Important notes about ordering your requirements

- All APSs must be provided in English. John Hancock does not cover translation fees and the translator should be at arm's length to the sale.
- We will accept another company's paramedical form. However, a John Hancock Health Questionnaire must also be included if another company's paramedical form is submitted.
- Please note the following:
- If a survivorship policy is applied for: age and amount requirements for each proposed insured are based on half the amount applied for; non-medical requirements are based on the full face amount.
- If an individual and survivorship policy are applied for: age and amount requirements are based on the amount applied for under the individual policy plus half the amount applied for under the survivorship policy; non-medical requirements are based on the full face amount, both individual and survivorship policies.
- Requirements are based on the amount applied for and placed with John Hancock within the last 12 months.
- If one life is uninsurable, all requirements for the insurable life are based on the full amount applied for under the survivorship case, and only a Health Questionnaire is required on the uninsurable life.
- The underwriter may request or order additional requirements: e.g., database searches, PFTs, echocardiograms, heart charts or cognitive assessments due to the proposed insured's medical history, circumstances of a case or facultative reinsurance.
