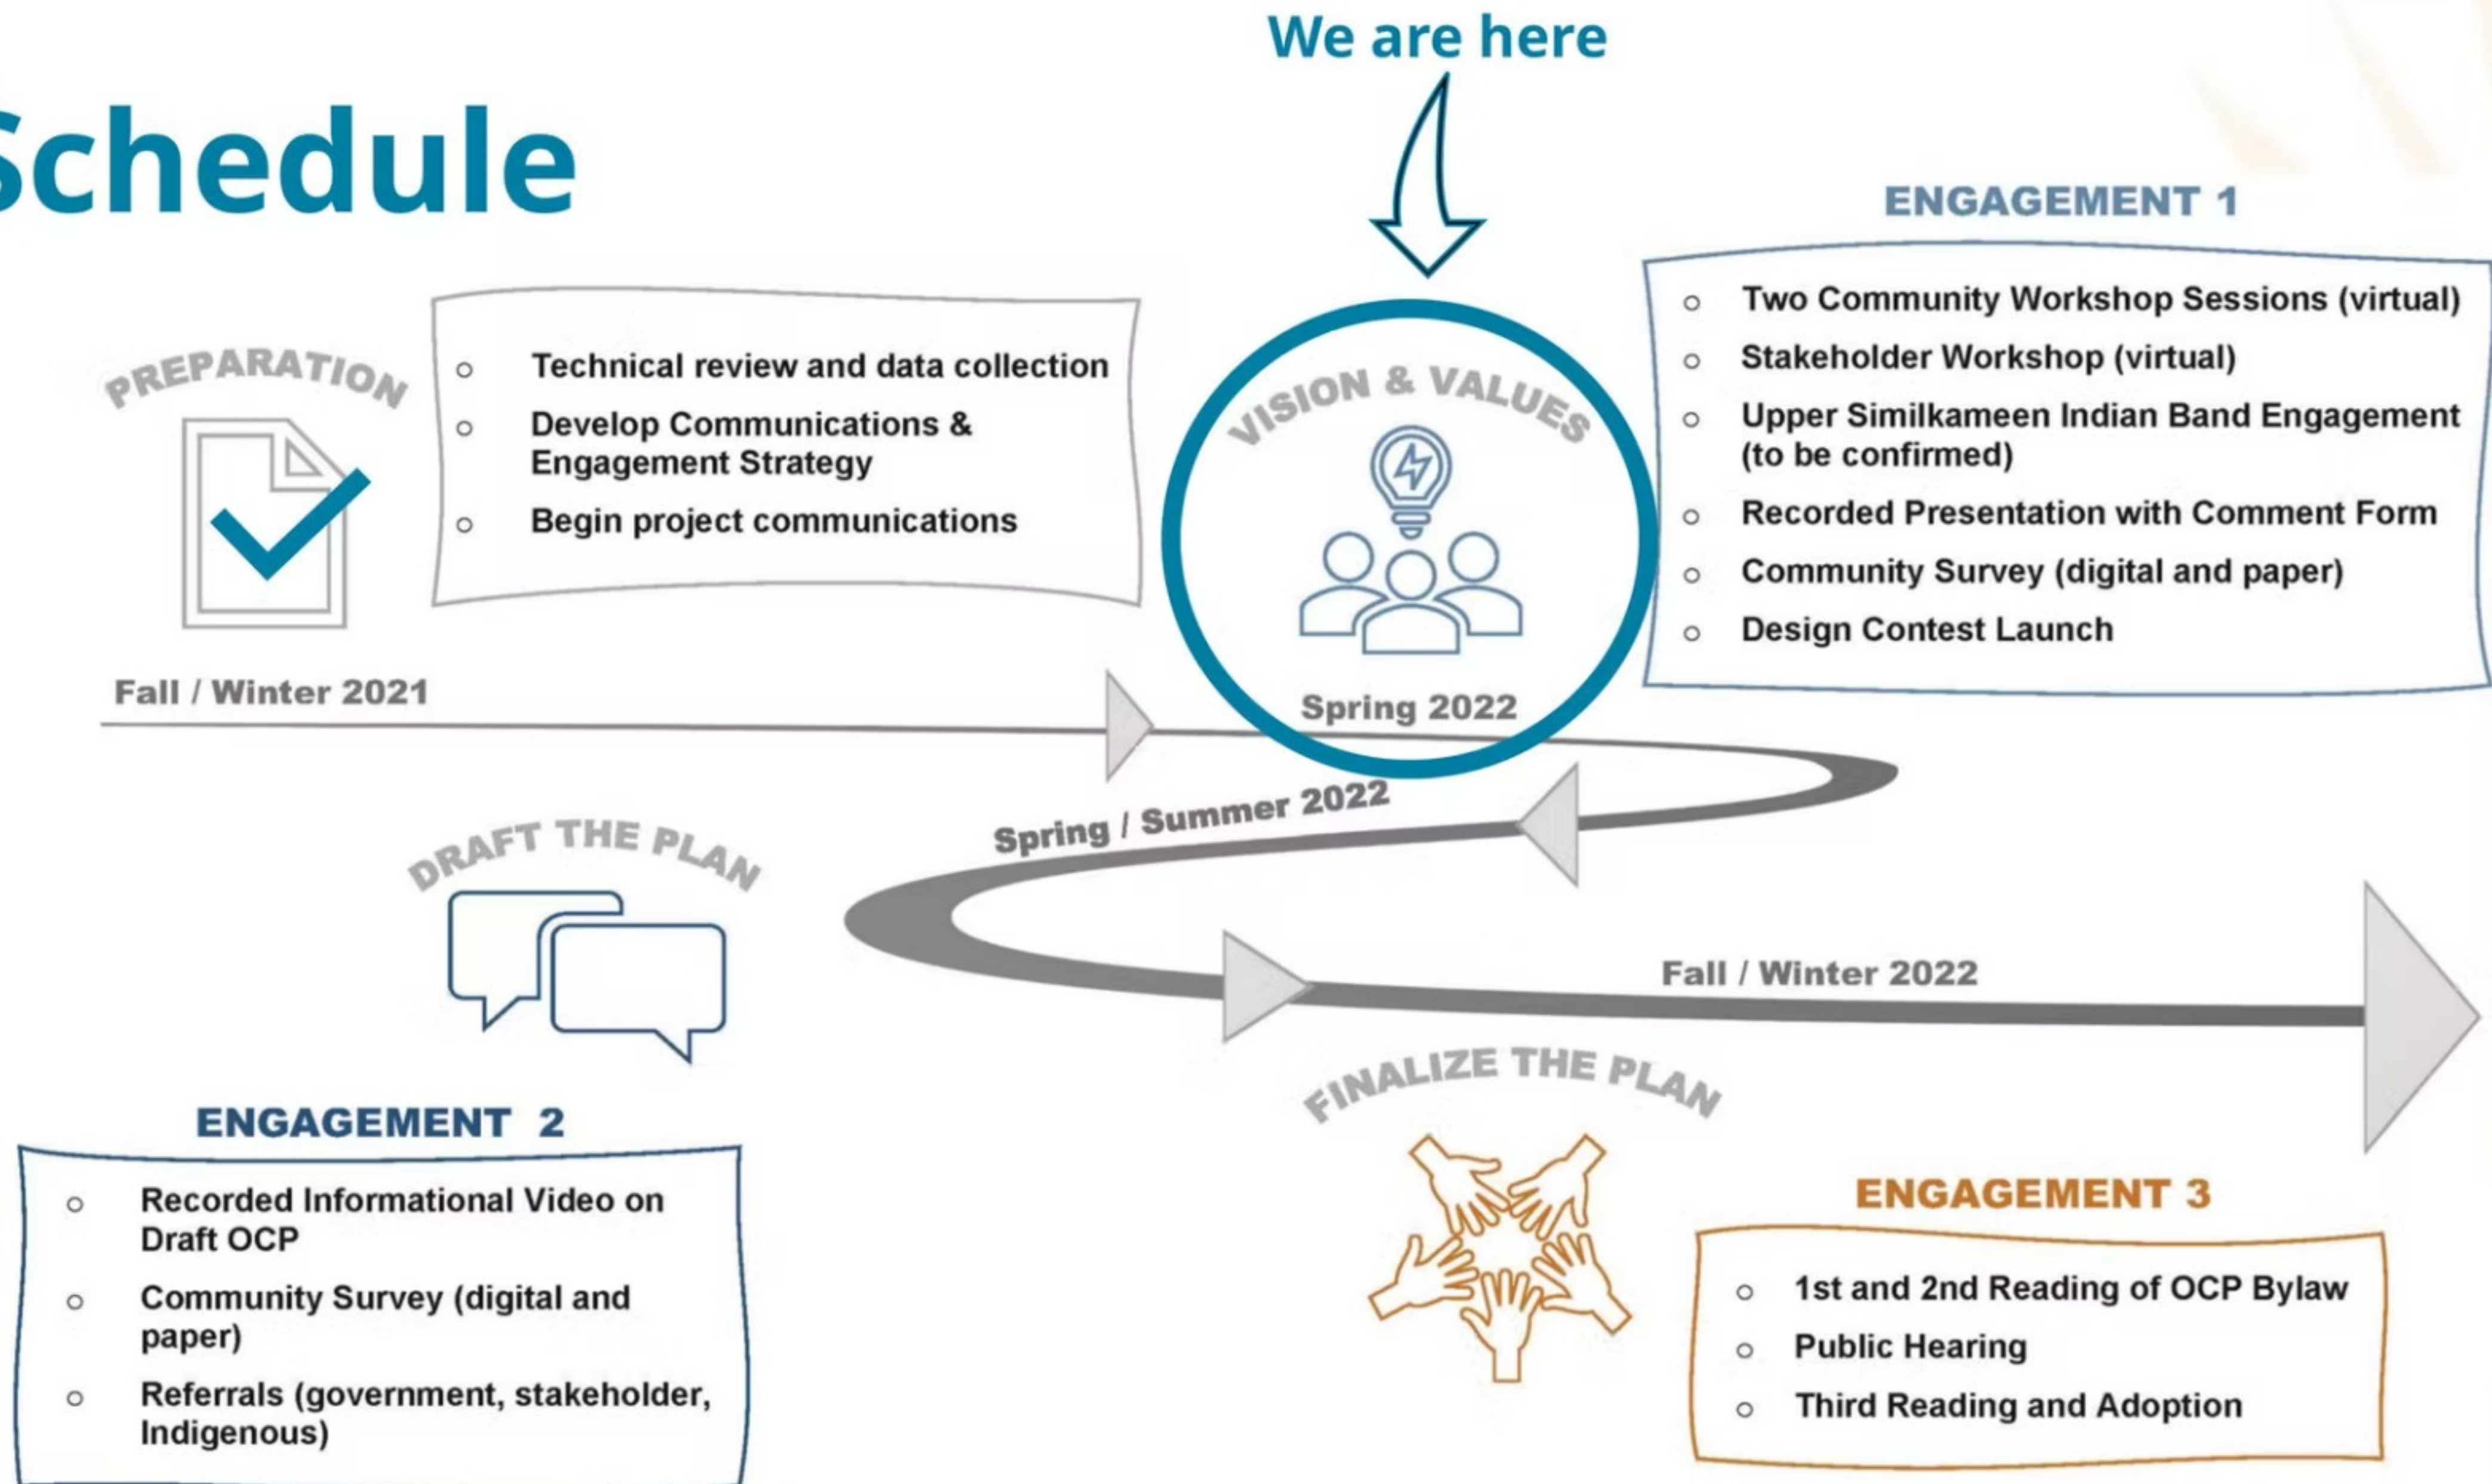

Project Scope

Project Scope

- **Refresh** and **update** rather than comprehensive review
- Plan will be reviewed to ensure it:
 - Is still **relevant**
 - Addresses key **issues** and **trends** since 2008
 - Continues to reflect the community's **vision**

Issues & Opportunities

**What are our
priorities?**

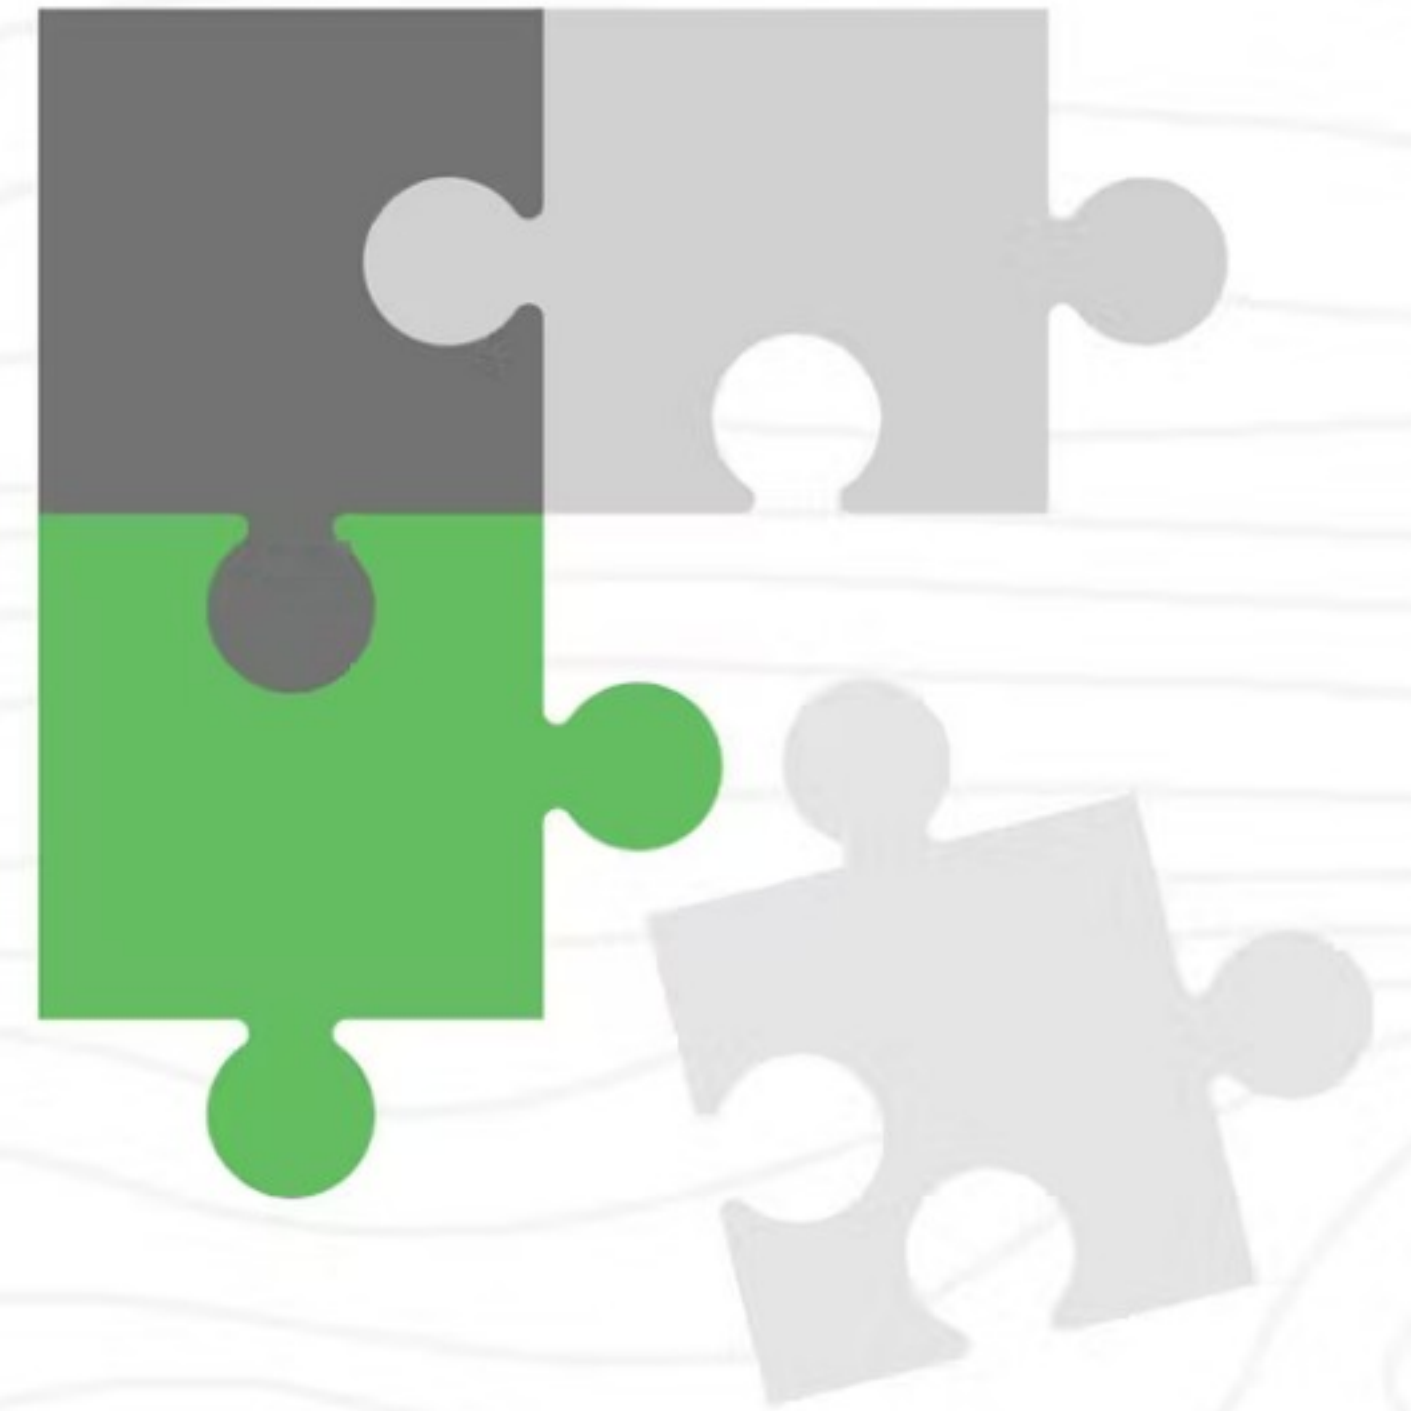

Current Trends

- **Mass migration** from urban areas
- Rising **housing** and **rental prices**
- Lower median **household income**
- **Younger population** compared to region

Challenges

- **Older housing** stock
- Housing demand **higher** than supply
- Shortage of **accommodation**
- Reality of **climate change**
- Keeping up with **growth** (services & facilities)
- **Diversification** of local economy

In your opinion, what are the top 2 challenges Princeton will face in the next 20 years?

Housing shortage

Housing including affordable housing
Business development

Affordable housing
Small business sustainable

1. Development of housing, in particular low income and affordable. Also, building of condos and apartments.
2. Mental health and drug abuse support.

Housing shortage and managing growth within the Town boundaries!

High Density Housing
Local Business being replaced by Big Brand Stores

Response to increased tourism demands in the area

Threats from climate change

Reasons for small businesses to actually stay in town

In your opinion, what are the top 2 challenges Princeton will face in the next 20 years?

Replacement of infrastructure both damaged and identified
Balancing interest and growth

Mental health support

Housing

Health care- accessibility locally

Small businesses thriving as there have been many that closed down over the last year.

Increased recreational opportunity

Infrastructure

Opportunities

- Planning for **future growth**
- **Affordability** compared to other areas in BC
- Desirable **location** with access to the **outdoors**
- Interest in **industrial** development
- Ample **employment** in Princeton
- **Slow diversification** of local economy

In your opinion, what are the top 2 priorities Princeton should focus on in next 20 years?

Affordable housing

Tourism

Affordable housing and housing for seniors that need to downsize

1. Creating a thriving arts and culture environment which will draw in tourism \$\$\$ and support local businesses.

Infrastructure to accommodate new housing

Affordable and low income housing.

Low income housing
High Density Housing for local industry workers
Mental and Substance support
Senior Support

Infrastructure

Support business diversification..encourage small business

In your opinion, what are the top 2 priorities Princeton should focus on in next 20 years?

Housing development and improved mass transportation options

2. Open up land for development and support the building of low income & affordable housing.

Densifying downtown. Condos should be built downtown to make Princeton a walkable community.

Downtown revitalization
Outdoor Rec based Tourism

Recreation opportunities..especially during winter months

**What is our
identity?**

What is our identity?

- **Small town** character
- **Balance** of infill in the downtown & growth in key areas
- **'Safe', 'close to nature', 'family-oriented', 'friendly & welcoming'**

What does the existing OCP say?

Policy 3.1.4

Encourage infill in the Town Centre and in existing residential areas.

Policy 5.2.1

Promote infill within existing residential developments. However, this policy does not preclude expansion in undeveloped areas before all vacant parcels are developed.

What is infill development?

