Rodrigo Barbosa, President, and CEO of Aura, commented, "It is with great pride that we receive this award, now for the second time. Since our IPO in Brazil, we have announced a clear pipeline for growth to exceed 400,000 Oz of production through our greenfield projects and new acquisitions, within our Aura 360 ESG standards. This award is a market recognition of Aura's potential to deliver value to shareholders and to our team, which has already shown that it knows how to deliver results in a volatile environment with the pandemic and now high inflation. We still have a lot to do, and we are excited for the progress ahead with finishing construction of Almas and building Matupa and Borborema, a recently acquired project."

Founded in 2019, the TSX30 is an annual program that recognizes companies which have sustained excellence over the long term by driving growth in their industries, for their investors, and for the Canadian economy. Aura is proud to be #1 among the 30 companies on this year's list who have demonstrated their resilience and adaptability amidst a volatile market, despite shocks to global supply chains and uncertain geopolitical stability.