Vertical Infill

- Building up at a higher density

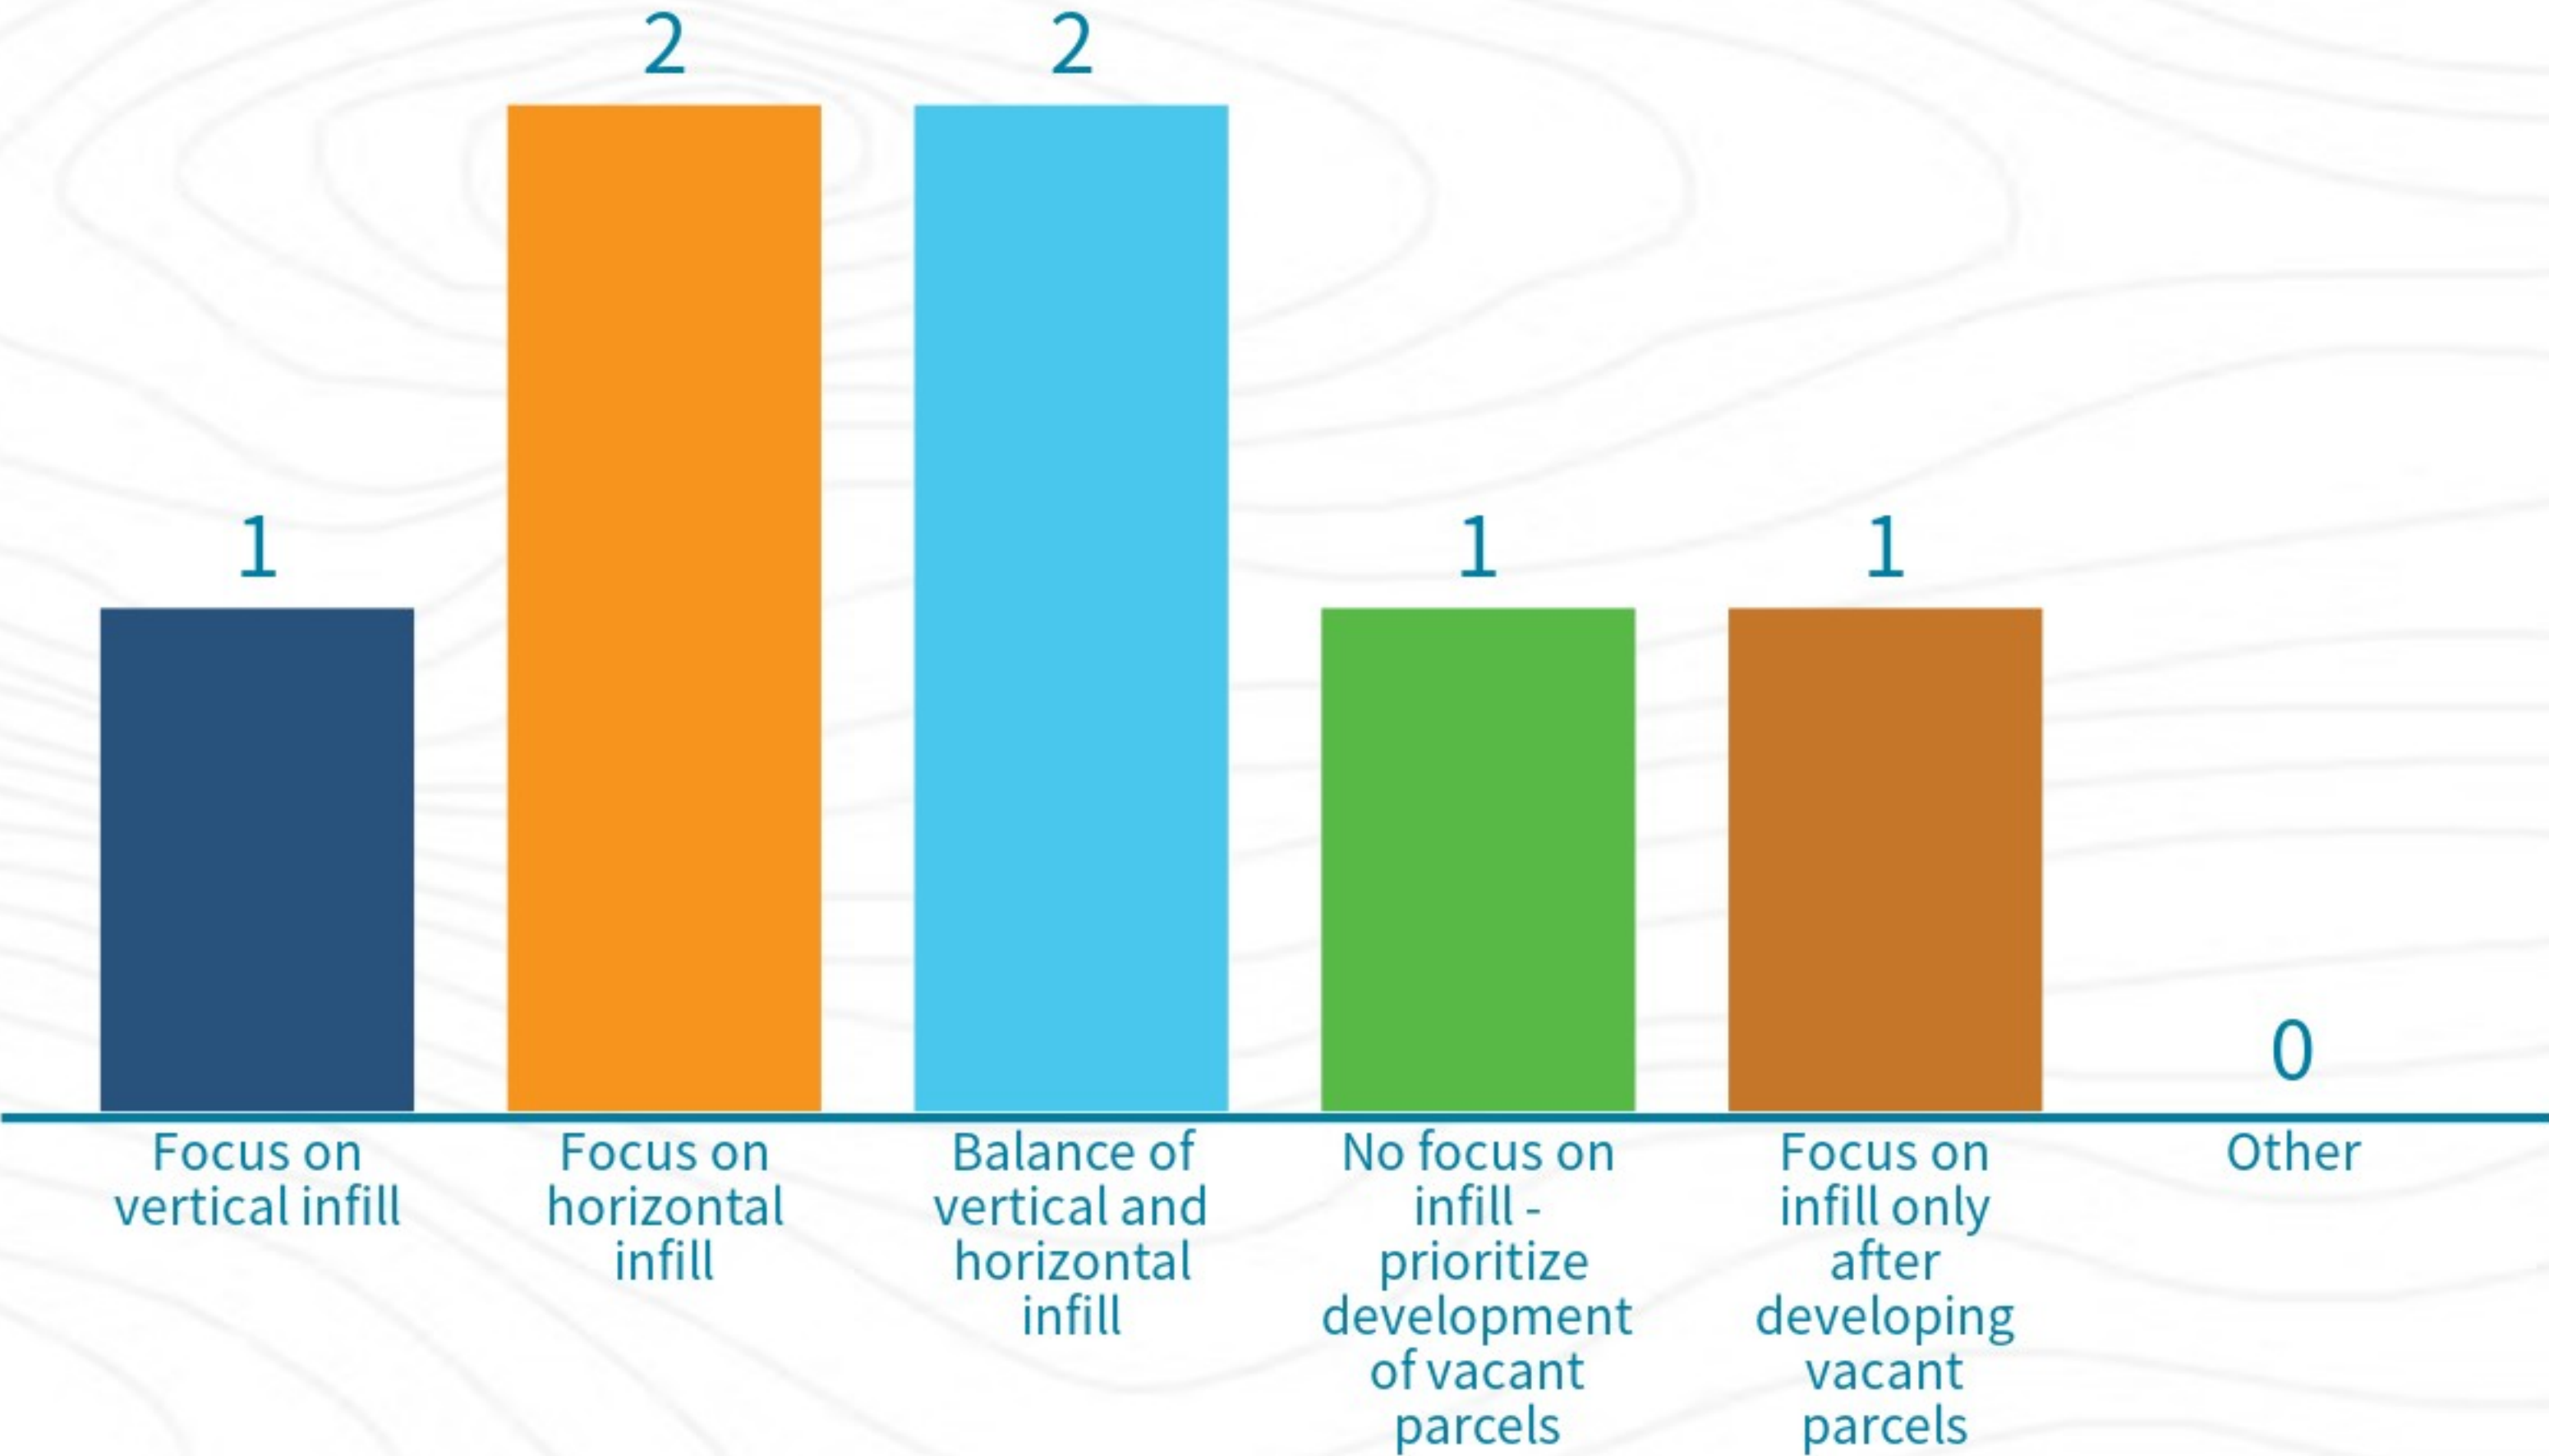

Horizontal Infill

- Redevelopment or utilizing space between buildings in otherwise developed areas

What does infill look like for Princeton?

How do we balance the need for growth with maintaining small town character?

Development design should fit with current "look"

Support small business development and growth.

Support growth from small business

Have a unified look to buildings so that new builds blend in to overall look..eg. historical western theme

Encourage consumers to shop local

Maintain and build a strong local arts and culture.

Maintain small town character in the down town commercial area. New growth of housing to include trails and connectivity!

Dont allow big box or large franchises

Encourage community initiatives to help people make friends

How do we balance the need for growth with maintaining small town character?

Mixed use buildings in the downtown.

More coordinating of town arts initiatives..like galleries, concerts and studio spaces

The town has been supportive of arts and culture but the citizens need to attend events, and volunteer to keep things progressing

Incentives for small business

Continued support and collaboration with Princeton Community Arts Council would be beneficial. Involving local artists and other creatives for events.

Encourage development of 'communities' within the town , eg. Alison flats, hospital zone, etc w room for local shops and other facilities

Maintain a walkable town centre while 'sprucing it up' balanced development as discussed in last question emphasis on outdoor rec development and useability

Some key themes have been identified in survey results as part of Princeton's identity, how do we consider these themes in design of new development?

Trails and connectivity.

Connect with local artists and creatives for ideas 💡

Bike lanes

I like the idea of infill in neighborhoods other than downtown

Include more trees and gathering spaces around the town. Winter is long here too and indoor spaces are needed all around town

Make sure existing and new builds and infrastructure allow for full accessibility for people with disabilities

boutique facade in town centre (patio/sidewalk dining etc.) neighbourhood connectivity and park updates

**What does
growth look like?**

Development Permit Areas

What is a Development Permit Area (DPA)?

- Guidelines for new development
- Provincial legislation allows an OCP to designate 'development permit areas'
- Properties within DPA would then be required to go through a permit process

Existing Development Permit Areas

1. Town Centre DPA

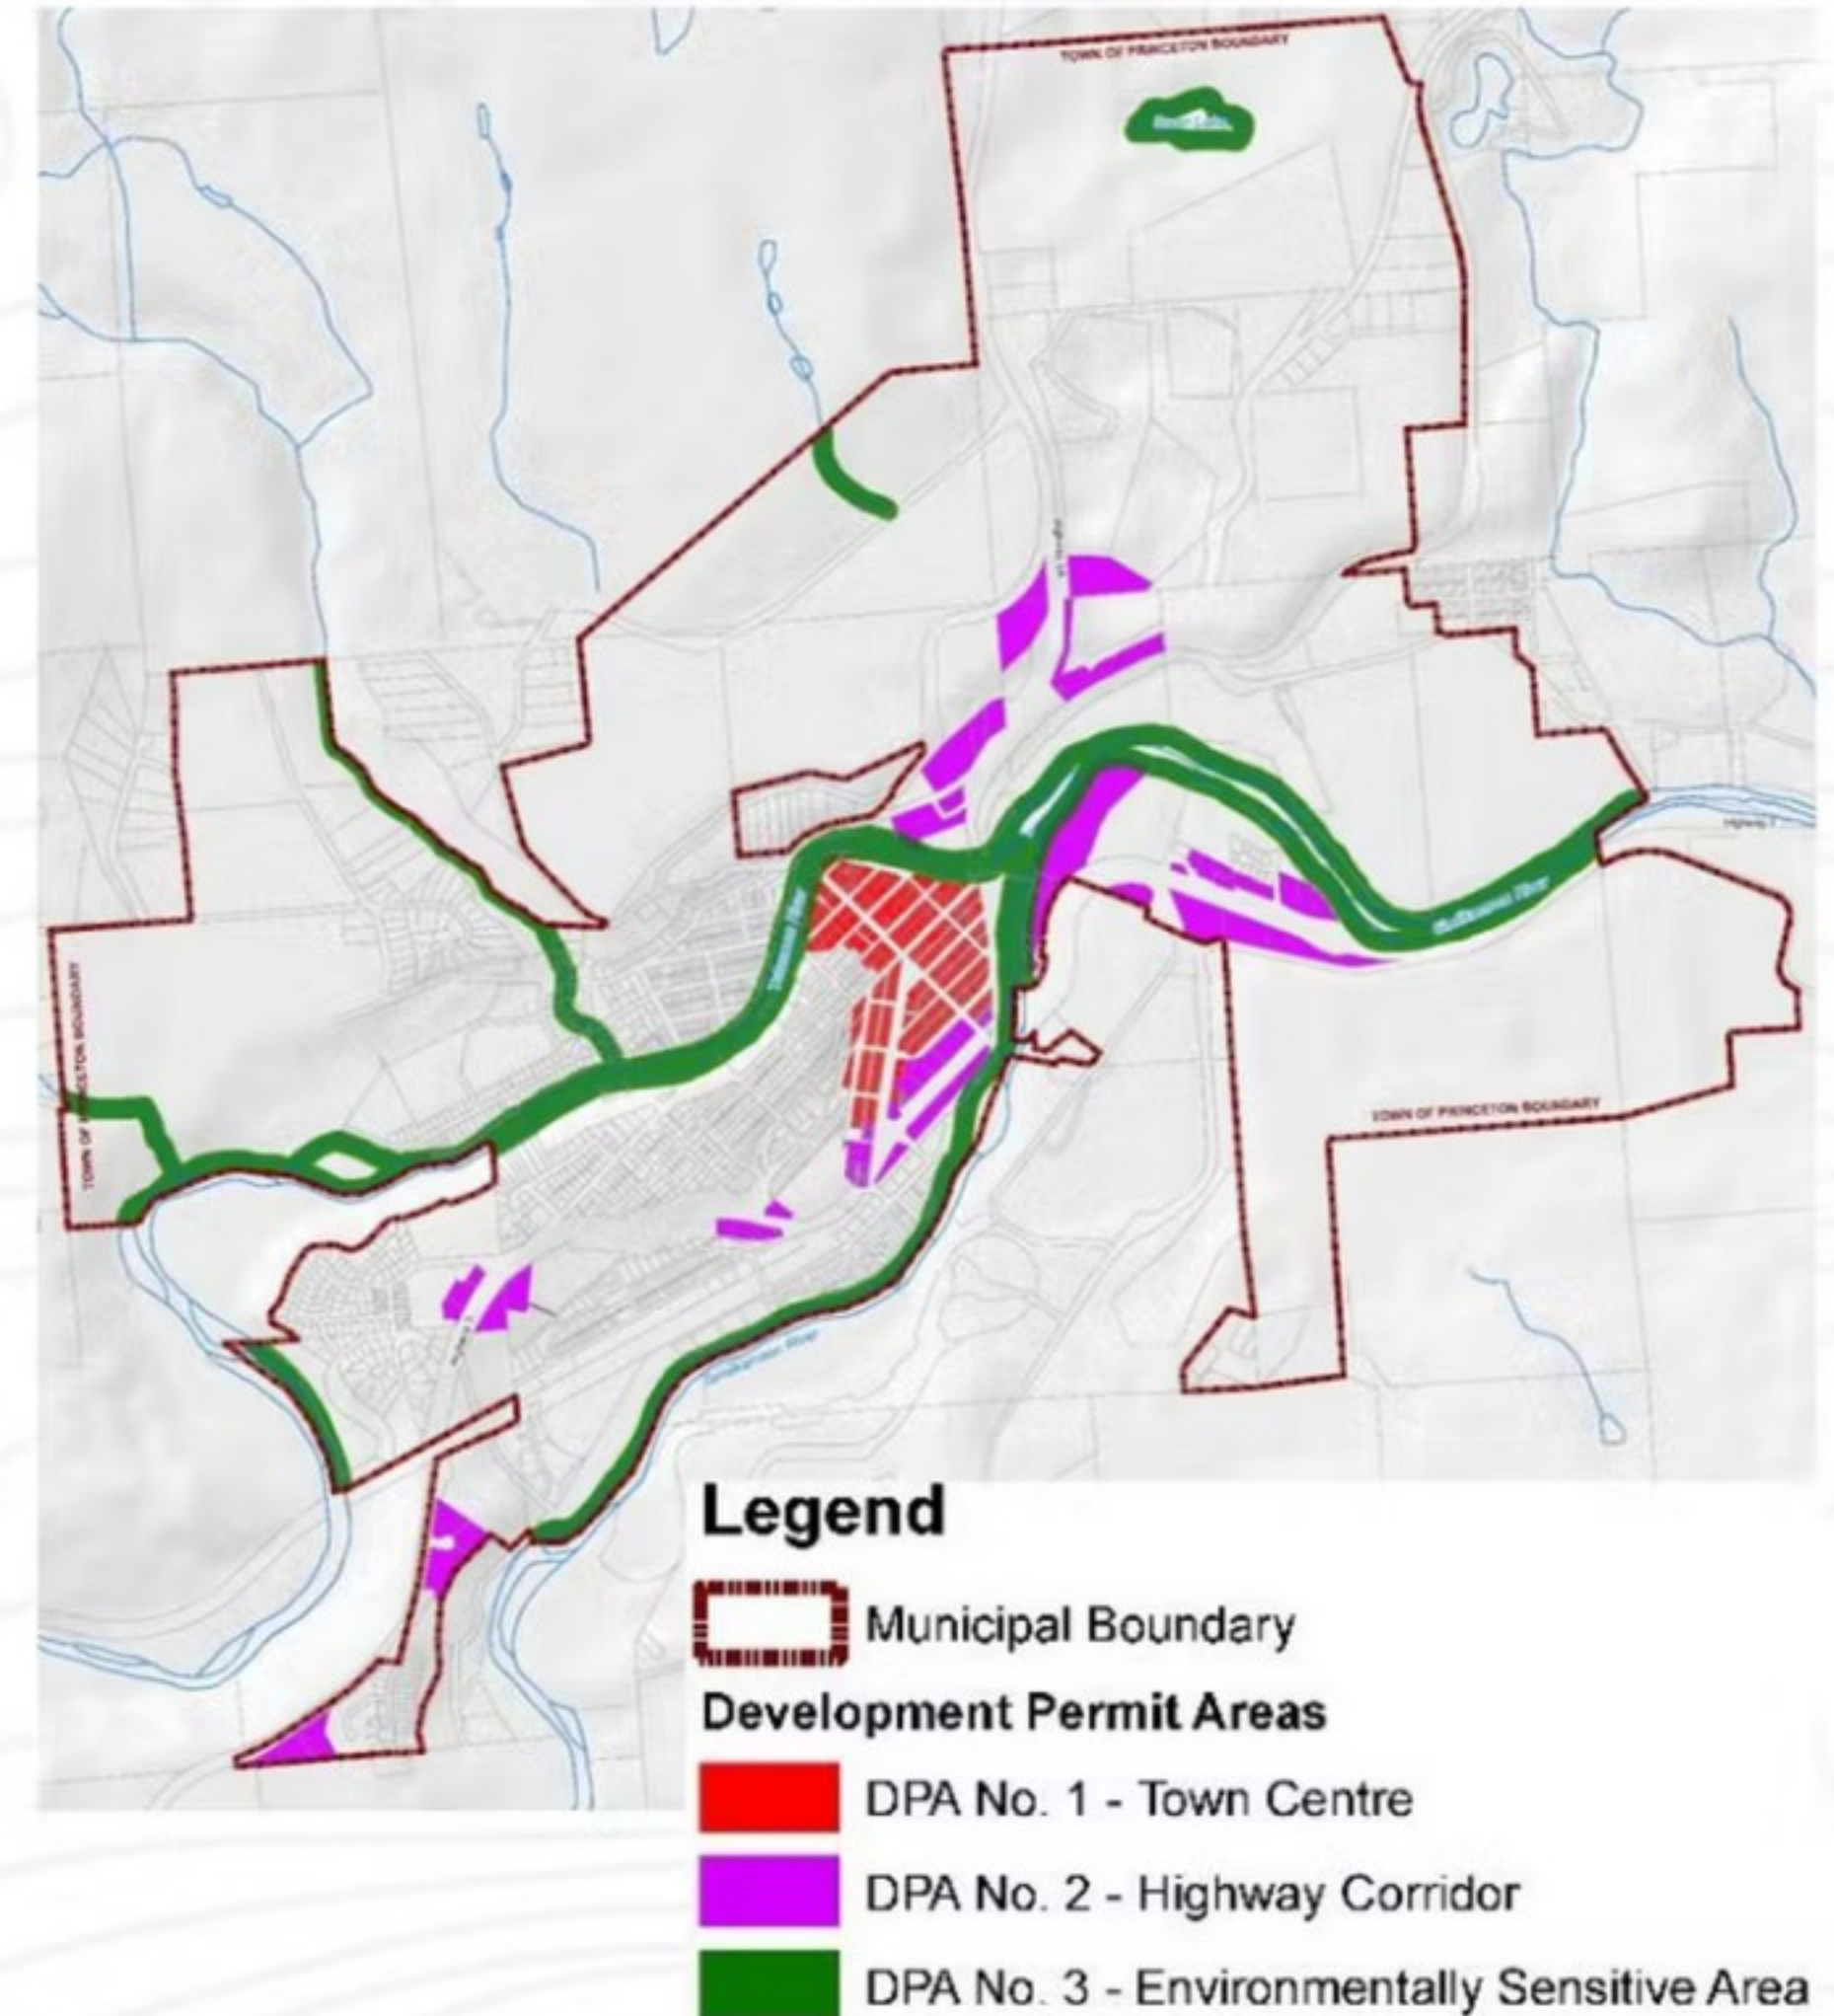

- Form & character
- Revitalization of a commercial use area

2. Highway Corridor DPA

- Form & character
- Revitalization of a commercial use area

3. Environmentally Sensitive Areas DPA

- Protection of the natural environment

Potential Gaps in Current DPAs

1. Highway Corridor DPA

- Highway Corridor DPA currently only applies to specific properties along highway corridor

2. Multi-Family Housing DPA

- No existing design guidelines for multi-family housing development

3. Business Park DPA

- No existing design guidelines for industrial development in the Business Park

Source: Unknown

Highway Corridor DPA

- Objective: **Form & character, revitalization** of commercial area
- Highway corridor forms **initial impression** for visitors
- Currently does not apply to entire corridor

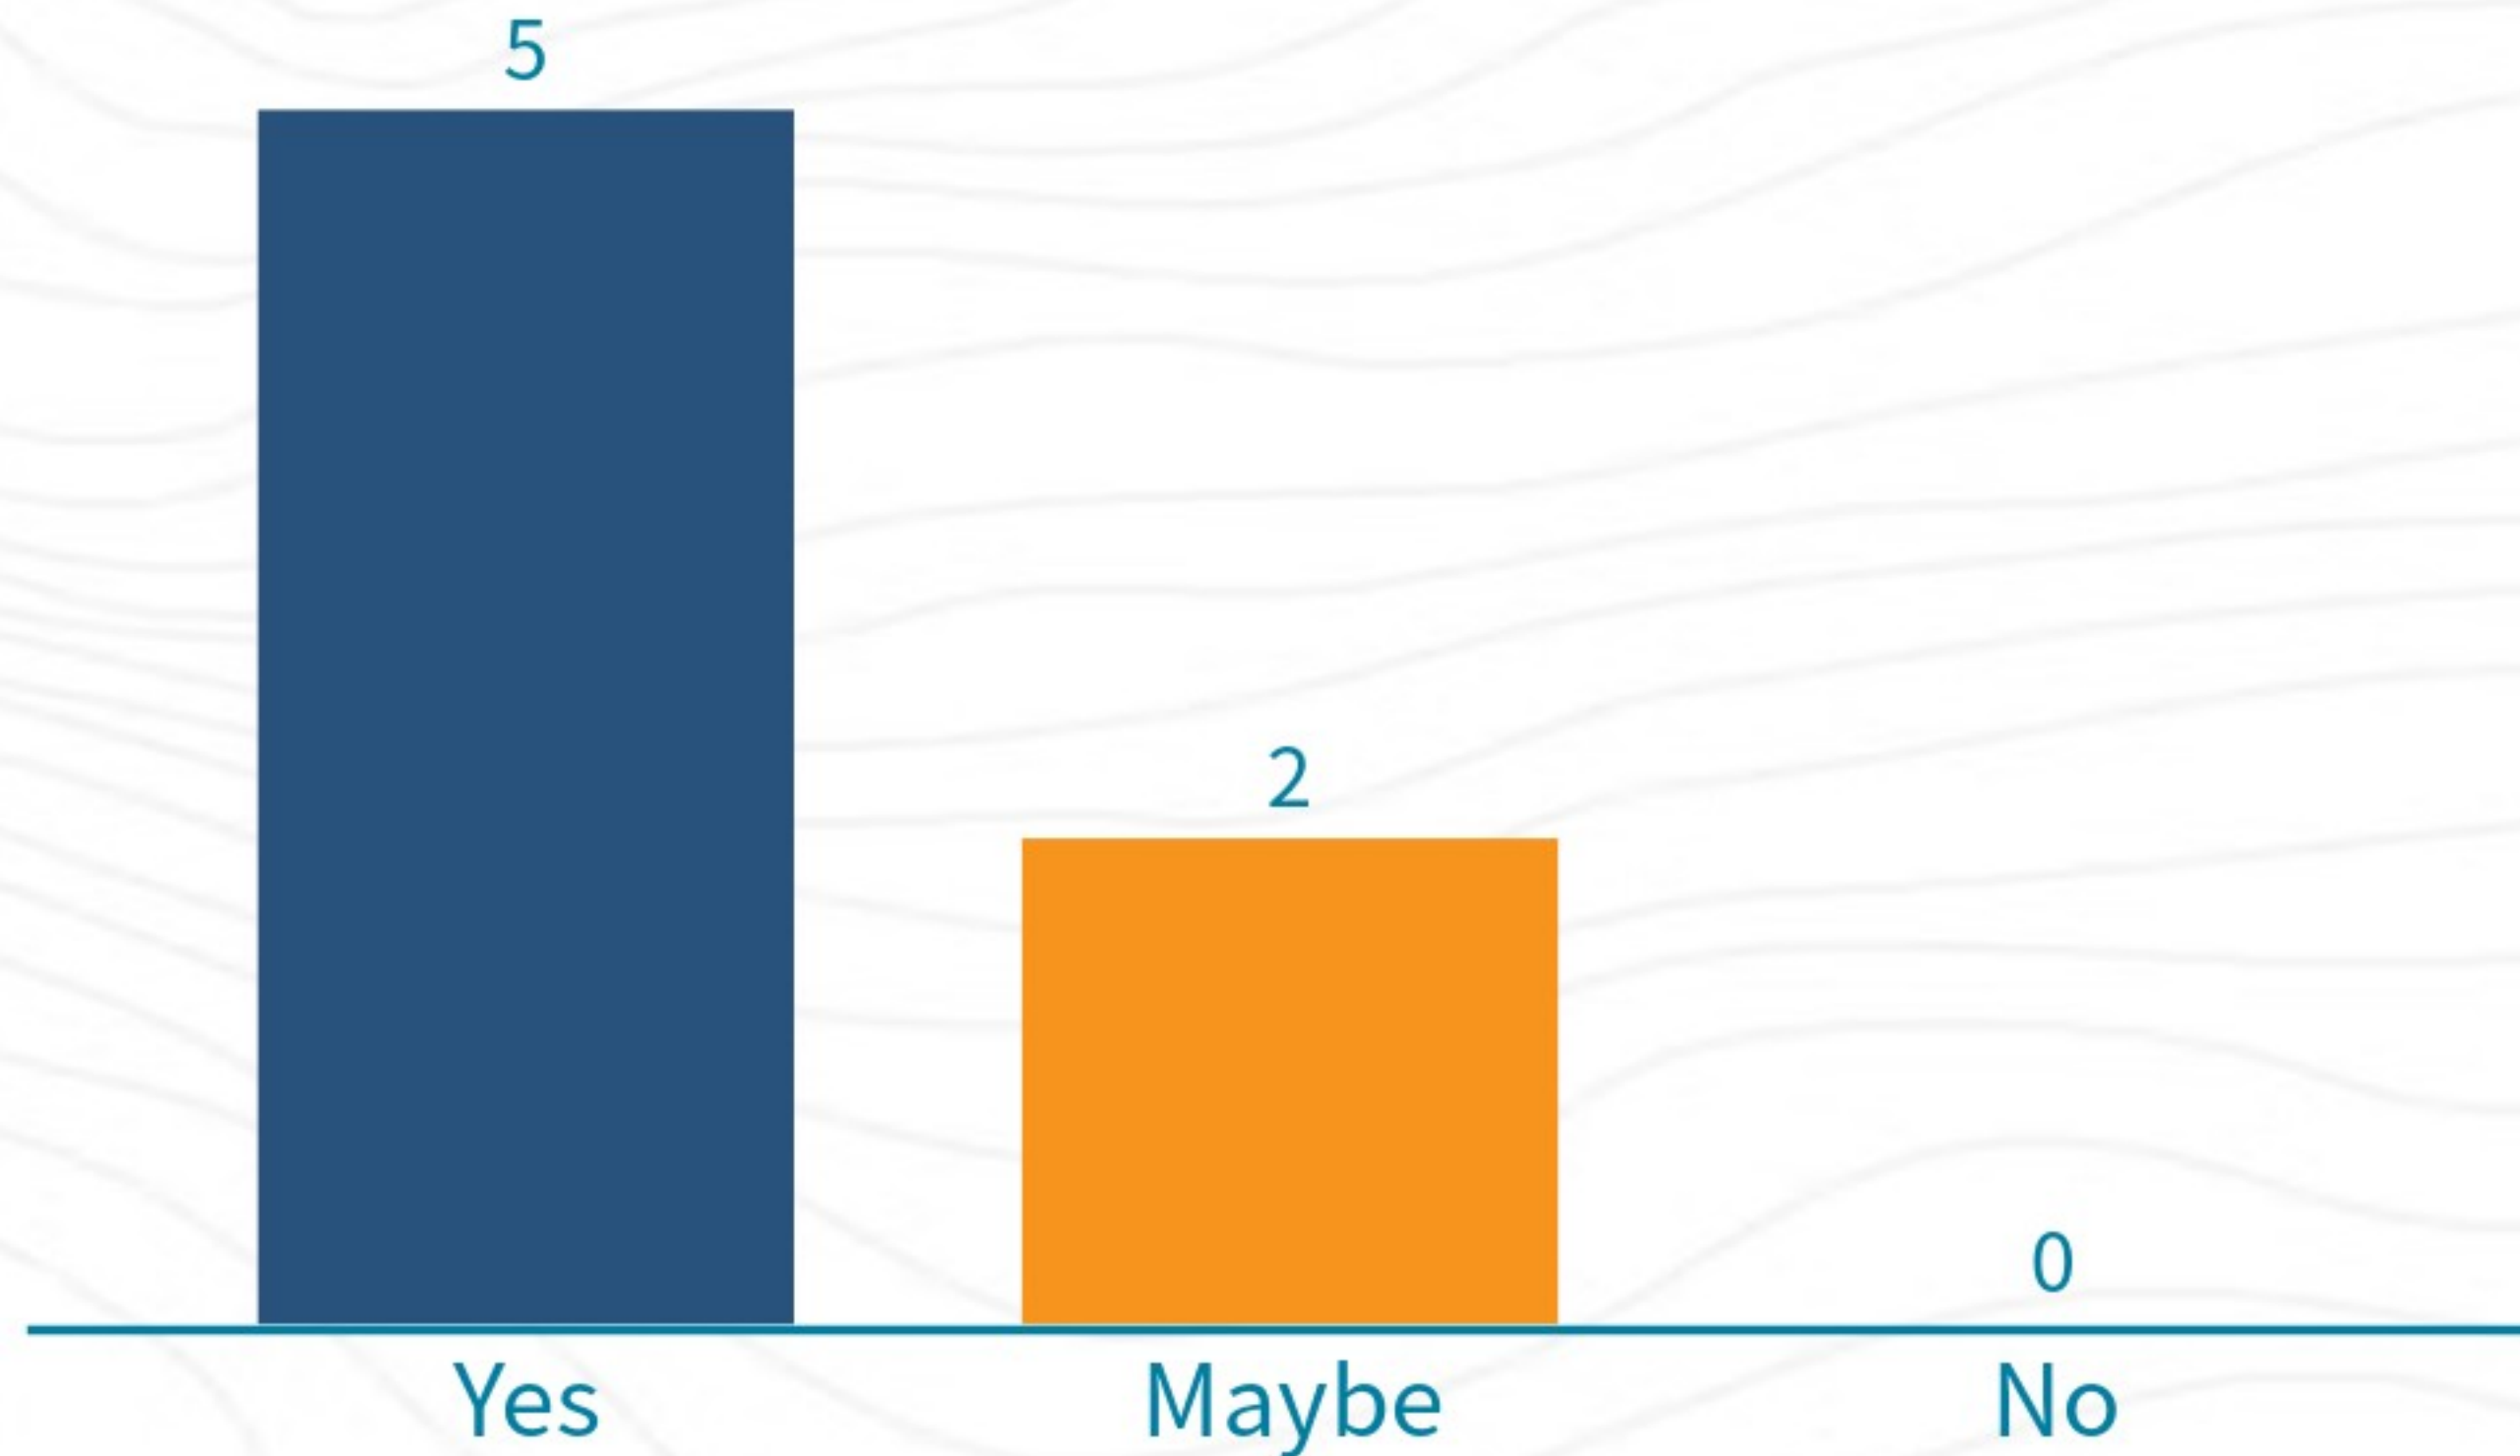

Source: Unknown

Highway Corridor DPA

- **Building Design:** No flat building faces, architectural interest, natural building materials & colours
- **Site Design:** Access & traffic flow, parking
- **Landscaping:** Drought tolerant native plant species, screening
- **Signage:** Location, sizes, shape, type, colour, & graphics should consider building design

Does the Highway Corridor Development Permit Area need to be expanded to include all highway commercial businesses along the highway corridor?

Multi-Family Housing DPA

- Objective: **Form & character**
- Focused on enhancing **aesthetic** appeal of new multi-family development
- Downside could be that it adds another **regulatory** process for multi-family housing development

Multi-Family Housing DPA

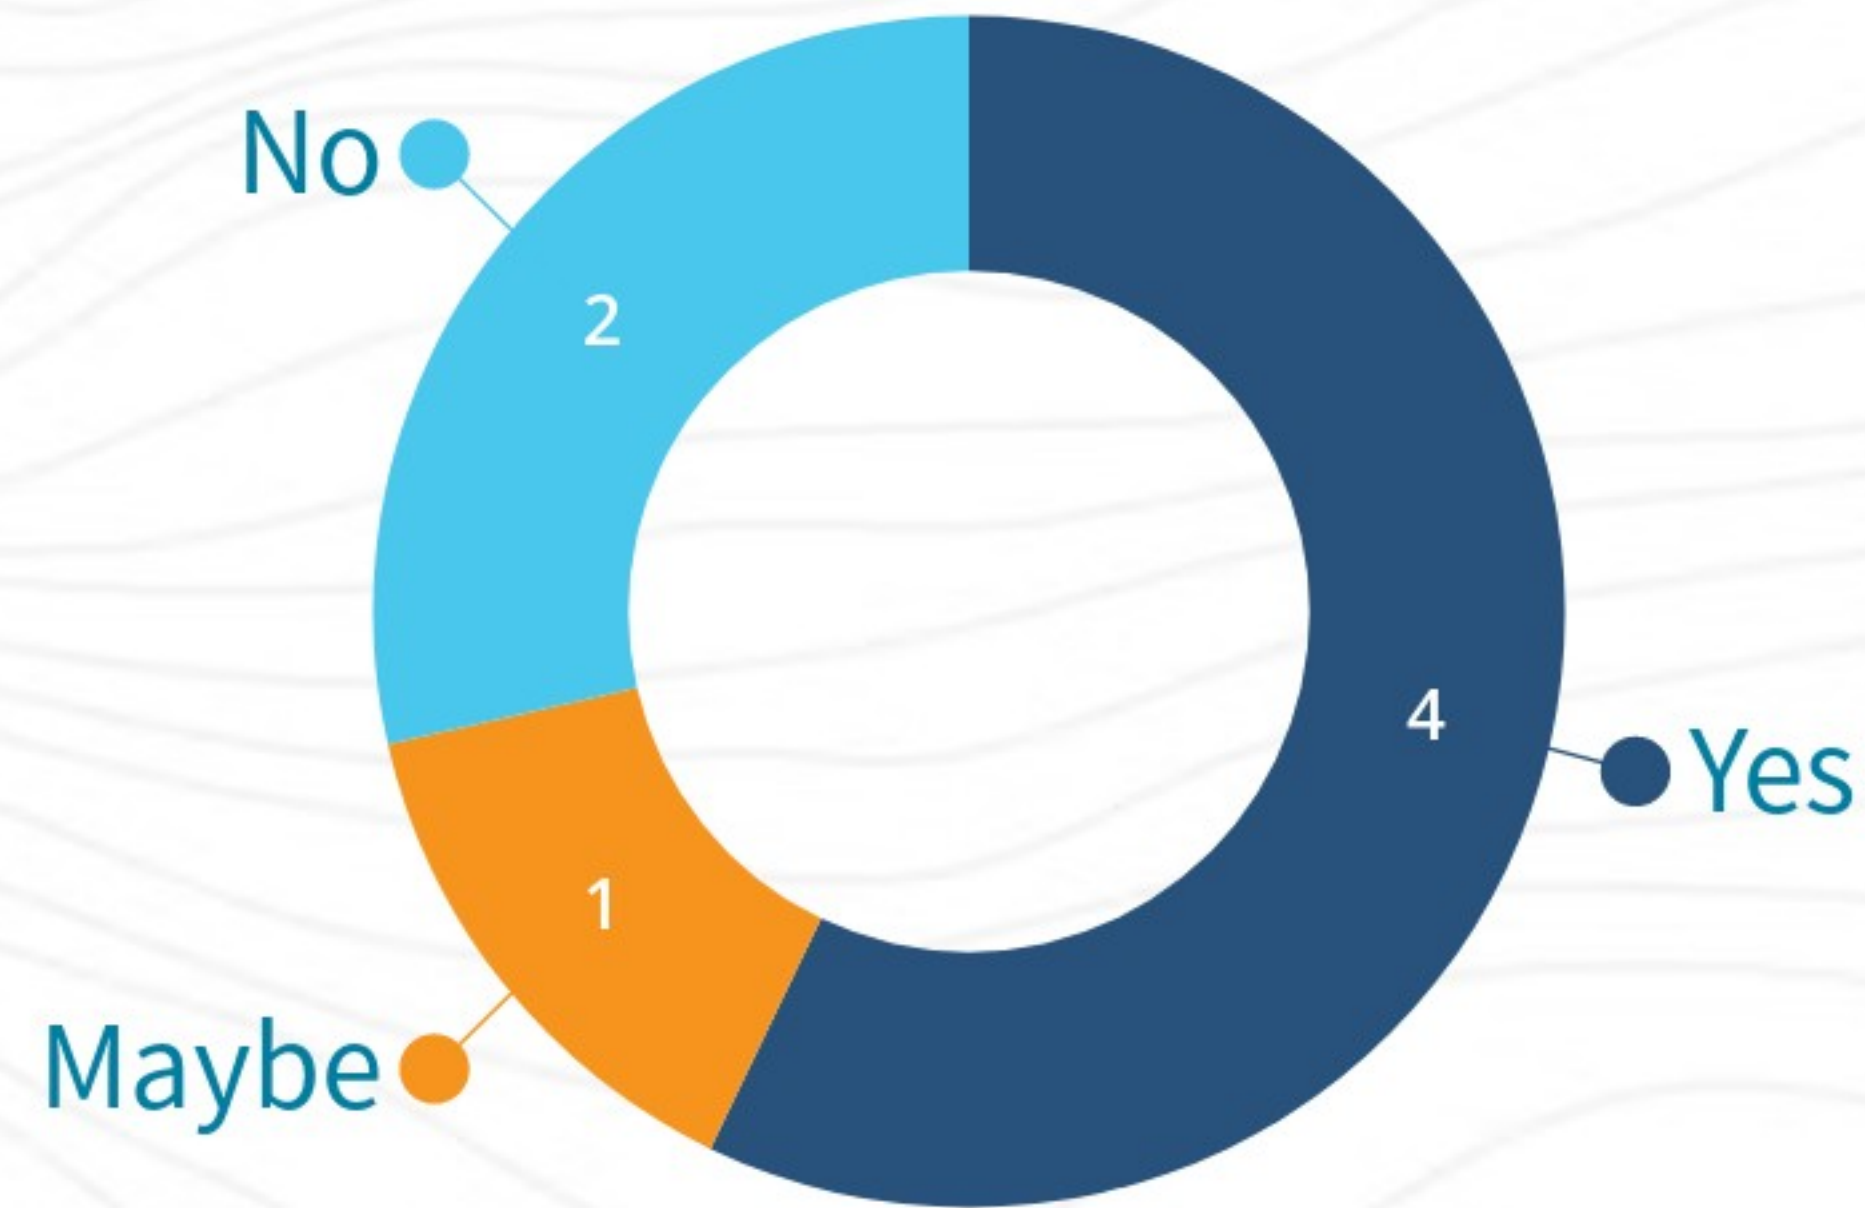

- **Building Design:** No flat building faces, architectural interest, natural building materials & colours, building orientation
- **Site Design:** Access & traffic flow, parking, private & public open space
- **Landscaping:** Drought tolerant native plant species, screening of garbage

Fitzsimmons Walk, Whistler

Do you think a Multi-Family Residential Development Permit Area is needed in Princeton?

Business Park DPA

- Objective: **Form & character, revitalization & buffering** of industrial areas
- Focused on enhancing **aesthetic** appeal of new industrial development within the business park
- Downside could be that it adds another **regulatory** process for industrial development

Business Park DPA

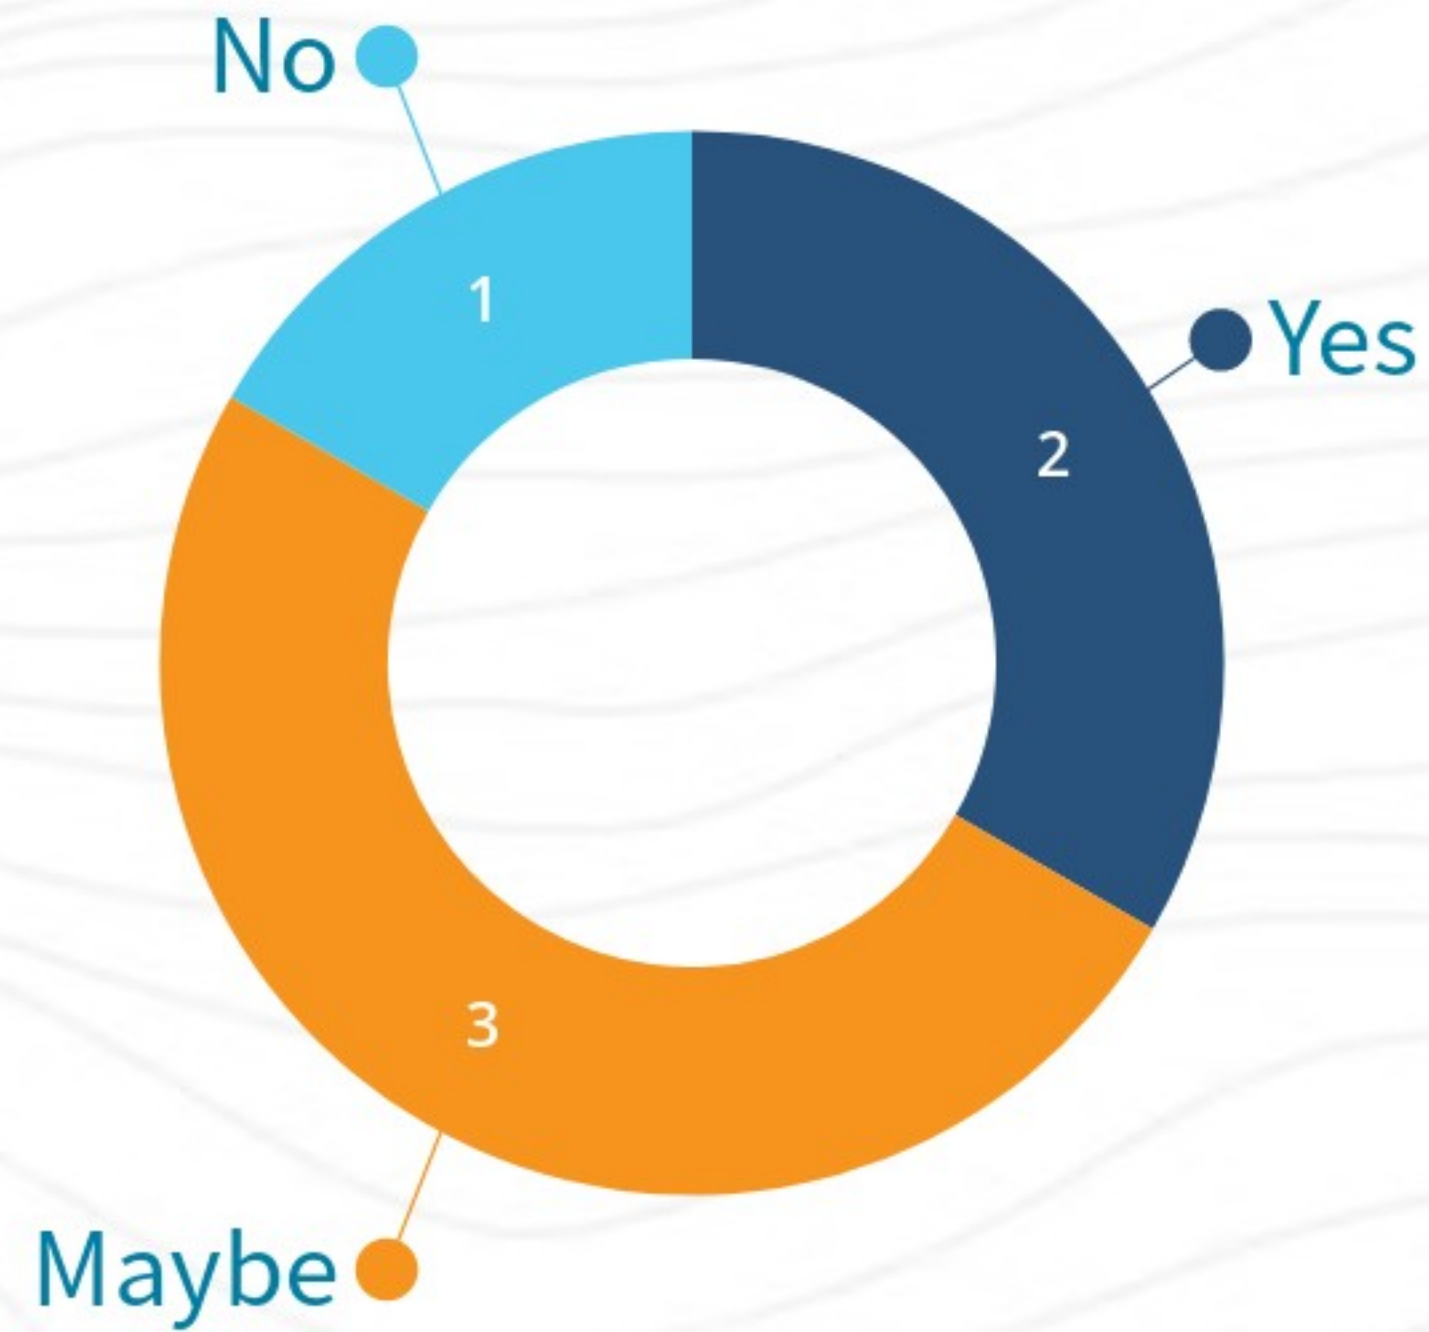

Madill The Office Company, Ladysmith

- **Building Design:** No flat building faces, architectural interest, natural building materials & colours, building orientation
- **Site Design:** Access & traffic flow, parking, crime prevention measures (through lighting, fencing, etc.)
- **Landscaping:** Drought tolerant native plant species, screening

Do you think a Business Park Development Permit Area is needed within Princeton's NE sector Business Park?

How do we grow?

Growth Management

- **Younger** population compared to region
- Lower median **household income** compared to region & province
- Housing **shortage**
- Largely **single-family homes**
- **Rising** house prices

NON-RESIDENTIAL DEVELOPMENT LAND UTILIZATION: 11,775 sq. m.

2042 Status Quo Growth Scenario

Growth Management

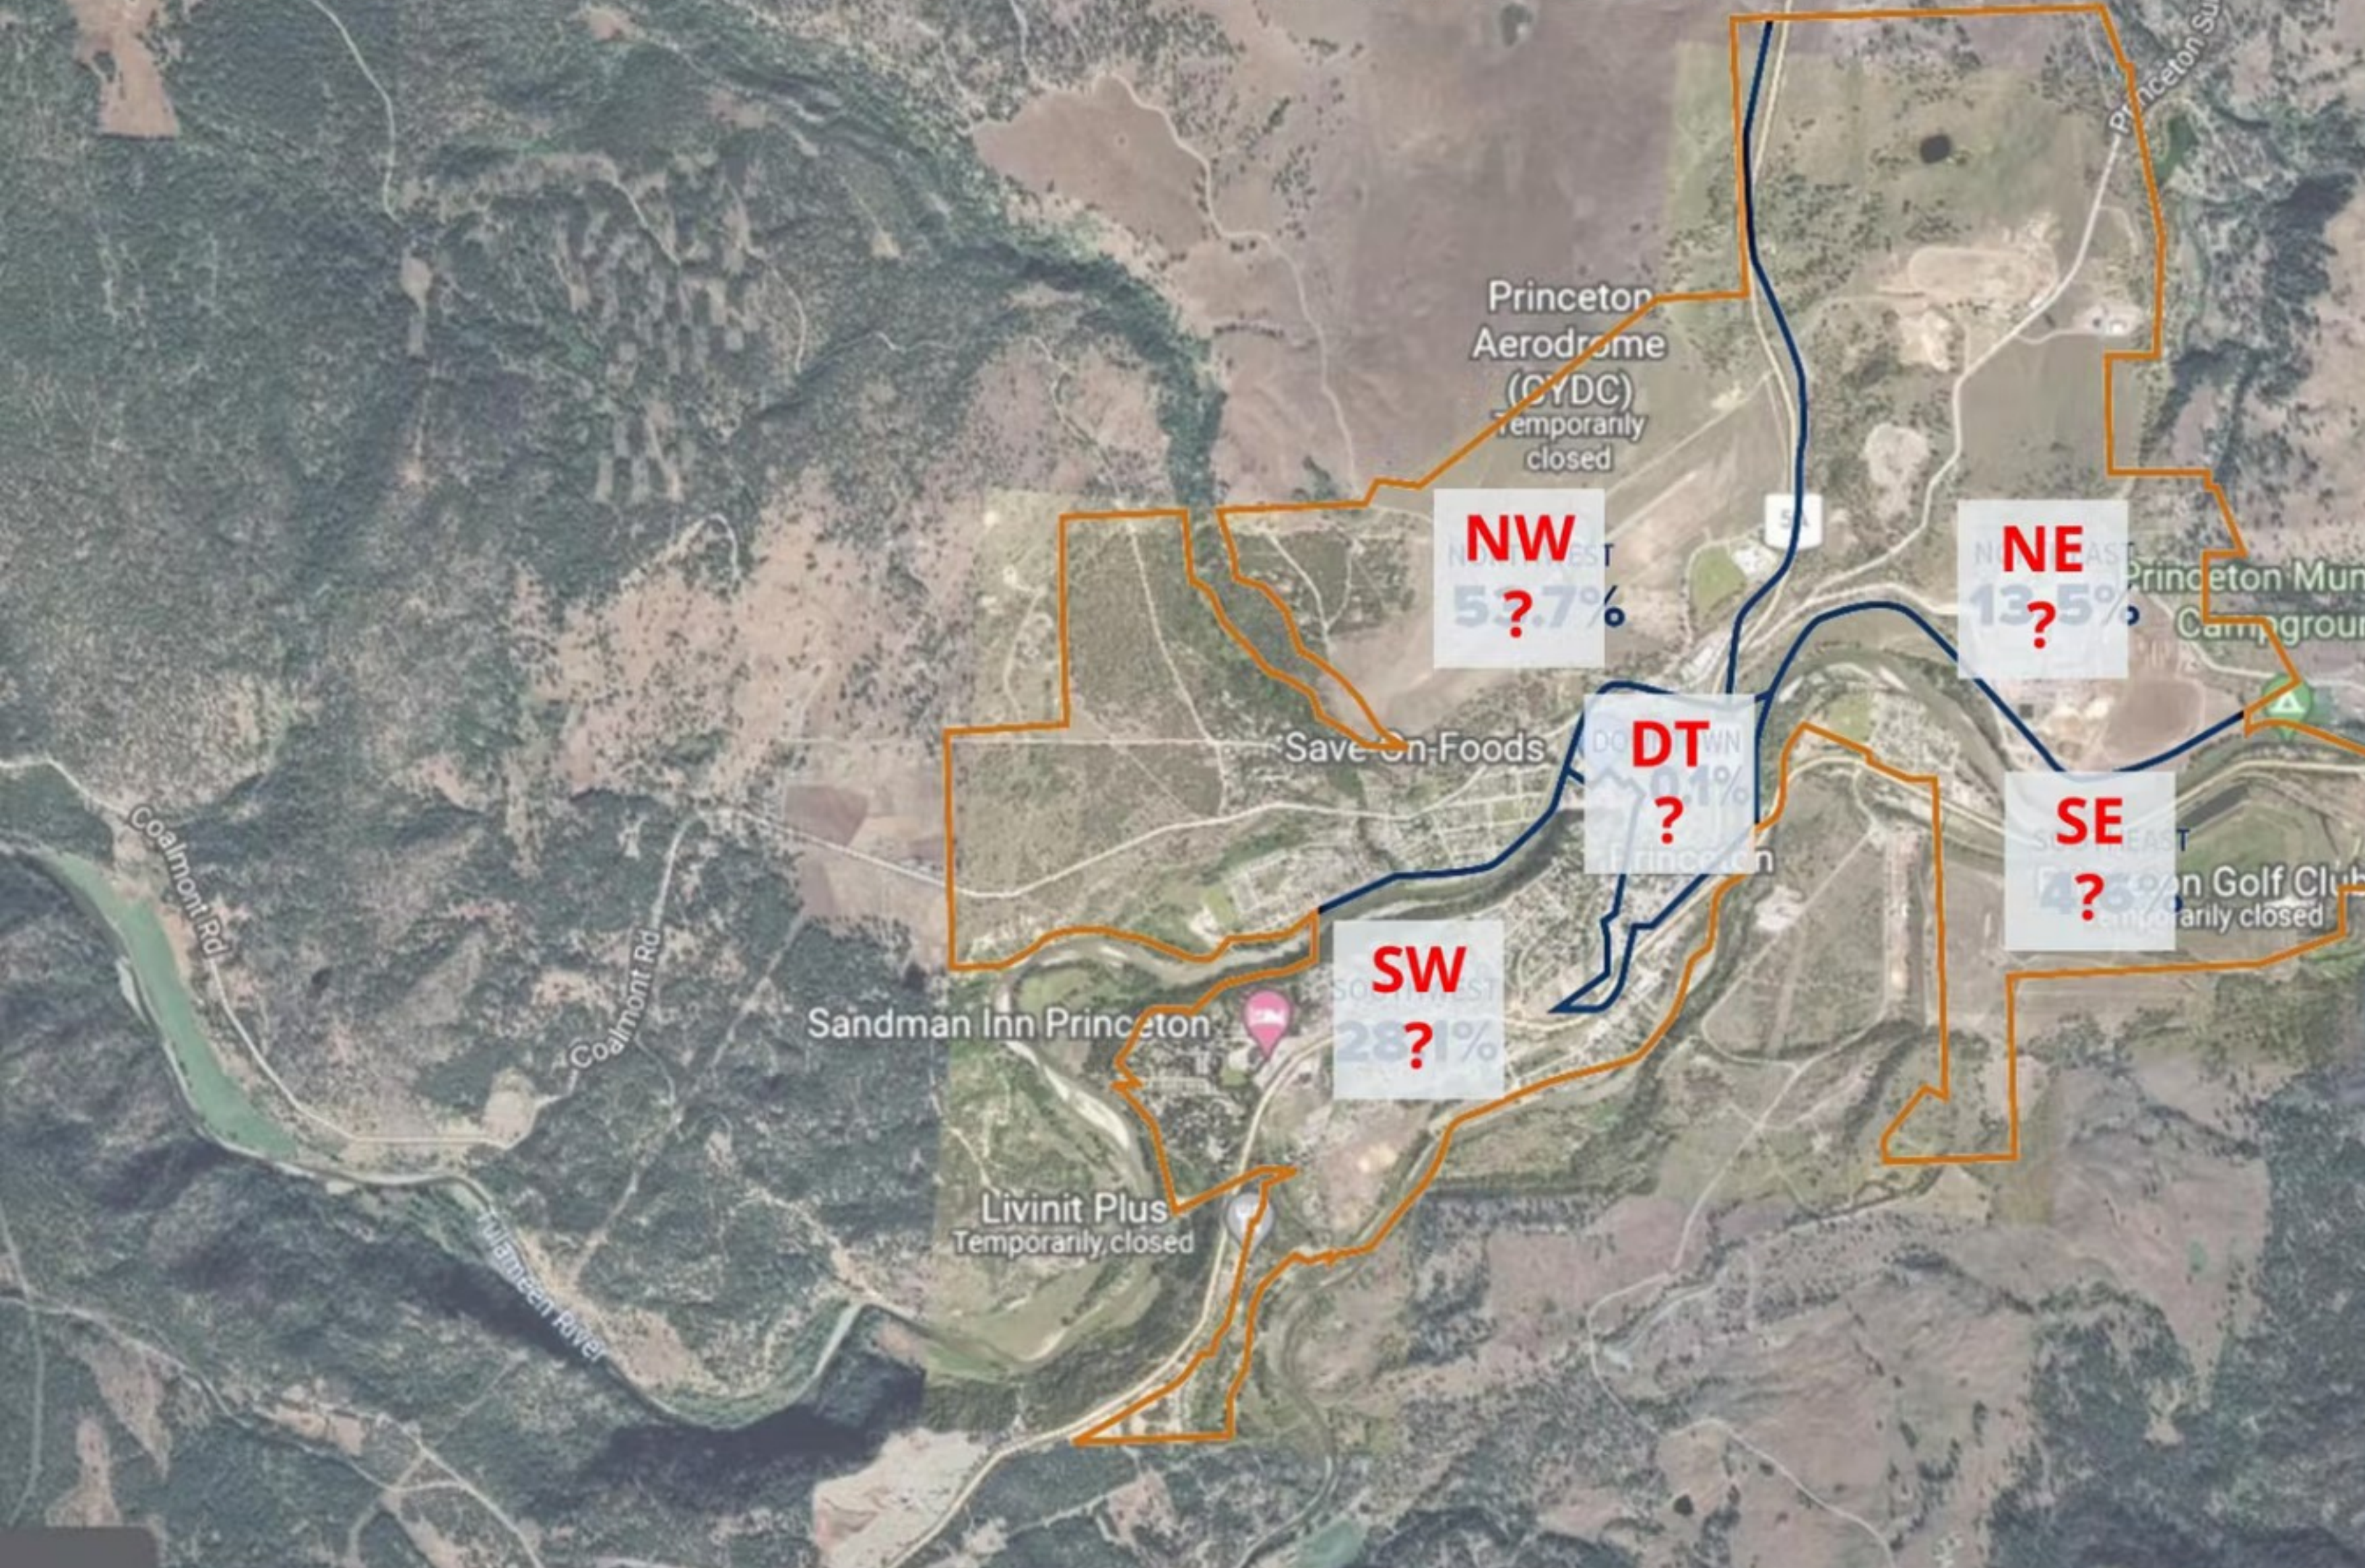

What we know:

- Trend of mass migration from urban to smaller BC communities
- Ample employment in Princeton
- Lack of housing supply & infrastructure barriers to growth

If supply catches up with demand, what can we anticipate over 20 years?

2042 Alternative Growth Scenario

Survey Suggests:

- **Higher** growth rate
- Balanced **single-family** & **multi-family** split
- Residential development distributed more **equally** but still a **focus on NW** sector
- More balanced **infill** & **greenfield** development

What else should we consider for an alternative growth scenario?

More recreation opportunities for kids and adults

People looking to downside have no options, nothing walkable within downtown

Make sure infrastructure..hospital, schools, sewer and roads are maintained

Princeton can grow if land is opened up for development. Why not partner up with industry to create housing which was done in Princeton before with the Mine subdivision - built by Newmont Mines. Created housing for miners in the 1960s/1970s

Multi family housing for families near park areas so that out of town workers can move here permanently with their families

Seniors are leaving because there are no condos or apartments to move into to

Maintain and build more green spaces that are accessible to seniors and children.

We have excellent internet access which gives the town the opportunity to promote all kinds of businesses...selling online, inc call centres, education, artists etc. Homebuilders will respond to housing demand as the shortage continues

Bike lanes

What else should we consider for an alternative growth scenario?

Mass transit regional, province

More support for farming and local food!

In your opinion, what are the top 2 challenges Princeton will face in the next 20 years?

Housing and infrastructure

Affordable Housing, Aging Population

Environmental issues

Infrastructure which is the key in unlocking housing development. Money is now there for upgrades but more needs to be built, especially for the proposed development up at the airport.

Housing

Housing and infrastructure

Housing

Housing Age appropriate recreation opportunities

Age appropriate Recreation opportunities

In your opinion, what are the top 2 challenges Princeton will face in the next 20 years?

Local business

Jobs housing

Housing, in particular condos and apartments for seniors down sizing. Also, affordable and low income, which there is a huge demand for. Sadly people are living Princeton everyday even prior to the floods.

housing

Recycling program needs an over haul. Is not sufficient enough.

Recreation for all ages

Balance between commercial, industrial, and housing development!

Housing and infra. But also the lamdfill will br exuding methane in 20 yrs the way we do things now

Local businesses are shutting down every month. There isn't much support for them from the local municipal government.

In your opinion, what are the top 2 challenges Princeton will face in the next 20 years?

Promoting local business

Changing Industry regulationsAging Town Centre

River erosion

Recreational opportunities besides hockey.

Flooding

Mental health

Mental health and healthcare in general.

Street repairs

We need a rec centre

In your opinion, what are the top 2 challenges Princeton will face in the next 20 years?

In your opinion, what are the top 2 priorities Princeton should focus on in next 20 years?

Growing small local businesses

Housing and rec centre

Environment

Growth

Recreation centre Housing

Town Centre re-developmentaging infrastructure

Be more engaged in addressing environmental issues. The landfill currently doesn't recycle everything. What about going to paper bags in town?

Housing and infra - sewer water lines

Housing and ec dev

In your opinion, what are the top 2 priorities Princeton should focus on in next 20 years?

Collaboration with other local municipalities, stronger community ties to stimulate economic growth

Engage the local business community. There hasn't been much participation requested by current council. Also, support local businesses.

Clean up or downtown area and make it attractive

Recreation Centre and better planned usage of Memorial park

Organized recreational opportunities

Be creative in addressing the housing issue.

Climate mitigation ie logging practices green space diverse housing

Less focus on beautification, more focus on real issues like infrastructure and housing!

What's the climate plan strategy for Princeton?

In your opinion, what are the top 2 priorities Princeton should focus on in next 20 years?

More green spaces other than in the downtown or tourist areas

Involve local citizens in the future.

Recreational opportunities for all seasons!

Solar power and other renewable energy sources.

More affordable daycare for families hopefully soon

**What is our
identity?**

What is our identity?

- **Small town** character
- **Balance** of infill in the downtown & growth in key areas
- **'Safe', 'close to nature', 'family-oriented', 'friendly & welcoming'**

What does the existing OCP say?

Policy 3.1.4

Encourage infill in the Town Centre and in existing residential areas.

Policy 5.2.1

Promote infill within existing residential developments. However, this policy does not preclude expansion in undeveloped areas before all vacant parcels are developed.

What is infill development?

Vertical Infill

- Building up at a higher density

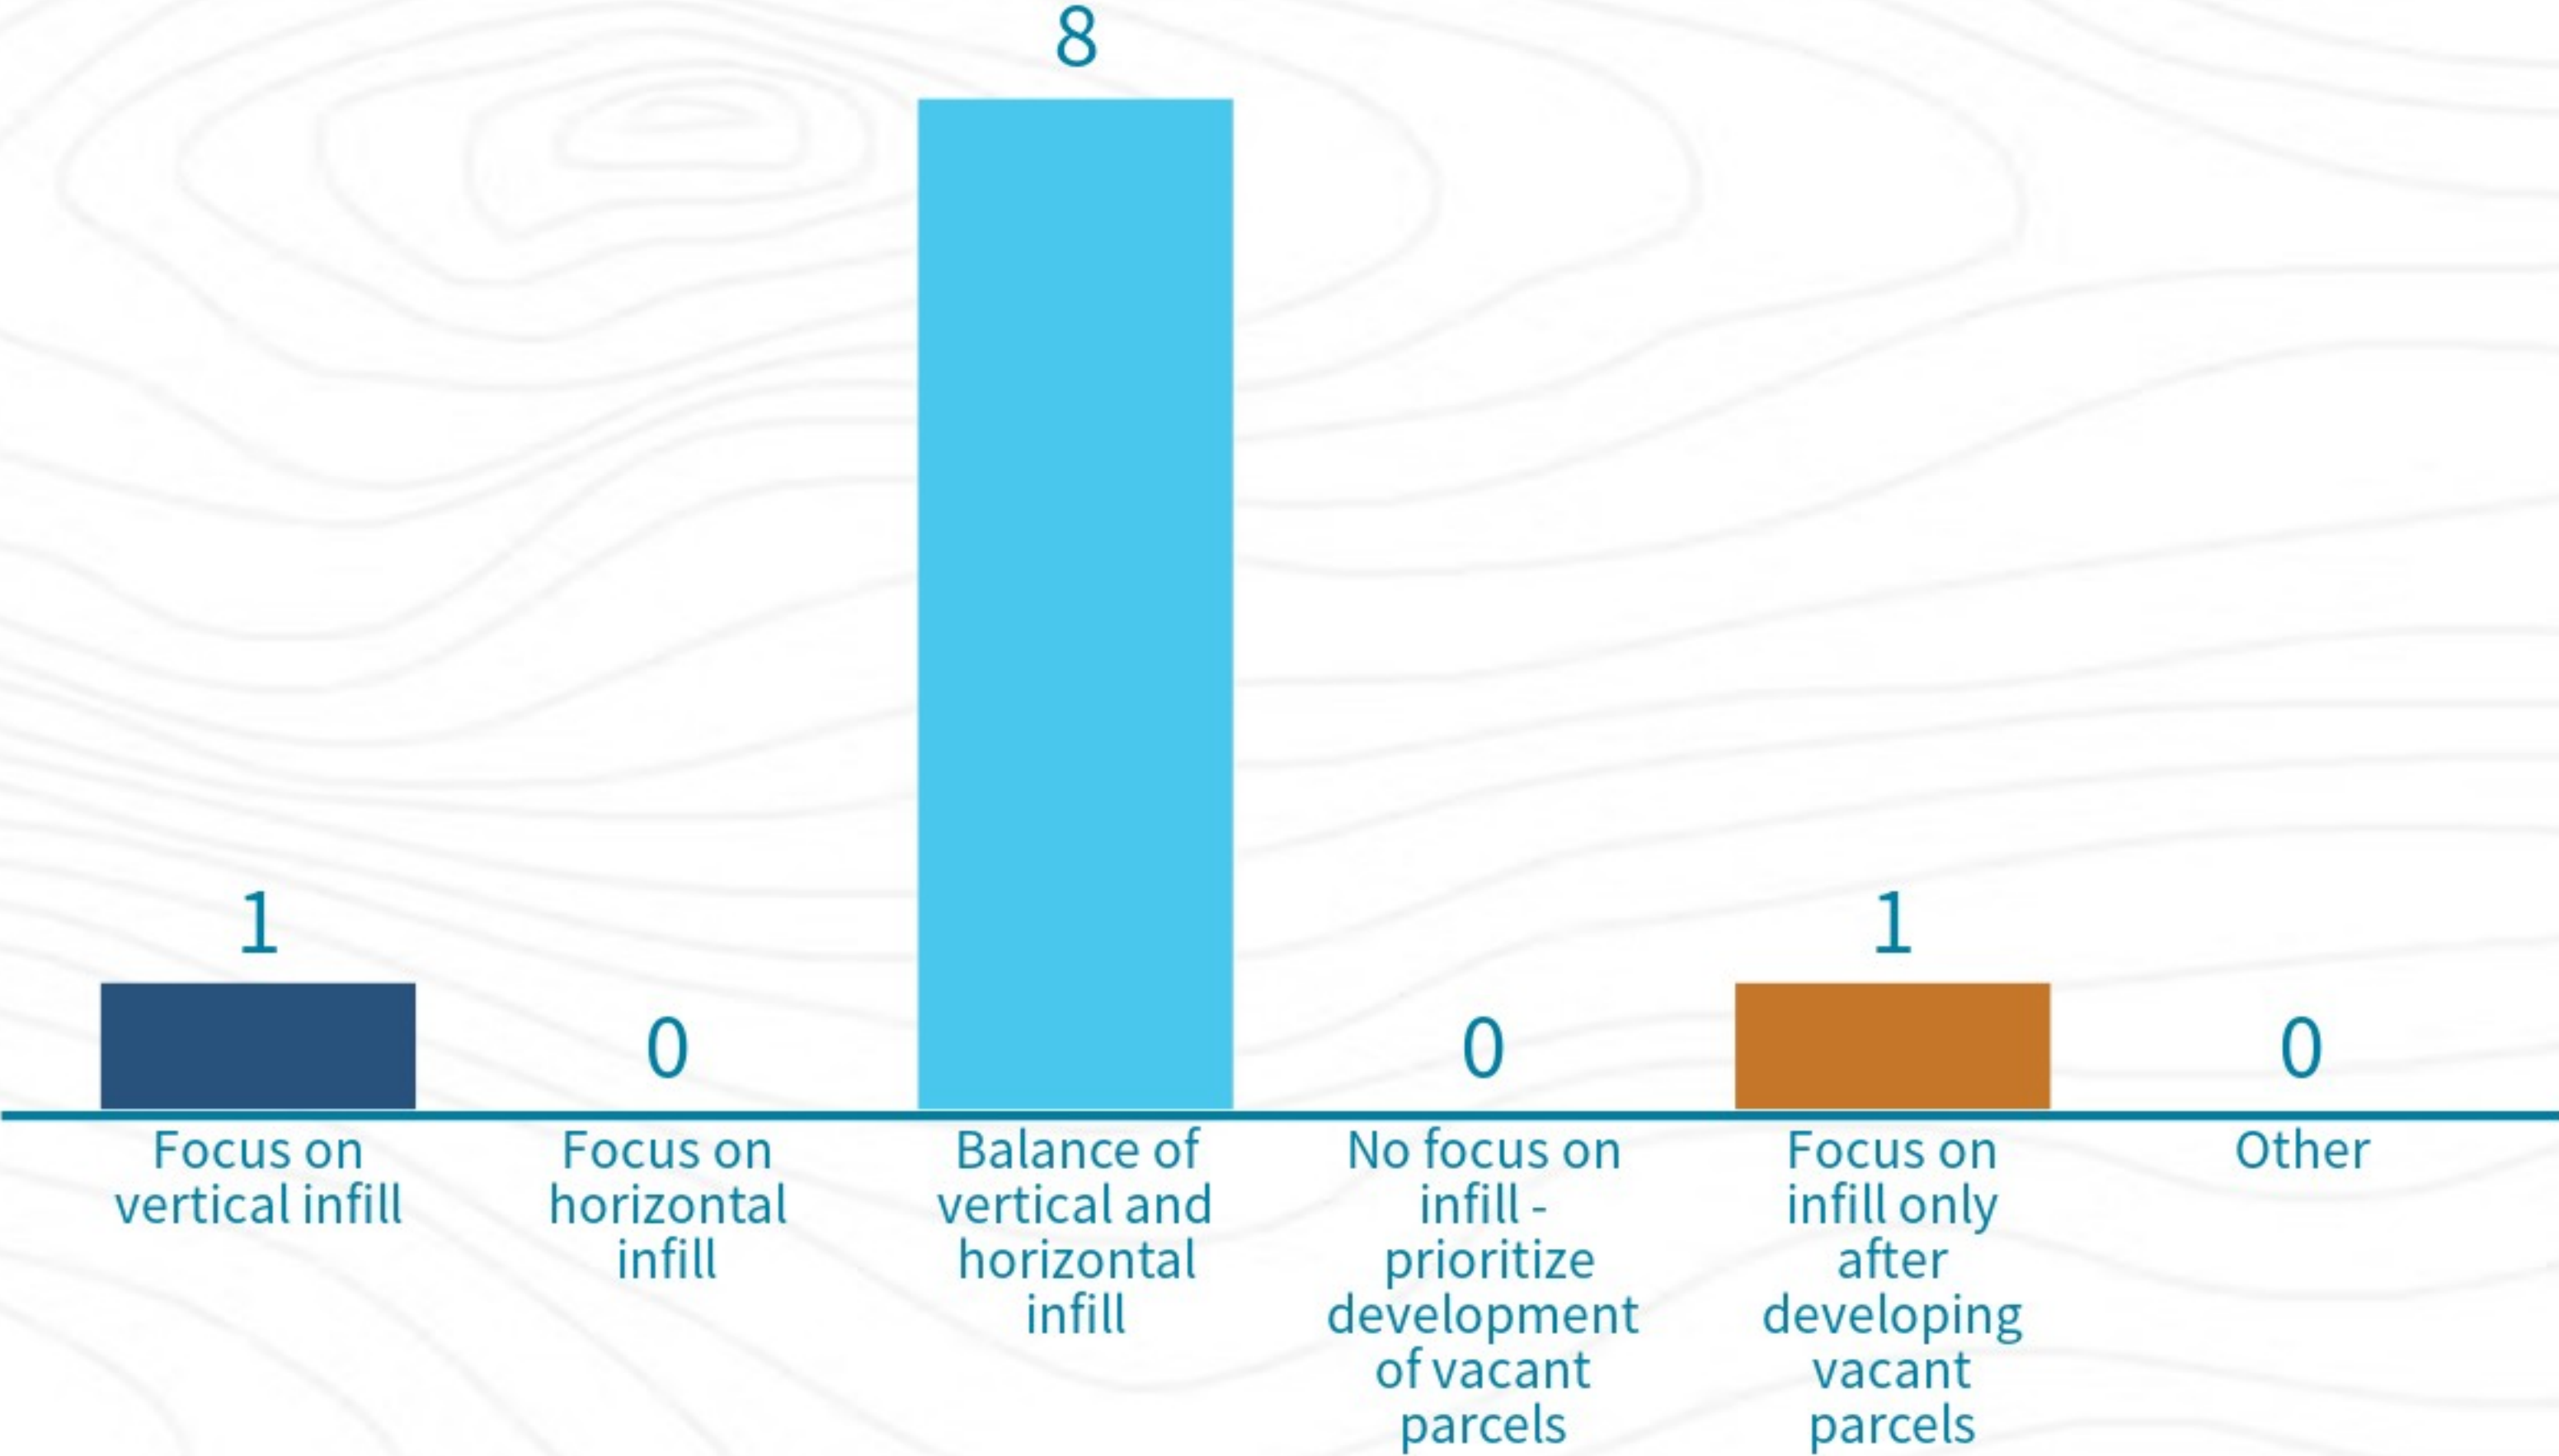

Horizontal Infill

- Redevelopment or utilizing space between buildings in otherwise developed areas

What does infill look like for Princeton?

How do we balance the need for growth with maintaining small town character?

No more statues. Not adding to Princeton's small town character.

Not a problem, lots of potential for commercial growth downtown but still keep small town feel, as there's not much there at the moment

Expand our green spaces and parks

We need a good mix of everything at the moment

Small town character in the downtown core! Multi family with commercial. Should include trails with connectivity between different areas.

We need new growth to sustain and be able to front the costs of what needs upgraded as we have discussed. Maintaining small town, will not look the same as x Princeton used to

Feature the town's ties to nature for tourism

Focus on sustainable development and not having too many regulations.

Maintain and build more green spaces, such as parks. Not try to develop them.

How do we balance the need for growth with maintaining small town character?

Emphasis on green and cleanliness: civic pride...more well marked garb bins w recycle bin. Signage dont litter

New garbage cans should be bear proof because Princeton is connected to nature and always will be a wildlife corridor.

Make Princeton an example of green growth.

Ya, no more statues.

Town Centre revitalization with a focus on small town characterGrowth thru stakeholder engagement and partnerships

Green space and trails. Recreation centre promoting a healthy community.

Some key themes have been identified in survey results as part of Princeton's identity, how do we consider these themes in design of new development?

Princeton's identity also needs to include the First Nations people. . .not just a pioneer town!

Natural resources

What about our mining history? Maybe we could focus on that!

What about the future? The pot plant.

increased trail connectivity - loops!!!More green space contribution from developersTown Centre patios

Walkable community

Bring in more nature downtown, ie put the trees back in (also good for the environment

Community involvement and input....maybe mail out?

Inclusive of all and welcoming

Some key themes have been identified in survey results as part of Princeton's identity, how do we consider these themes in design of new development?

Not enough community engagement, needs to be more.

Trees in the downtown like before.

Trail system focus on nature, family activities at memorial park, rivers, pickleball, tennis,

Needs to be more environmentally friendly. .
.miss those trees downtown that were cut down and never replaced. That's beautification!

Recreational center to draw families and tourists

Yes, the town said they would put back the trees that were removed...hmmm cant see them!

We need to have recreation facilities to help encourage and maintain our population

**What does
growth look like?**

Development Permit Areas

What is a Development Permit Area (DPA)?

- Guidelines for new development
- Provincial legislation allows an OCP to designate 'development permit areas'
- Properties within DPA would then be required to go through a permit process

Existing Development Permit Areas

1. Town Centre DPA

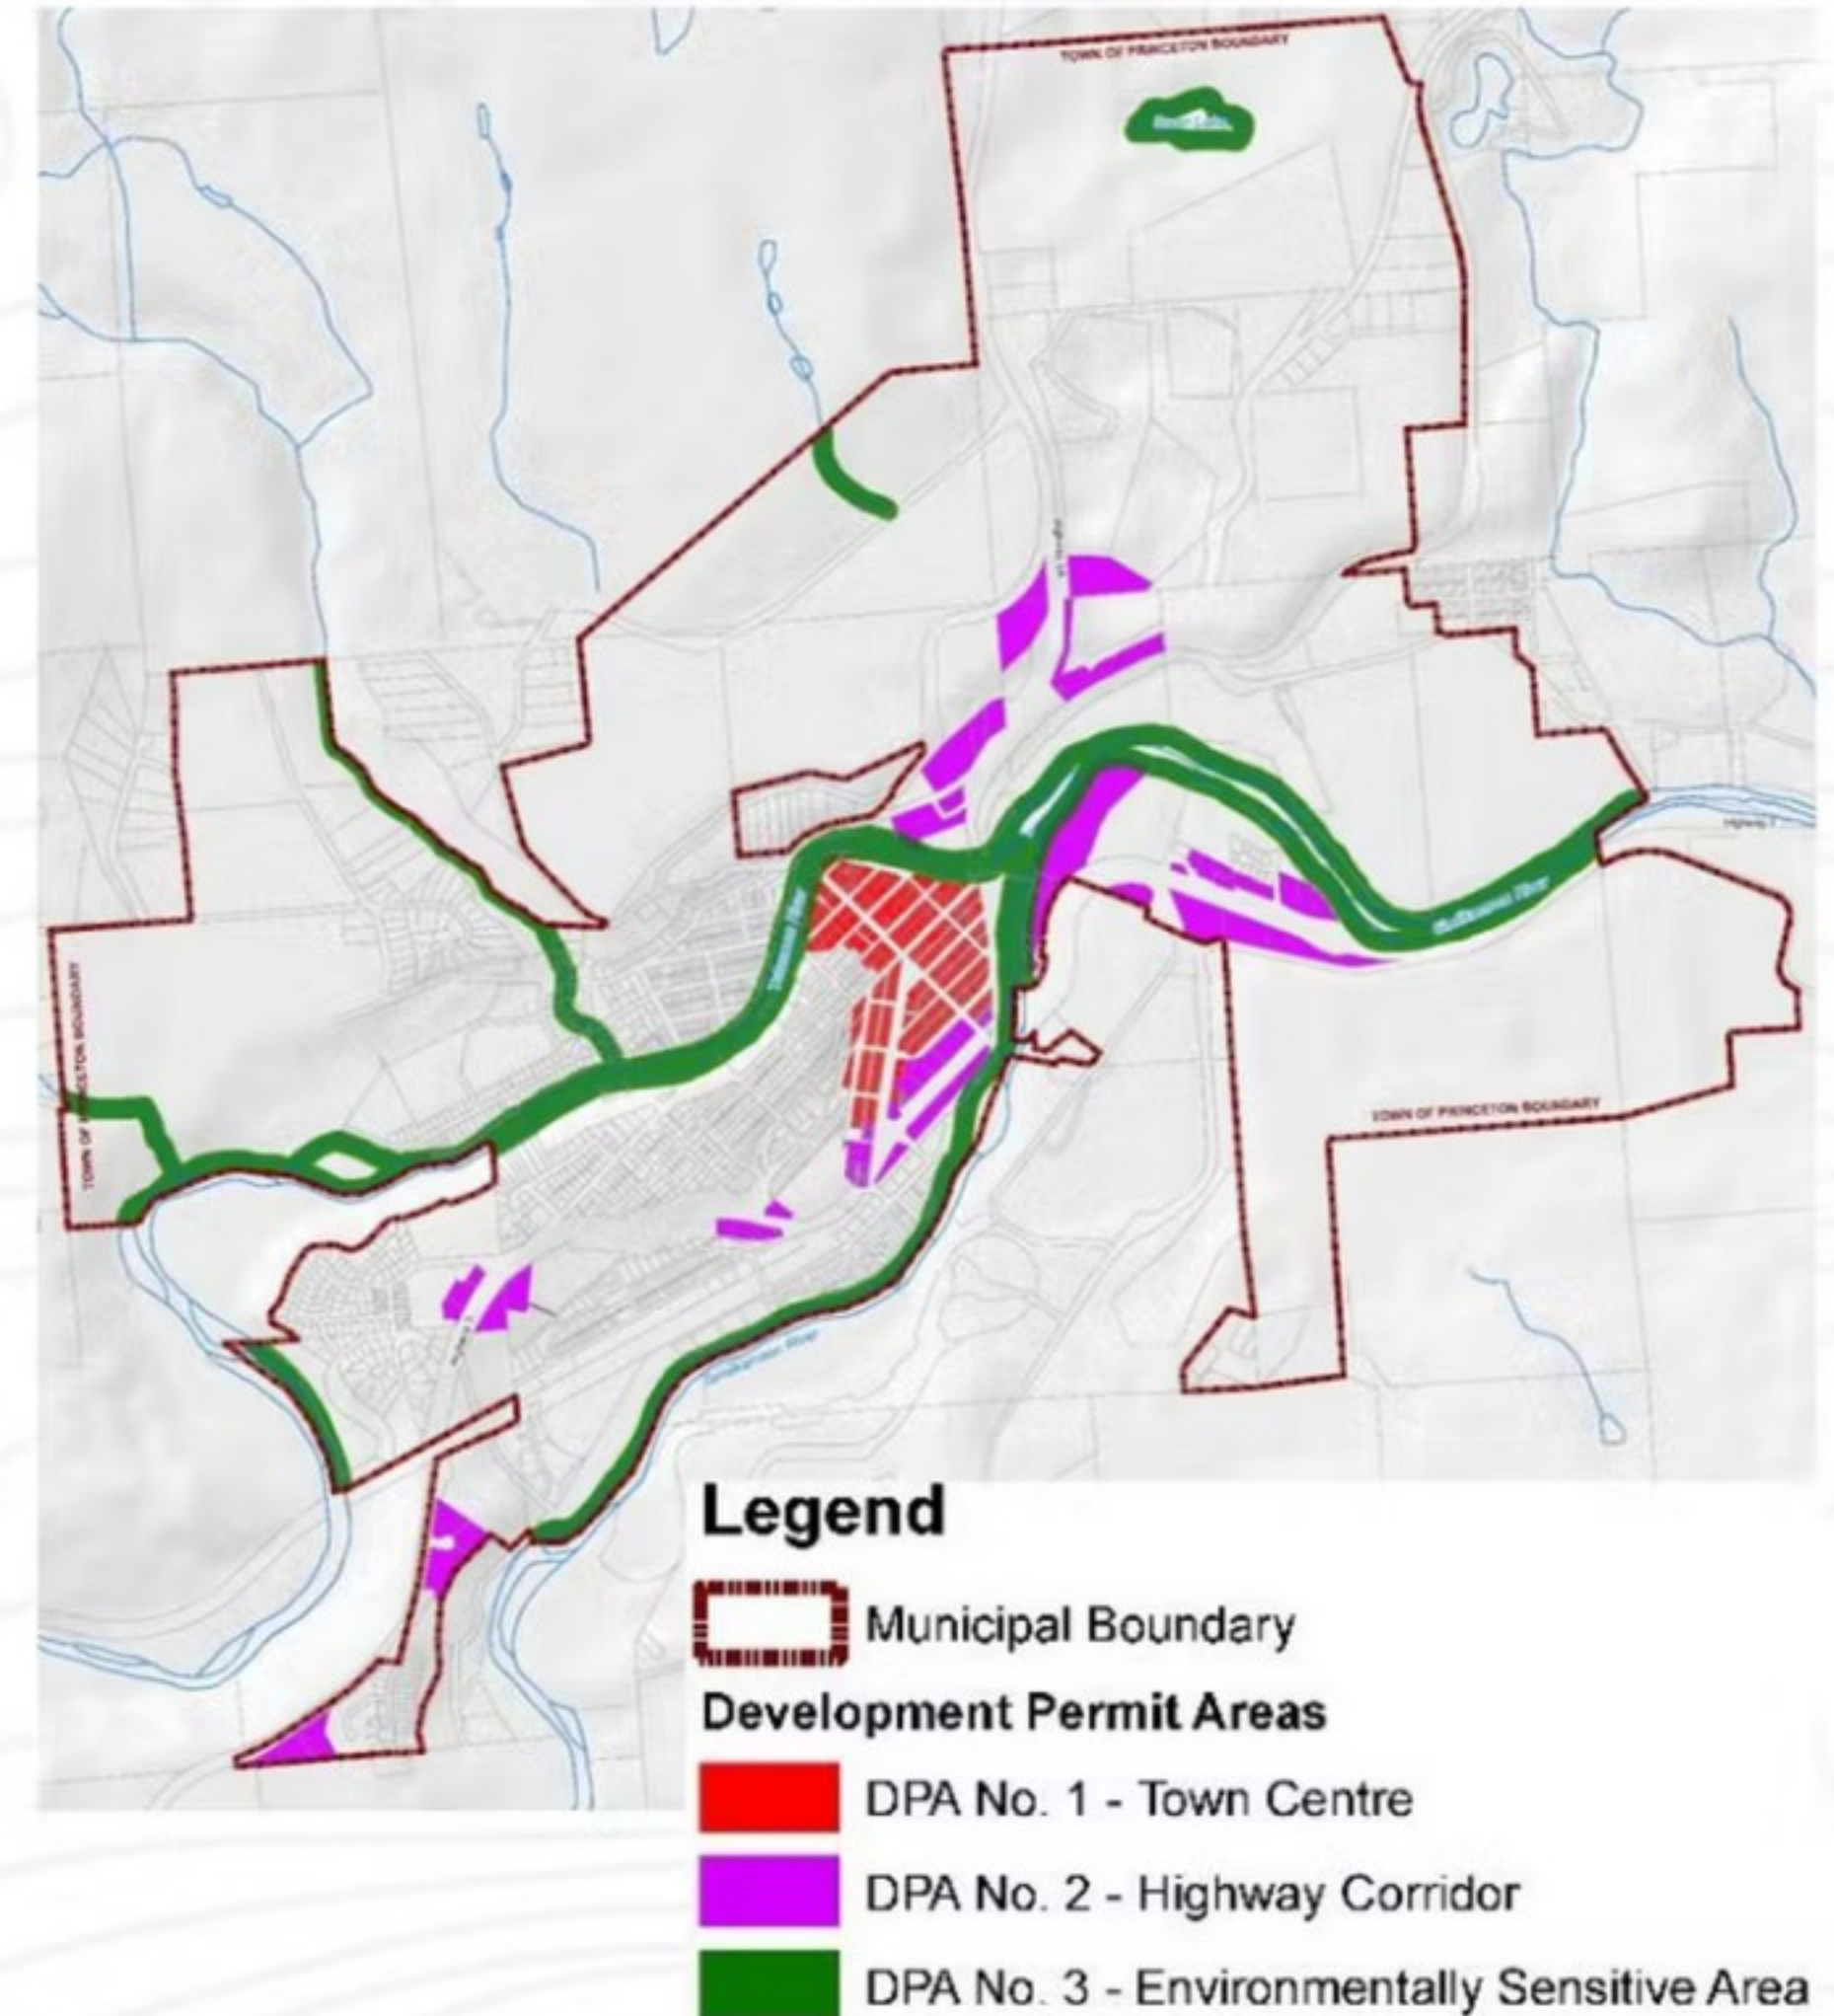

- Form & character
- Revitalization of a commercial use area

2. Highway Corridor DPA

- Form & character
- Revitalization of a commercial use area

3. Environmentally Sensitive Areas DPA

- Protection of the natural environment

Potential Gaps in Current DPAs

1. Highway Corridor DPA

- Highway Corridor DPA currently only applies to specific properties along highway corridor

2. Multi-Family Housing DPA

- No existing design guidelines for multi-family housing development

3. Business Park DPA

- No existing design guidelines for industrial development in the Business Park

Source: Unknown

Highway Corridor DPA

- Objective: **Form & character, revitalization** of commercial area
- Highway corridor forms **initial impression** for visitors
- Currently does not apply to entire corridor

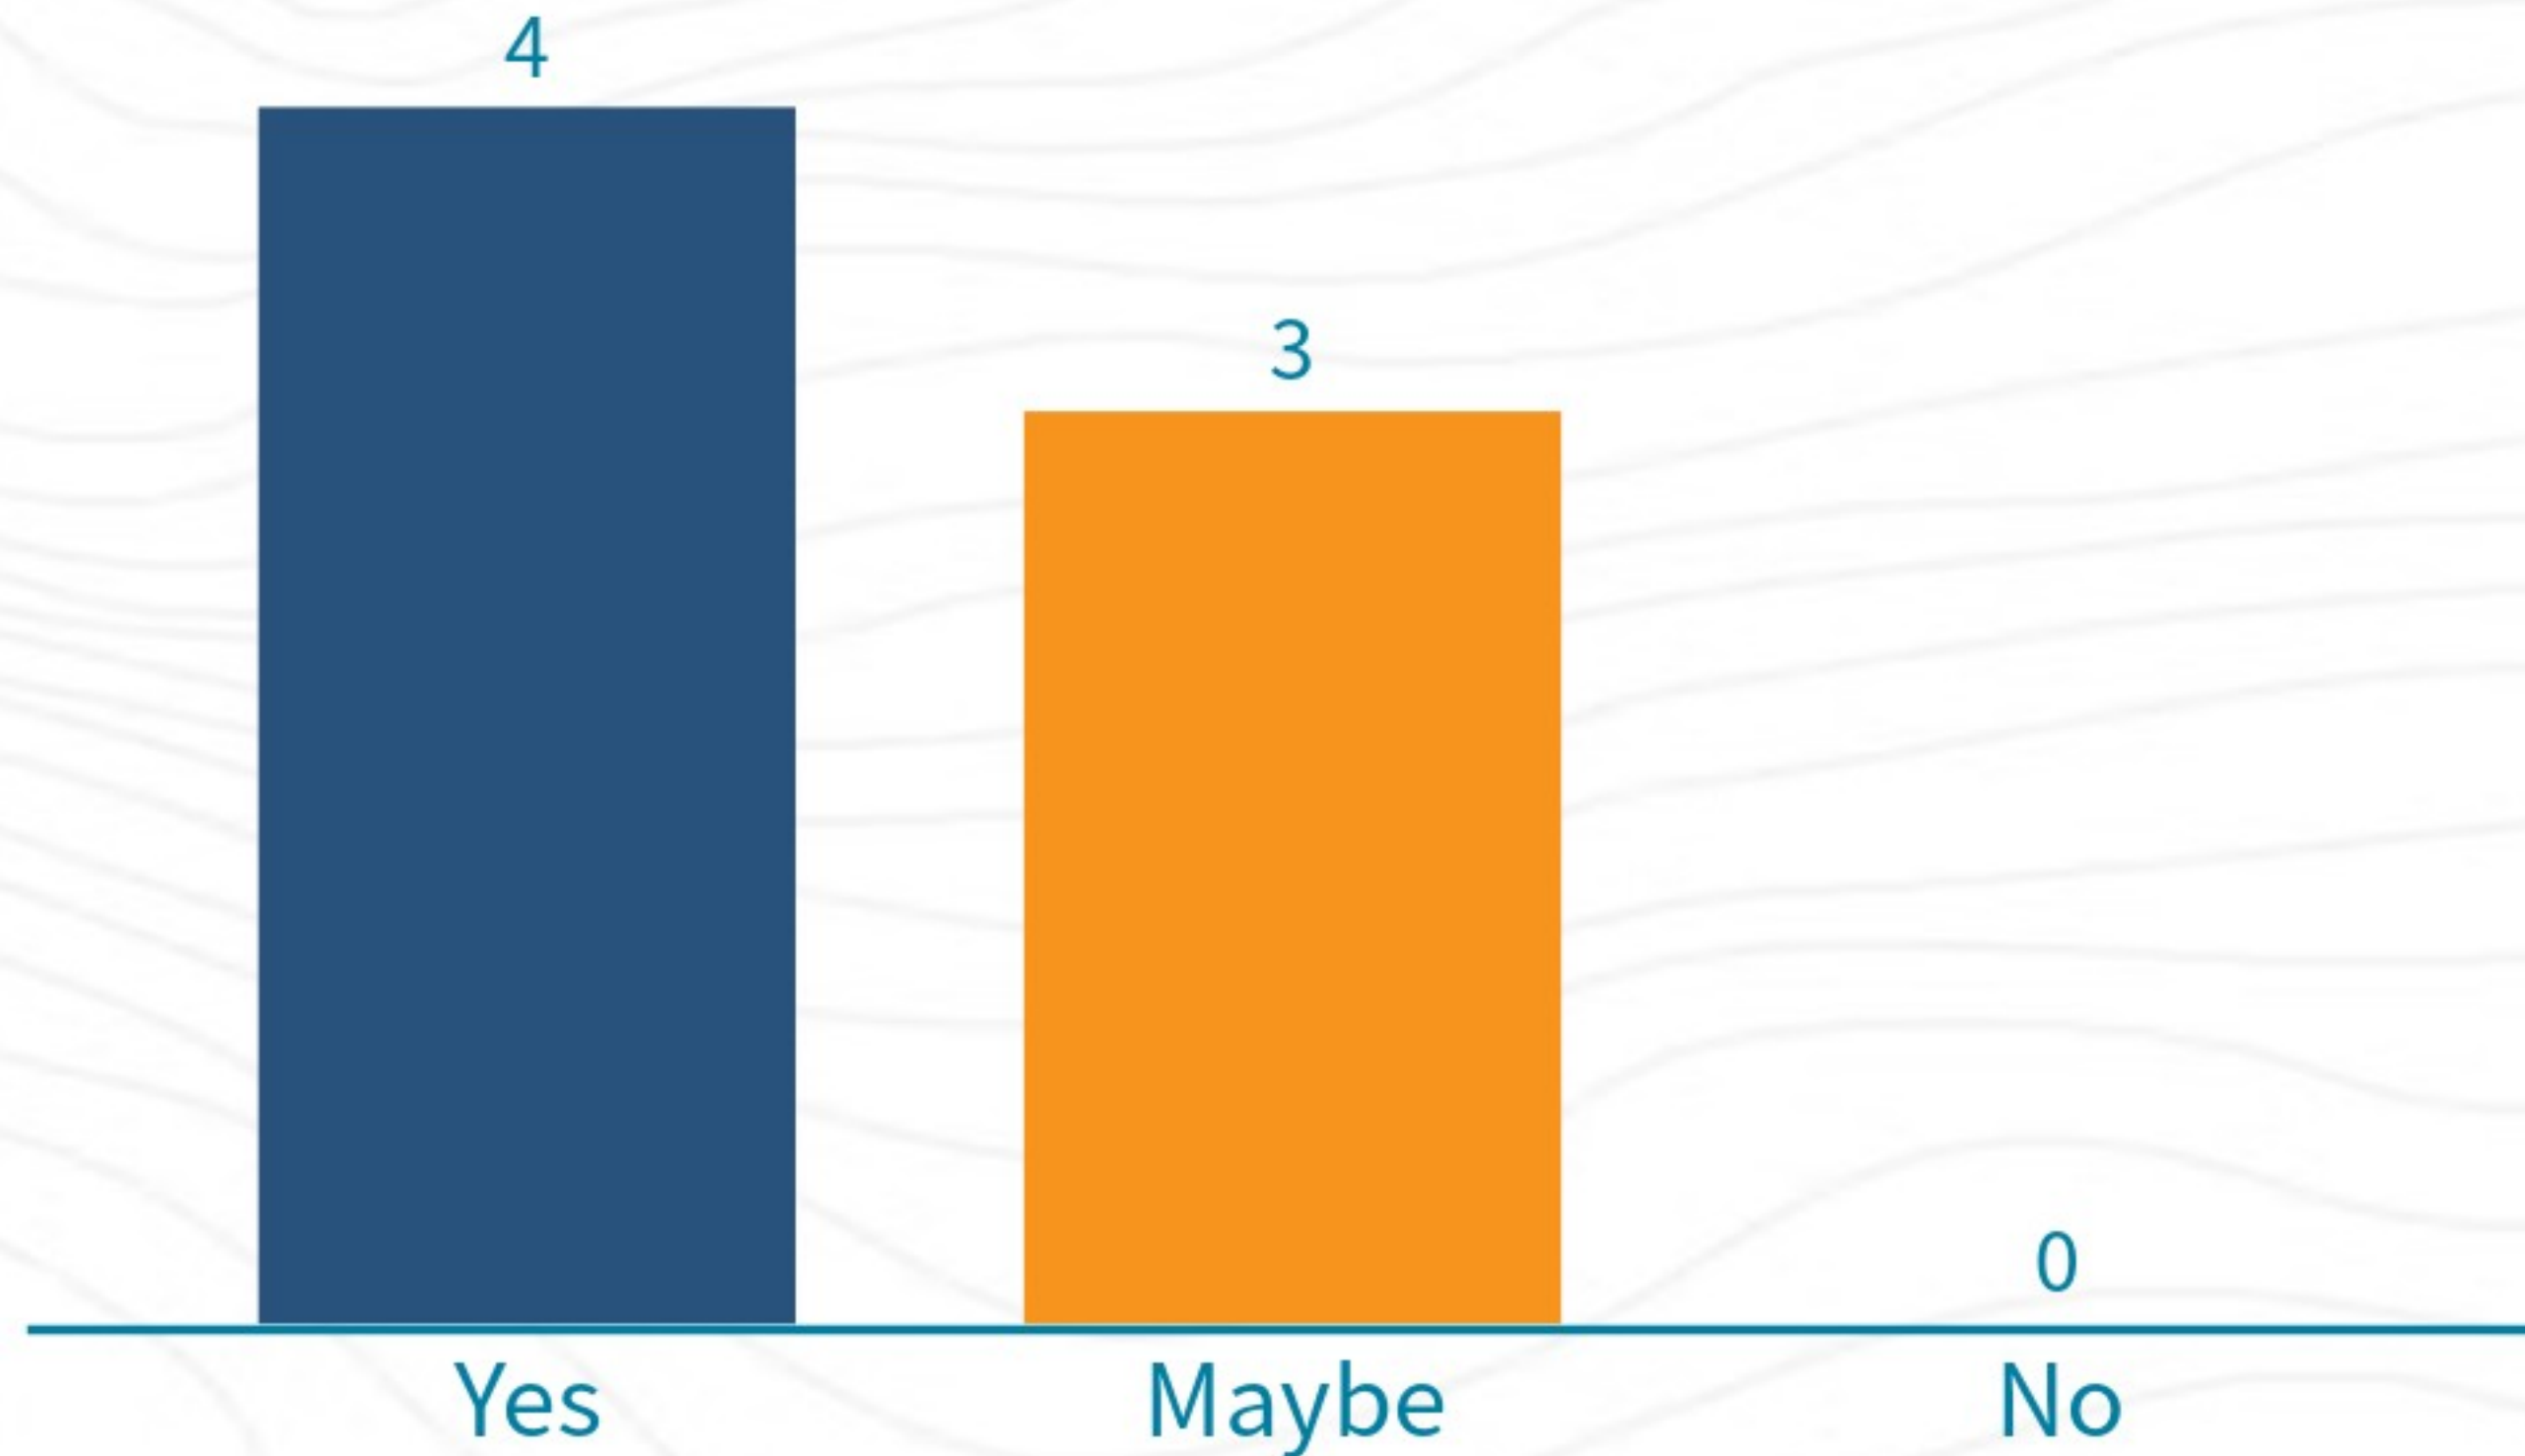

Source: Unknown

Highway Corridor DPA

- **Building Design:** No flat building faces, architectural interest, natural building materials & colours
- **Site Design:** Access & traffic flow, parking
- **Landscaping:** Drought tolerant native plant species, screening
- **Signage:** Location, sizes, shape, type, colour, & graphics should consider building design

Does the Highway Corridor Development Permit Area need to be expanded to include all highway commercial businesses along the highway corridor?

Multi-Family Housing DPA

- Objective: **Form & character**
- Focused on enhancing **aesthetic** appeal of new multi-family development
- Downside could be that it adds another **regulatory** process for multi-family housing development

Multi-Family Housing DPA

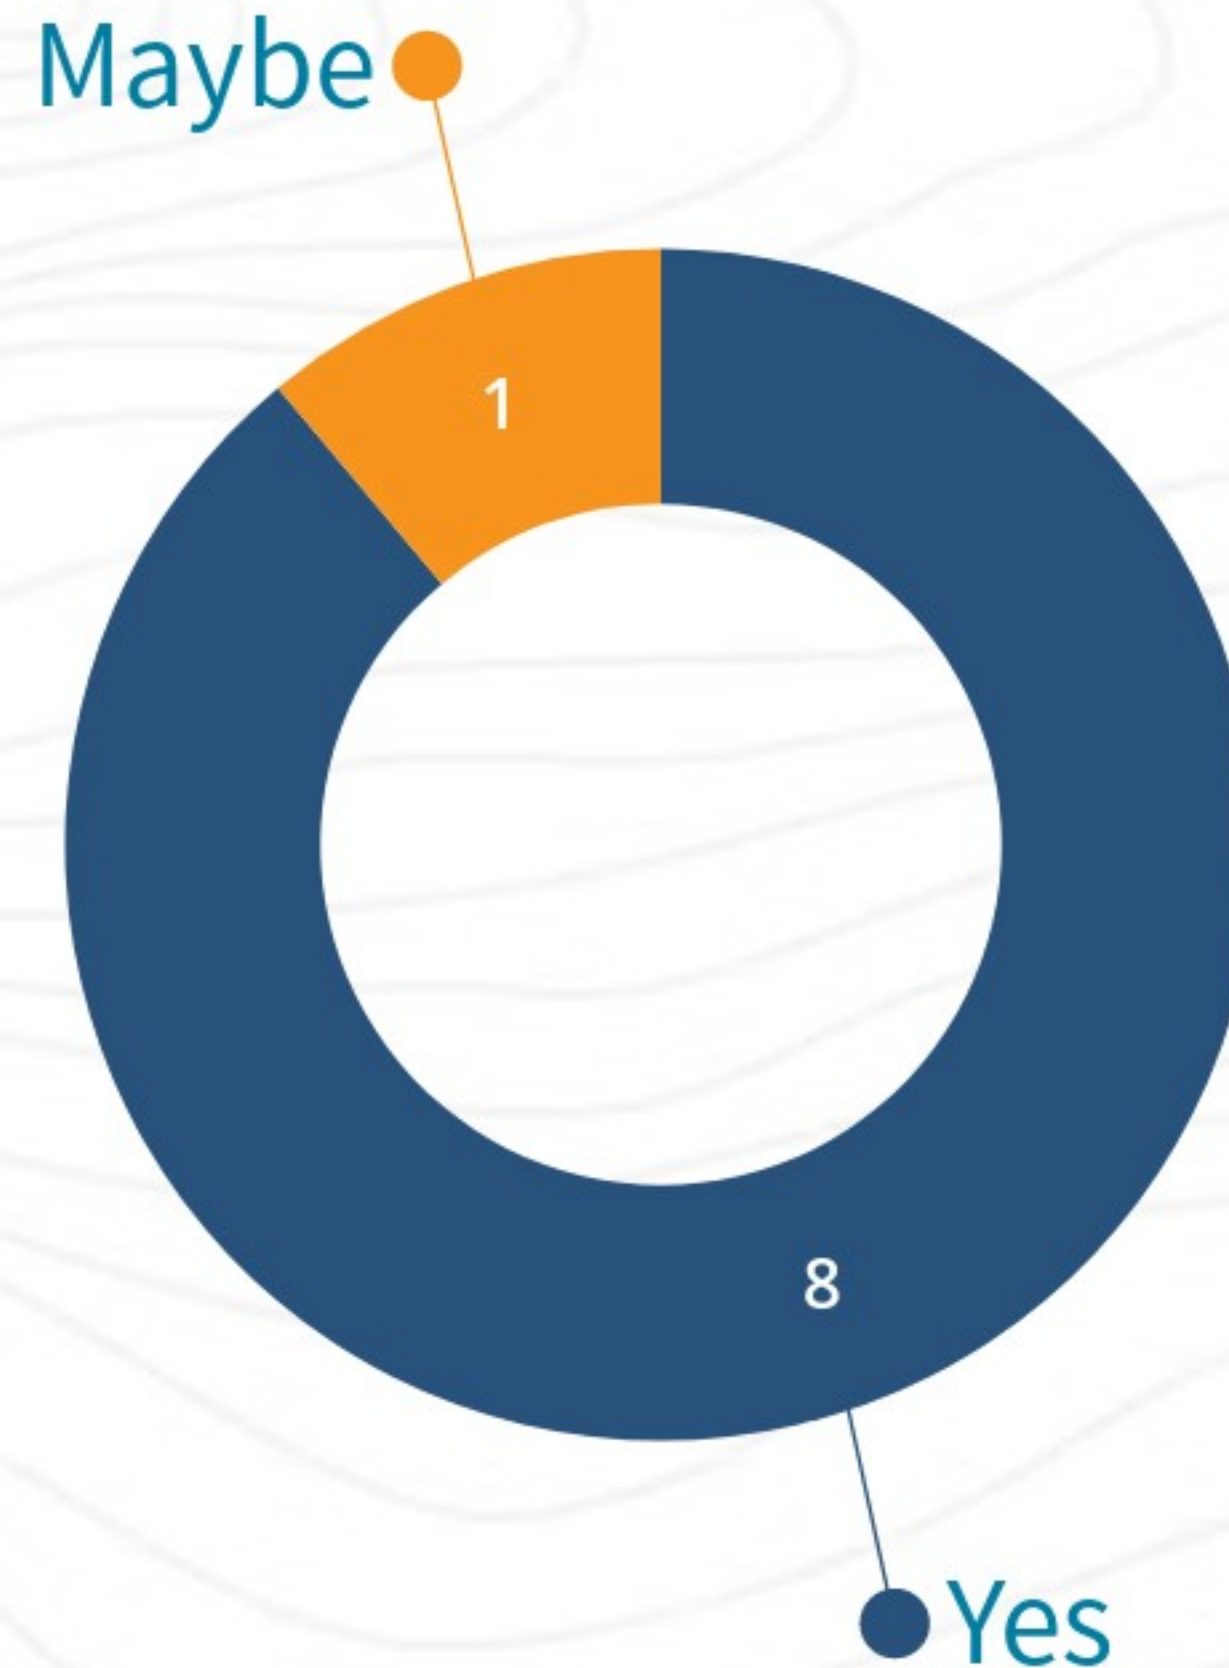

- **Building Design:** No flat building faces, architectural interest, natural building materials & colours, building orientation
- **Site Design:** Access & traffic flow, parking, private & public open space
- **Landscaping:** Drought tolerant native plant species, screening of garbage

Do you think a Multi-Family Residential Development Permit Area is needed in Princeton?

Business Park DPA

- Objective: **Form & character, revitalization & buffering** of industrial areas
- Focused on enhancing **aesthetic** appeal of new industrial development within the business park
- Downside could be that it adds another **regulatory** process for industrial development

Business Park DPA

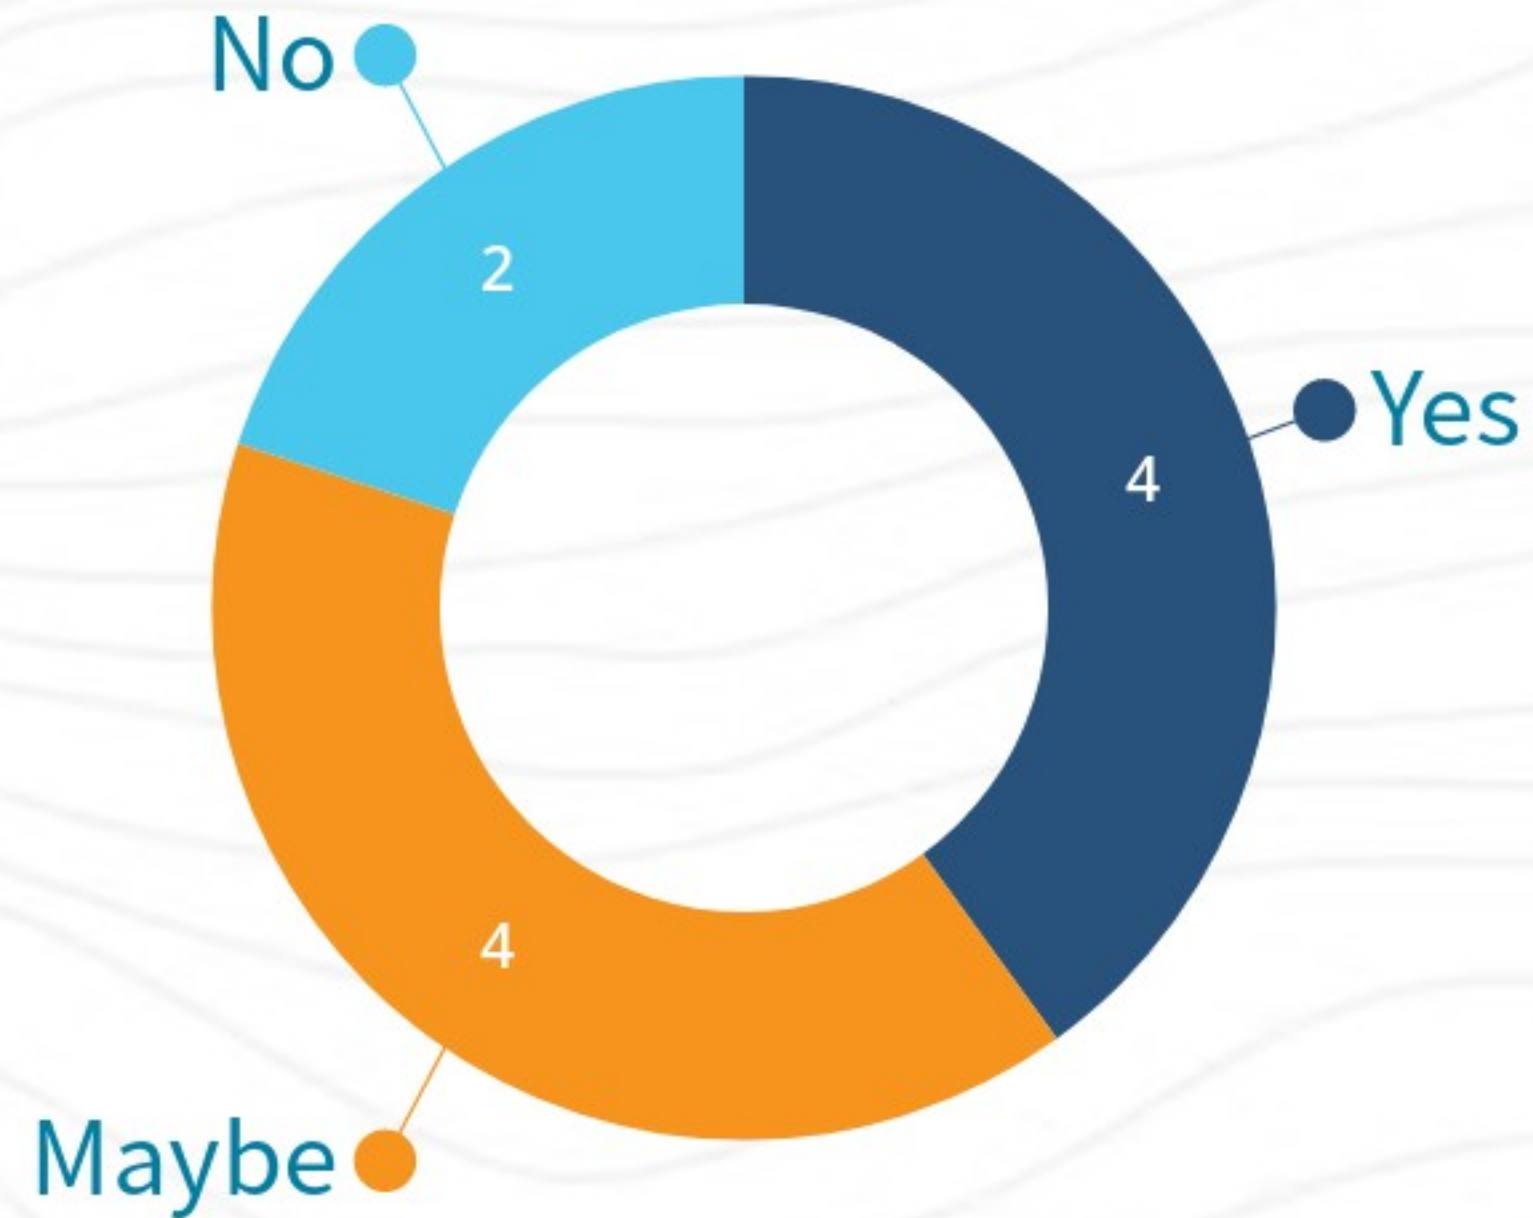

Madill The Office Company, Ladysmith

- **Building Design:** No flat building faces, architectural interest, natural building materials & colours, building orientation
- **Site Design:** Access & traffic flow, parking, crime prevention measures (through lighting, fencing, etc.)
- **Landscaping:** Drought tolerant native plant species, screening

Do you think a Business Park Development Permit Area is needed within Princeton's NE sector Business Park?

How do we grow?

Growth Management

- **Younger** population compared to region
- Lower median **household income** compared to region & province
- Housing **shortage**
- Largely **single-family homes**
- **Rising** house prices

Growth Management

YEAR	CENSUS POPULATION	5-YEAR AVERAGE POPULATION GROWTH RATE
1996	2,826	-
2001	2,610	-7.6%
2006	2,677	2.6%
2011	2,724	1.8%
2016	2,828	3.8%

Growth Management

2042 Status Quo Growth Scenario:

Status Quo Growth Rate: 0.72%		
RESIDENTIAL TYPE	% RESIDENTIAL DEVELOPMENT	ESTIMATED NUMBER OF UNITS
Low Density Residential	83%	178
Medium Density Residential	7%	16
High Density Residential	10%	30
TOTAL UNITS		227

NON-RESIDENTIAL DEVELOPMENT LAND UTILIZATION: 11,775 sq. m.

2042 Status Quo Growth Scenario

Growth Management

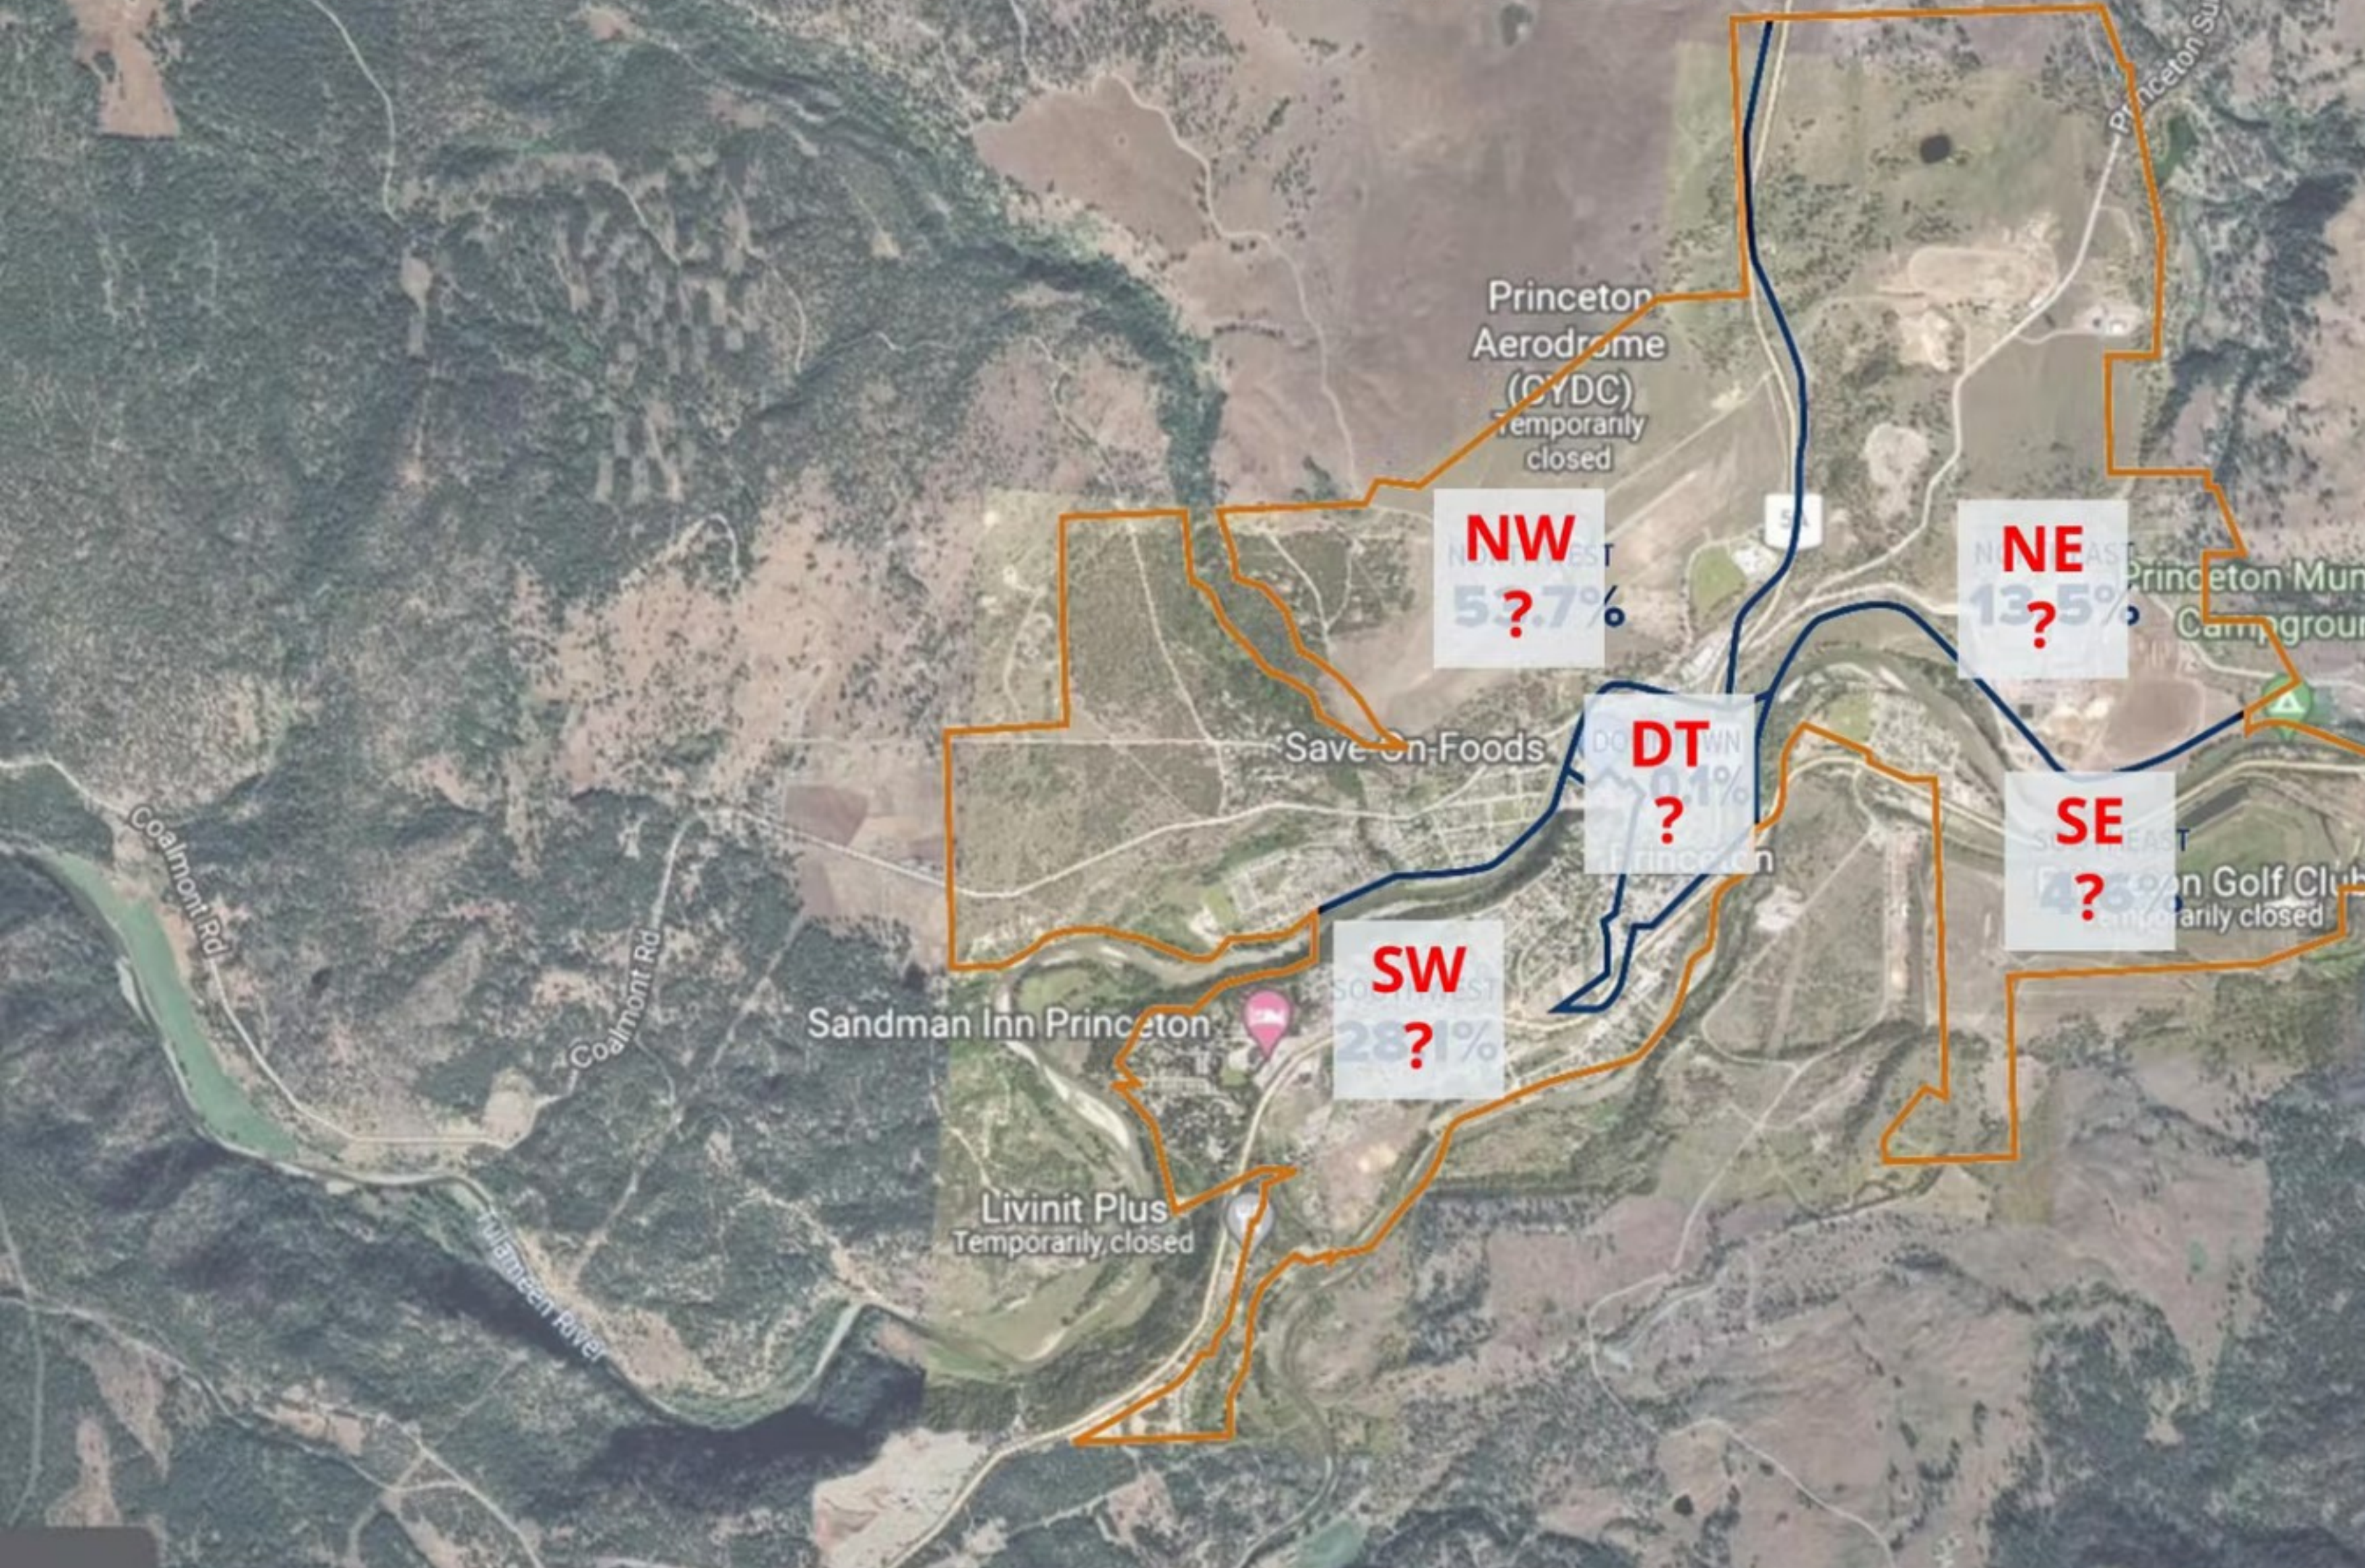

What we know:

- Trend of mass migration from urban to smaller BC communities
- Ample employment in Princeton
- Lack of housing supply & infrastructure barriers to growth

If supply catches up with demand, what can we anticipate over 20 years?

2042 Alternative Growth Scenario

Survey Suggests:

- **Higher** growth rate
- Balanced **single-family** & **multi-family** split
- Residential development distributed more **equally** but still a **focus on NW** sector
- More balanced **infill** & **greenfield** development

What else should we consider for an alternative growth scenario?

mix use upgrades in town centre

External investment

Industry could shut down and could go into a bust cycle

High density rentals in downtown core for walking to amenities for industry workers.

tiny homes rather than the ones mentioned.

Enhance recreational amenities to attract tourism

With a higher growth rate we need more recreation to attract and maintain our population

Growth rate may not be so high if we keep having there environmental issues

Beautification

What else should we consider for an alternative growth scenario?

In some places, industrial parks have housing. . .like condos.

Develop the black top area with housing.

Housing developments should not be for million dollar houses that no locals can afford

Less focus on luxury homes at the airport.

Meaningful beautification!

Create an arts culture that people come to Princeton for.

Notes:

Aging population – they want to remain in town but no options available to downsize

Princeton has signed on to the BC Climate Action Charter (approx. 10 years ago)

Small business perspective – reality is we are not going to do more development. It is too expensive, too much red tape and too difficult to make the money back. If I am going to be so restricted, why would I do it?

Not enough people in town – hard to get things going

Densify downtown – make walkable – get people out of their cars – 3-4 story buildings
Bottom floor retail and 2-3 floors above with residential

Focus on mixed use development

Need more low income – low-income households hit the hardest during flood and no where to go

Expensive housing isn't what is needed in the community for the most part

Jimmy Patteson lot – donated for community purposes – on title as such – could it be used for multi-purpose buildings – community gathering/recreation space surrounded by low income/seniors housing – best of both worlds – can Town revisit this?

BC Housing working with Community Services with respect to other locations for affordable housing

Need for affordable housing is huge! Important it still fits some aesthetic guidelines to make it look nice – do need guidelines for multi-family

Highway 3 into the plaza – better mall access to support those businesses (MOTI decision)

There is value in DP guidelines for safety and security – not to be restrictive in terms of aesthetics

Status quo growth scenario would upset me greatly – all great towns are walkable. Need density downtown – less cars

Not many park spaces downtown – they don't need to be huge but should have more greenspace available in the community

River walk

Themed town could be considered in design

Densifying downtown

My experience: based on my age – people who own larger single-family dwellings wanting to downsize but have to leave town – no options (no age friendly multi-family) and nothing walkable. Affordability isn't always a major concern for these people – sometimes they just don't have the options/suitable housing available to them in the community

More dedication – housing, walkability, parks in downtown – Age in Place

Focus on what we need in town but need mass transportation system improved (bus system inconvenient)

We haven't addressed climate change issue at all today – where we build is important (more of a focus in the survey)

Similkameen River Flood Mitigation Planning Report and Community Wildfire Resiliency Plan are two recent planning measures associated with climate change that will be incorporated in the updated OCP

Highlight accessibility and livability – not accessible for people with mobility issues – livability for all community members – i.e. from how we do sidewalks to ramps etc inclusive

Accessibility is more important than pretty buildings – accessible sidewalks, ramps, etc. are needed

Accessibility grants to be offered from town?

Focus on inclusivity - "Livability for all community members"

Agree re accessibility as a business owner – it's expensive to put in mobility enhancements – we can't afford to do this i.e., automatic doors up to \$7,500! Also making bathrooms accessible to those in wheelchairs

Hopefully the next OCP will be in 5 years

Small business perspective – town needs to remove red tape from developing

Walkability and green space – mixed use multi-story downtown

Town used to put out newsletter – good way of informing community

"We have excellent internet access which gives the town the opportunity to promote all kinds of businesses selling online, including call centres, education, artists, etc. Homebuilders will respond to housing demand as the shortage continues."

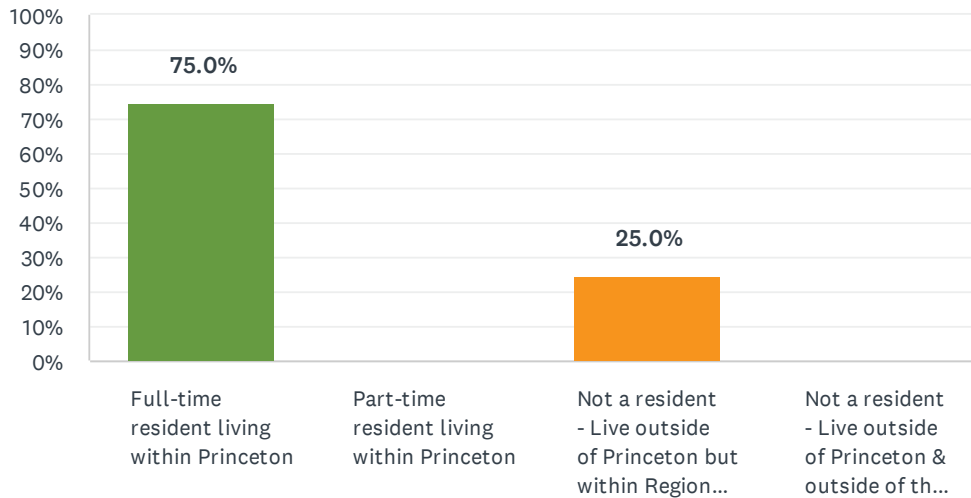

Potential Policy Directions:

- Age friendly assessment & action plan might be something the community could explore
- May not be ready for Business Park DPA and update to Highway Corridor DPA is not needed at this time
- Multi-Family DPA is largely supported as long as it is not too restrictive/does not add extensive red tape to development process

Q1 Which of the following best describes your group? (You may check more than one answer)

Answered: 4 Skipped: 0

ANSWER CHOICES	RESPONSES	
Full-time resident living within Princeton	75.0%	3
Part-time resident living within Princeton	0.0%	0
Not a resident - Live outside of Princeton but within Regional District of Okanagan-Similkameen	25.0%	1
Not a resident - Live outside of Princeton & outside of the Regional District of Okanagan-Similkameen	0.0%	0

Q2 Is there anything you would like to share about current trends, challenges, and opportunities for Princeton?

Answered: 4 Skipped: 0

#	RESPONSES	DATE
1	Opportunities to enjoy the recreation in Princeton. It would be enhanced by a recreation centre and pickleball courts.	4/11/2022 4:29 PM
2	I hate the lights going onto 5A	4/9/2022 10:36 AM
3	Small business definitely needs a helping hand. Infrastructure and reasonable recreation opportunities are a necessity.	4/9/2022 7:13 AM
4	A lack of seniors housing is going to be an ongoing problem as the baby boomers are retiring. Those wishing to downsize their homes are not able to, and apartments might not be the solution for all. Having said that, there is great recreational opportunity for our area and with the anticipated growth it will create business opportunity.	4/8/2022 4:39 PM

Q3 Is there anything you would like to share about small town character, infill development, and/or Princeton's overall community identity?

Answered: 4 Skipped: 0

#	RESPONSES	DATE
1	I really appreciate the friendliness and independence of spirit I find in so many corners of this area.	4/11/2022 4:29 PM
2	I love the small town feel and all the community events.	4/9/2022 10:36 AM
3	Town needs to continue revitalization within incremental limits over time as money permits. Revamp dike system.	4/9/2022 7:13 AM
4	Our identity is obvious, small town recreational paradise. Growth is great, but not sure we want to lose sight of the small town atmosphere.	4/8/2022 4:39 PM

Q4 Is there anything you would like to share about Development Permit Areas for Princeton?

Answered: 4 Skipped: 0

#	RESPONSES	DATE
1	Not sure what you mean by Develoment permit areas?	4/11/2022 4:29 PM
2	I would prefer not to see cookie cutter homes built. It would be nice if they had caricatures of old town feel.	4/9/2022 10:36 AM
3	Keep the town small town uniqueness, but at the same time continue to modernize.	4/9/2022 7:13 AM
4	No	4/8/2022 4:39 PM

Q5 Is there anything you would like to share about growth scenarios or growth management for Princeton?

Answered: 3 Skipped: 1

#	RESPONSES	DATE
1	One of the attractions is the small town feeling. Don't lose that!	4/11/2022 4:38 PM
2	I don't want to see this town explode with growth and loose the small town feel.	4/9/2022 10:40 AM
3	Growth should be sustainable and controlled.	4/9/2022 7:14 AM

Q6 Is there anything else you would like to share as we work toward drafting the updated OCP?

Answered: 3 Skipped: 1

#	RESPONSES	DATE
1	We need a recreation centre, improved swimming pool and especially pickleball courts or Impel the tennis players to share that facility which has minimal use! The majority of pickleball players pay town taxes but are denied the use of the courts! How many tennis players are there?	4/11/2022 4:38 PM
2	Fix the roads please	4/9/2022 10:40 AM
3	Infrastructure, housing, business, recreation and medical facilities are all things that need to be considered.	4/9/2022 7:14 AM

APPENDIX F: STAFF WORKSHOP MEETING NOTES

PRINCETON OCP REVIEW SECOND STAFF WORKSHOP - MEETING NOTES

Staff Workshop – Feb 28th, 2022

Attendees:

Lyle Thomas, CAO
Carrie Kassa, Manager of Corporate Services
Ed Atkinson, Manager of Protective Services
Mark McNaughton, Development Coordinator
Gary Schatz, Director of Economic Development

Notes:

Slide 6: Mini Active Transportation Assessment (Wood Bridge)

- Left side trail, north of bridge, made this to get people off the road
- Kids using to get to high school – morning and school time are peak times – used to have crossing guard for pedestrians
 - Use shoulder of road to go up Old Hedley Road
- Painted white line ...Old Hedley for pedestrian
- Ordered pedestrian controlled lighting – kids can control

Slide 9: Growth Management (population)

- Mine shut down in 1996 (until 2001) so this had huge impact on population (reason for decline)

Slide 12: Demographics – What does all of this mean for Princeton?

- High number of seniors...need larger homes for visitors they're taking in...to see Okanagan
- Seniors want to downsize but don't have available options in the community
- Growth vs small town character...do we like it this way?...how to appease people who don't want growth
- NIMBY impacting views
- Growth offsets the costs of new/expanded services...growth through community engagement
- Balance different interests (NIMBY vs need for more housing)
- Alternative or maybe common perspective in the community is that we have reached capacity

Slide 13-14: How can we utilize the OCP to encourage economic diversification?

- 10-12% of employees do not live here - Copper Mountain Mine, Weyerhaeuser
- What is economic diversity for Princeton?
 - Princeton unique in terms of diversification. This will continue as housing grows. Shortage of available retail space.
 - Tourism, mine, mill, cannabis

- OCP create direction. Town is going in and highlighting opportunities..."Hey, I can fill that gap."
- Attraction/Marketing Strategy – OCP directive
 - OCP should sort of market unique features of Princeton's economy

Slide 15: How do staff and Council feel about vacation rentals?

- Haven't discussed with Council yet
- Staff see both sides – may need to regulate to get ahead of it but also see that it isn't working in some communities
- Regulating too heavily (expensive fees) could discourage people from going through the proper process
- We should ask the community what they think
- Encourage people to experience life in Princeton: no issues re: airbnb but don't like what Penticton has done, make it accessible with short-term rentals, restrict by area? ie. so long-term* Need discussion with Council, need strong policy and regulations in place so don't impact long-term rental

Slide 16-18: Active transportation

- Ed to depict types of users on trails
- ATV use access...ask through OCP?...no access except KVR – need for access through backyards to KVR/other trails
- Separate planning workshop – Ed and Carrie, multi-purpose and how to avoid conflict
- Hand-held trails map – OCP directive

Slide 19-21: Environmental/Hazards

- Fire-Smart DP area: near wildlife hazard areas. Ask community - recommend by staff – are community supportive?
- Private areas not mapped – OCP policy directive
- Areas other than green = can get funding to deal – from province

Slide 22-32: Growth Scenario

- Like multiple scenarios but need to validate why we came up with others ...and why low growth rate = Census
 - All staff think growth rate is higher than 0.72% annual (other in Menti Q where 2.5% and 3% plus annual growth rate)
- *3,280 – BC stats said just before census came out
 - Look into this – is growth rate used higher or do they just have higher base population for Princeton?
- Potential residential development
- *Forecast with BC stats - see what that looks like
 - Difference of 386 people - could this be 10-12% working but not living here?

- Future expansion and....
- Ask community – future growth rate – what do we think it will be?? 2.5-3+%
- Lyle...Did you Know? ✓ likes – format all the same

General:

- What does Princeton need in terms of housing? Who needs housing specifically?
- What does economic diversification look like to residents?
